Outside of an attempt to raid the oats market, the cereal situation at Chicago was dull and narrow.—Page 12.

The market on the Pittsburgh stock exchange yesterday was fairly active and generally steady to firm; the inauguration of continuous session worked very smoothly and proved beneficial.—Page 13.

DETROIT BANK IS LOOTED BY ITS VICE PRESIDENT

He Secured Over a Million Dollars from Its Vaults Without Giving a Cent's Worth of Security.

CASHIER CERTIFIED CHECKS FOR OVER $600,000 MORE

[BY ASSOCIATED PRESS TO THE GAZETTE.]

DETROIT, Feb. 10.—Vice President Frank C. Andrews of the City Savings bank, which has been in the hands of State Banking Commissioner George L. Maltz since this morning, was arrested late this afternoon and arraigned at 9:30 o'clock tonight on the charge of wilfully, fraudulently and knowingly securing from the bank without security and without the knowledge of the other directors a sum exceeding $1,000,000. He was released on $10,000 bail, and his examination was set for February 21.

Cashier Henry C. Andrews, through whom F. C. Andrews is said to have secured the money by means of overdrafts and certified checks, is seriously ill at his home, with nervous prostration. In addition to a total indebtedness to the City Saving bank of $1,158,000, to secure which Mr. Andrews has signed over to that institution all his real estate holdings and stocks, bonds and other securities, which it is estimated will total about $1,000,000, four local banks and a trust company hold his checks certified to by Cashier Andrews to the amount of $662,000. A considerable number of these checks are protected by securities deposited with them by Mr. Andrews.

What the Commissioner Found.

As soon as Commissioner Maltz took charge of the institution he immediately began an examination of its books. It was found that Cashier Andrews had permitted F. C. Andrews to overdraw his account $914,000. Other liabilities brought F. C. Andrews' total indebtedness to the bank up to $1,158,000. In addition to this, Cashier Andrews had certified to checks for F. C. Andrews, which he had deposited in other banks, to the amount of $662,000. At the close of his examination, Commissioner Maltz tonight issued the following statement of the bank's condition at the close of business February 8:

Resources—Total loans and discounts, bonds, mortgages and securities, $2,363,008, overdrafts, $913,852; real estate, $10,890; cash in banks, $288,697; other assets, $18,922.

Liabilities—Stock, surplus and undivided profits, $225,212; deposits, $3,370,251.

Accounts in Memorandum Book.

The examination showed that the record of F. C. Andrews' transactions was not kept in the regular way, but in a memorandum book. The first record of a transaction between Cashier Andrews and F. C. Andrews is January 11, but the examiners estimate that the transactions have been going on for about six weeks.

President F. C. Pingree explained the manner in which the certified checks were obtained as follows:

"F. C. Andrews would draw a check for the amount he wanted and have it certified by the cashier, Henry H. Andrews. He would present this certified check to the person he was doing business with and ask him to hold it out for that day, as the bank was not in funds to meet it. Perhaps he would thus hold it out for two or three days, and eventually, when there was money enough in the bank to meet the check, he would go in and take it out. There would be only a slip of paper in the drawer and the wherewithal would be put down as a cash item. With this money he would in person pay the certified check and tear it up. This was done time and again."

Statement of the Directors.

The directors issued the following statement in regard to the suspension:

In justice to ourselves, our depositors and stockholders, the undersigned directors of the City Savings bank make the following statement: Early on Saturday morning we learned for the first time that Henry R. Andrews, cashier of the bank, had allowed Frank C. Andrews to overdraw his account in the sum of over $900,000, all of which checks were outstanding. The bank was immediately put into the hands of the banking commissioner, and we set about to get all the security we could. Mr. Frank C. Andrews has turned over to the bank a large amount of securities, from which we hope to pay our depositors in full.

The banking commissioner has deemed it the wisest policy to close the bank for the present for the best interest of all depositors. Outside of the Frank C. Andrews indebtedness and checks the bank was never in a better condition.

County Auditors Embarrassed.

The City Savings bank was the depository for funds of the county auditors, their balance there being more than $150,000, and F. C. Andrews was arrested this afternoon on a complaint sworn out by Auditor Christian, after a long conference between the auditors and Prosecutor Hunt. The warrant was served on Andrews, who is commissioner of police, by two of his detectives in the office of the Detroit Trust Company, where he had been in consultation with officers of the banks holding his certified checks.

The City Savings bank was also the depository for the board of education, which had a total of $467,000 on deposit. Other local banks will temporarily advance funds to the board of education for salaries and running expenses.

At a meeting of the clearing house association this afternoon the following statement on the suspension was issued:

Clearing House Statement.

The disaster which has today befallen the City Savings bank is the result of criminal irregularities confined entirely to that institution and caused by the rash speculation of its vice president, who controlled the management and betrayed his trust. The bank has been expelled from the association. The officers of this association desire to state to the public that there is no need of apprehension regarding any other bank in the city. The present condition of the banks, as shown by the weekly statements furnished to the clearing house, reveals an unusually strong showing in reserve and cash resources, and the fair name and good reputation of the banks of Detroit will not suffer by reason of this trouble.

M. W. O'BRIEN, Chairman.
E. C. BOWMAN, Secretary.

No Runs on Other Banks.

There was nothing like a panic at any of the other banks in the city today and comparatively few deposits were withdrawn as a result of the excitement. At the Gratiot Avenue branch of the City Savings bank, which drew its deposits largely from the laboring people, there were many pathetic scenes as the depositors learned that the bank had suspended. Officers were in the vicinity to quell any disorder, but their services were not necessary at any time.

ALARMING NEWS FROM BEDSIDE OF PRESIDENT'S SON

Voice of Boy Calling for Water Heard from the Street.

DOUBLE PNEUMONIA SET IN YESTERDAY

[BY ASSOCIATED PRESS TO THE GAZETTE.]

GROTON, MASS., Feb. 11, 2:30 A. M.—The condition of Theodore Roosevelt, Jr., at this hour is apparently very serious, for lights can be seen in the infirmary and nurses and doctors are moving around.

For the last half hour the voice of the boy calling for water could be heard on the street. No news could be obtained from the house, but it is thought the patient is delirious.

President and Mrs. Roosevelt spent a long, anxious day in the infirmary, awaiting the crisis of the disease which this morning appeared to have taken such a strong hold of their son.

Change Came in the Night.

The change for the worse in the boy's condition occurred during the night and showed itself when the regular morning examination was made by Dr. Shattuck and Dr. Warren. Secretary Cortelyou who is the only means of communication with the sick room, made the announcement this morning of the patient's serious condition, although he said then it was not alarming.

"His temperature is higher," said Mr. Cortelyou, "and his respiration is weaker than yesterday, but his pulse is better."

He also said there was no immediate change, only the natural progress of the disease. He announced that the malady had spread and involved both lungs.

This sudden and unfavorable turn warned the president that the most skillful medical treatment was necessary, and so tonight he called to the aid of Drs. Shattuck and Warren his family physician, Dr. Alexander Lambert of New York, an eminent practitioner and a man well acquainted with the boy's physique.

Other Doctors Consented.

The decision to call Dr. Lambert was made after consultation of the physicians and the president, and the doctor left New York at noon, arriving here shortly after 5 o'clock.

Dr. Lambert is professor of clinics at Cornell university medical college and assistant bacteriologist to the New York board of health.

The visit of father and mother seemed to brighten up the patient considerably.

From the statements of Dr. George D. Shattuck, the crisis of the disease will be reached on Wednesday, and the next two or three days are likely to show some seemingly unfavorable reports; but they will be due to nothing more than the regular course of the disease.

President's Stay Indefinite.

No plans have yet been made for the return of President Roosevelt to Washington. He can remain in Groton for 10 days at least, so far as the pressure of public business is concerned. It seems probable that it will be a week before he leaves.

Every facility has been given him with regard to communication with Washington. A special telephone line has been run from the residence of Dr. Gardner direct to the White House for the president's private use.

Dr. Lambert confirmed the diagnosis of the case which had been made by Drs. Shattuck and Warren and readily agreed with them that the boy's condition is serious.

The president remained in or near the infirmary all day. Mrs. Roosevelt remained indoors all day, taking her meals in the infirmary. Last night she slept on a cot beside the sick bed.

ACCIDENTALLY SHOT BY SENATOR'S YOUNG SON.

Children Find a Pistol, and While Playing With It One Gets a Shot Through His Neck.

[SPECIAL TELEGRAM TO THE GAZETTE.]

WASHINGTON, D. C., Feb. 10.—A carelessly-placed pistol, supposed to be unloaded, is responsible for anxiety in the families of Senator Fairbanks of Indiana and the Rev. Dr. Hamlin, the minister who officiated at the Hay-Whitney wedding.

Robert Fairbanks and Francis Hamlin, 14 years old, are playmates. Last Saturday they were playing together at the Fairbanks home. During an exploring expedition they came across a Colt's revolver in the room of Maj. Fairbanks, the senator's eldest son, who served in the Spanish war. The youngsters were fascinated by the weapon, which they supposed was unloaded, and they toyed with it until it was accidentally discharged.

The pistol was in the hands of young Fairbanks at the time, and the ball entered the neck of young Hamlin. The victim fell to the floor apparently dead. Senator Fairbanks and his wife were in the house at the time and rushed upstairs, followed by the house servants. They found little Hamlin upon the floor, covered with blood, and their son almost crazed with terror. Surgeons were hurriedly summoned. They found the ball had passed entirely through the neck, but strangely it had not touched a vital spot in its passage.

The latest report from the sick room is that young Hamlin will recover, but he may be deformed for life. Mrs. Fairbanks is president of the Daughters of the American Revolution.

Carnegie Gives Again.

NEW YORK, Feb. 10.—Andrew Carnegie today sent a check for $100,000 to President Henry Morton of the Stevens Institute of Technology in Hoboken. It is intended as an endowment for the Carnegie Laboratory of Engineering, which was dedicated last Thursday night.

Mr. Carnegie gave $65,000 three years ago to build the laboratory of engineering.

TWO PROMINENT MEN IN CARRIAGE STRUCK BY CAR

John Bindley and W. K. Jennings Were Badly Bruised in the Accident.

VEHICLE WAS SMASHED

John Bindley, the president of the chamber of commerce, and W. K. Jennings, the lawyer, had a narrow escape from serious injuries and possible death in an accident last night. Both got off with bruises and continued on their way to their destination, Judge Christopher Magee's house. Mr. Bindley's carriage, in which the two men were riding, was twisted out of shape, being struck by a traction car, and one of the fine team of horses was hurt.

The accident happened shortly before 8 o'clock yesterday evening. The carriage was going up Fifth avenue, and just at Moorewood avenue the coachman drove the horses over to the other car track to pass another carriage. Having cleared the carriage he turned the horses back to the other track, when a West Wilkinsburg traction car, inbound and bowling along at a fast rate, bumped into the rear of the vehicle.

The carriage was driven with great force against the horses and knocked one of them down. The coachman was thrown off the seat into the street and the carriage was dashed over on its side, the two occupants being tossed violently on the window.

As fast as they could, for they feared the car would be upon them, the two men opened the uppermost carriage door and climbed out, neither being seriously injured, although bruised and battered in being thrown around inside the carriage.

The coachman was not badly hurt and the injured horse was led away with his mate, but the carriage was smashed.

"The car must have been going pretty fast," said Mr. Jennings last night, after the accident, "for the shock was very severe, so much so that Mr. Bindley and I thought the car would run over us. Fortunately, however, the car brushed the carriage aside and swept by without grinding us under the wheels. We both escaped luckily with no serious injury."

BURNED IN SIGHT OF SHORE.

Ice Prevents Life-Savers From Going to Schooner's Crew—Sailors Seem to Be in Boats.

CAPE MAY, N. J., Feb. 10.—(Special.)—An unknown three-masted schooner was burned at sea this evening. The vessel was about eight miles off shore, where she had been fast in the ice since Saturday night. The fire was first discovered about 5 o'clock this afternoon. It was still burning at a late hour tonight.

As soon as the crews of the life-saving stations at Cape May point, Cold Springs and Turtle inlet saw the fire they attempted to go to the rescue of the sailors, but the floating ice from Delaware bay was so thick and heavy that the crews were unable to reach the doomed ship. From what can be seen through the glasses it is believed the crew of the schooner are in two small boats, hemmed in by ice, waiting to be rescued.

The life-saving crews are still battling with the ice in an endeavor to reach the burning craft. The vessel seems to be almost burned to the water line, and the beaches are crowded with people anxiously watching her.

BIG WAREHOUSES WILL BE BUILT ON SOUTH SIDE

Pittsburgh and New York Syndicate will Cover Three Blocks.

COMPLETED SYSTEM WILL COST $2,500,000

A Pittsburgh and New York syndicate, in which the Vanderbilt interests are said to be interested, has plans well under way for a great warehouse enterprise along Carson street on the South Side, from Smithfield street bridge and between Carson street and the river to a point beyond the Panhandle elevated crossing. All of the property required has either been purchased or optioned. The syndicate proposes to invest between $2,000,000 and $2,500,000 in the enterprise, and will float bonds in the sum of about $1,500,000.

George W. C. Johnston, partner in the Henderson-Johnston Company, with Capt. James A. Henderson, now operating a large storage plant in this territory, is the promoter of the enterprise in Pittsburgh, and associated with him is M. K. McMullin, the well-known financier, and a director of the Philadelphia Company, the American Window Glass Company and other Pittsburgh enterprises.

Asked to Back Bonds.

Col. James M. Schoonmaker, vice president and general manager of the Pittsburgh & Lake Erie railroad, with extensive terminals between this property and the Monongahela river, is said to be interested in the warehouse project. Col. Schoonmaker is out of the city, and is understood to be on a European trip, to be gone another month. The Pittsburgh & Lake Erie interests have been asked to guarantee $1,500,000 in 4 per cent bonds for the syndicate. It is doubtful whether the railroad company will do this, because of a fundamental principle of railroad companies against guaranteeing industrial bonds.

Several pieces of the property required for the enterprise have recently been bought. In these deals the names of the purchasers have been carefully guarded.

$1,000,000 for Ground.

Within two months two sections of what is known as the Robert Adams property have been sold to unknown buyers, but representing this syndicate. These tracts have a combined frontage of 120 feet in Carson street and from 400 to 450 feet deep. The entire property purchased extends practically for three blocks along Carson street. It runs from the South Side end of the Smithfield street bridge well beyond First street.

The property purchased and the prices at which additional pieces have been optioned aggregate upward of $1,000,000, and it is proposed to spend about $1,500,000 additional on warehouses. These will be directly connected with the Pittsburgh & Lake Erie railroad terminals.

The Panhandle crossing of Carson street is to be elevated an additional 10 feet. By

PASSENGERS ARE NOT CARRIED TO DESTINATION

Lincoln Avenue Residents Say They Are Compelled to Transfer and Wait in the Cold.

ANGRY OVER TREATMENT

Residents of the Lincoln avenue district of the Twenty-first ward are complaining of their treatment by the Philadelphia Company. As a result the machine is losing many votes, because of the bad feeling aroused.

Since the Philadelphia Company has secured a monopoly of the street car business the service in the Lincoln avenue district is even worse than it was before. People who live in Lincoln avenue have to travel in the cars that runs out Center avenue and along Frankstown to Lincoln.

There is a single track in Lincoln and more than half the time when a car reaches Frankstown and Lincoln the conductor orders his passengers to alight and take the next car. He then turns the trolley and runs his car back to the city.

Passengers must stand in the street for at least 10 minutes for a car, and then take chances on being conveyed the balance of their journey. Those who live across the Lincoln avenue bridge, the structure the machine so long refused to rebuild, in order to punish the people of the Twenty-first ward for their independence, have to walk over the bridge, and wait for a car on the other side. There have been protests and appeals made to the Philadelphia Company management, but without result, probably because most of the objectors are anti-Flinnites.

Saturday evening about 15 people, who live beyond Frankstown in Lincoln, started home on a car leaving downtown about 5 o'clock. At Frankstown and Lincoln the conductor ordered them to transfer. His car was not behind time, nor was there any good reason why he should make the patrons who paid their fare to be carried home disembark and wait in zero weather for another car. The gentlemen refused to get off. The trolley was turned and the journey to town began. The conductor tried to collect fares and was told to "go way back and sit down."

In East Liberty he saw a company inspector and after a conference with him did not attempt to charge the citizens for the ride. Along the route a number of people were picked up who wanted to come downtown. The conductor ran his car around the Webster avenue and Grant street loop to Fifth avenue and then out Wylie. Those who wanted to go downtown had to walk from the court house. Most of the trip in and out the car door was left open and the fire was allowed to go out. The fifteen men were hauled back to the East End. When Lincoln avenue was reached the conductor ran the car to its proper destination. Among the men on the car were Peter Casey, T. A. Dye, W. F. Clark, F. E. Reid, O. McFarland and C. B. Lohr.

As an illustration of how often passengers are made to transfer when they should be carried to their homes, it is said that Saturday afternoon three members of one family, riding on different cars, were forced to get off at Frankstown and Lincoln and wait for a conductor who was willing to carry them home.

MACHINE WANTS VOTES FROM THE LOCAL POSTOFFICE

Employes Are Being Lined Up in Very Diplomatic Fashion by One of Their Own Number.

COMMISSIONERS GIVE ORDERS FOR ELECTION

Postoffice employes are being advised to get in line for the machine ticket. They are told that Postmaster George L. Holliday is greatly interested in the contest.

This effort to influence the votes of federal employes is contrary to civil service rules. It is also in opposition to the desire of President Roosevelt. When he went into office he gave notice that men in the government service were not to mix in politics.

There is much diplomacy being used to get the 300 men who work in and about the Pittsburgh postoffice to turn in for the machine candidate for controller and the candidates for councils. The delicate task of running contrary to civil service laws and the desires of President Roosevelt has been entrusted to Thomas H. Thorn, cashier in the postoffice and select councilman from the Twenty-third ward.

Not Under Civil Service.

Mr. Thorn does not come under the civil service rules. If he is re-elected to councils in the Twenty-third ward he will have to retire from the postoffice April 1. Under the new charter he cannot sit in the municipal legislature and hold a government job. This condition of affairs makes it easier for Mr. Thorn to do this ring duty than any other man under Postmaster Holliday, who is an ardent machine man.

Thorn does not issue orders. He talks to an employe something like this: "I understand that you have a hard fight in your ward. I would like to see the Republican ticket get a good majority, and I know that Postmaster Holliday is much interested in the outcome of the contest."

In many cases this tip is all that is necessary to make the employe support the machine ticket. He does not want to offend the postmaster.

Easier to Go Out Than to Get In.

Even though civil service rules are supposed to throw a cloak of protection about him, the average federal place-holder knows that it is much easier to be put out than to get in. When Mr. Thorn is asked for an explanation he simply says:

"You cannot get me to admit it."

Effort was made yesterday by a member of Recorder J. O. Brown's cabinet to coerce an officer of the Pittsburgh Brewing Company into forcing about 35 of his employes to vote the machine ticket. When the ring canvassers went over the city they found that almost three dozen of the brewery workers would vote with the Citizens party. The names of these men, with their street number and the plant at which they work, were reported to the Sixth avenue headquarters.

Agents who were thought to be capable of switching these voters made personal calls on the employes. They found that they could not make the employes change their minds.

Turned to the Employer.

The last resource was the employers. The cabinet officer was sent to the company's office. He laid the list before one of the men high in authority, saying that he wanted orders issued to the workmen compelling them to vote the machine ticket.

The ring agent was told that the company gave no political orders to its men, and if these employes wanted to vote against Lewis for controller the company would not interfere. All efforts to change this decision failed.

The county commissioners yesterday sent a letter to all judges of election in the county. They were warned not to handle the ballots or attempt to [illegible] them. If they do they will be guilty of a misdemeanor. The elector will place his ticket in the box.

Machine orders have been issued to district workers that doubtful members of the pay roll are to be watched. If it is suspected that a city or county employe is likely to vote against the ring, a trusted machine man is to be sent into the booth to watch him mark his ballot.

Order Creating Indignation.

This order is creating indignation among men holding public places. Many of them will refuse to be driven like hogs to a pen, even though disobedience causes dismissal from office.

The anti-machine forces will protect the pay roll to the fullest extent. The voter must declare to the judge that, by reason of disability, he must have assistance, and then select the assistant. If he falsely makes this declaration he is guilty of a misdemeanor and is subject to fine and imprisonment. Should the person assisting tell how the assisted elector voted he can be fined and imprisoned. Violations of this law will be closely watched by the Citizens party.

Notice will be served on all election boards that they must tabulate separately the votes cast for Larkin, as the Democratic candidate, and Larkin as the Citizens candidate. Under the law this return can be compelled. In many wards this will reveal the crooked Democrats. It will also show the strength of the Citizens party.

Illegal Voting Charged.

John Gibbons, chairman of Citizens party committee of the Fourth ward, has made an information against James Noone before Alderman John [illegible], charging illegal voting. The alleged offense is said to have been committed in the Second district of the Fourth ward at the November election. Noone is now out of town, presumably at his home in Philadelphia, and if he returns the warrant will be served.

"We propose to stop illegal voting in the Fourth," said Mr. Gibbons. "We allege that Noone voted from No. [illegible] Penn avenue last fall, when in reality he was and is now, for that matter, a citizen of Philadelphia. We are also able to prove that he vouched for the votes of at least 11 others. Since that election he has been registered from the home of Alderman Charles F. Anderson on Eighth street. He is now out of the city and if he returns will be arrested."

Sweeney Knows Noone.

Representative John J. Sweeney was asked if he knew Noone. He replied: "Yes, he is registered at Anderson's. He is now out of the city on some job."

Every precaution is being taken to guard against bringing repeaters into the city. There is some evidence that a gang is being recruited in the east. Letters received in Pittsburgh give some interesting details.

The certificate of nomination of John Hamilton, the Democrat, who has been put on the machine Republican ticket in the Fifth ward for select councilman, mysteriously appeared on file at the county commissioners' office at 3:40 o'clock yesterday afternoon. Fifth ward residents who desired to object to its filing had waited all day. They suspect that the paper had been turned in early in the day, but was not put on official exhibition until 20 minutes before closing time. Attorney C. A. O'Brien will attack the legality of the document in court today.

The tax receipt mill of the county treasurer's office is now conveniently clogged.

On various pretexts the receipts promised are being withheld.

Aid Asked from Stone.

Gov. W. A. Stone, author of the postscript, has been called upon to help the machine in the local fight. Every wire possible is being pulled from Harrisburg, but the success of gubernatorial interference is about as likely as that Clearfield reception.

Testimony is being taken before Judge Elliot Rodgers on the petition of William [illegible] of the First district of the Third ward to have 80 names stricken from the registry list. It was soon shown that 62 should come off, but there is a fight over the others.

Parade Preceded Meeting.

A well attended meeting was held in Maennerchor hall, Thirty-second ward, last night, under the auspices of the Citizens party. Previous to the meeting a parade was held. Thomas Grundy was chairman. Attorney C. A. O'Brien made an address, in which he stated that the mere fact that Kirk Bigham has not done anything for the ward in the past 15 years is evidence that there should be a change in the representation of the ward. The rest of his address was upon the different issues of the campaign.

Charles E. [illegible] spoke on the necessity of recognition of the laboring class and accused the present administration with ignoring the working man. Joseph H. [illegible] in his address dwelt upon the high taxation of property and the exemption of property owned by corporations, giving figures to show the non-taxable property in Pittsburgh, as compared with other cities.

East End Citizens Meet.

A meeting of the citizens of the East End was held last night in the rooms of the Carlisle club. John B. [illegible] acted as chairman. Dr. G. H. [illegible] in his address expressed confidence in the election of R. H. Douglas for select council, and said that the opposition are willing to make any terms to effect his [illegible].

Other addresses were made by Joseph C. Watson, Robert Masters, C. E. [illegible], Thomas S. [illegible], James A. [illegible]

ATTORNEY TRIED TO ENTER BAIL FOR MRS. SOFFEL

Was Refused, as Matter Is Now in Hands of Court.

THREE OFFENSES ARE FILED AGAINST HER

Richard B. Scandrett, attorney for Mrs. Soffel, applied to Harry C. Robinson, one of the clerks of the criminal court and also a justice of the peace at Bellevue, yesterday afternoon to admit Mrs. Soffel to bail.

Immediately after the capture of the Biddles and Mrs. Soffel by the Pittsburgh detectives, County Detective Robert G. Robinson, acting upon the advice of District Attorney John C. Haymaker, appeared before Justice of the Peace Harry C. Robinson in the office of the criminal court, and made information against Mrs. Soffel under three charges, two for felonious assault and battery and one for aiding and abetting prisoners to escape from the county jail. Justice of the Peace Robinson issued the warrants and the informations were returned to the criminal court and filed with the clerk.

Is Up to the Courts.

The fact that the returns had been made to court, which was not known to Attorney Scandrett yesterday when he made the application, made it impossible for Justice of the Peace Robinson to accept the bail, and he informed Attorney Scandrett that the matter was now in the hands of the judges of the criminal court and that he must apply to them to settle the question of accepting bail and also to fix the amount.

"Attorney Scandrett did not state to me when he would apply to the court," said Justice of the Peace Robinson. "I understand that he will do so in the morning. He said that he was prepared to furnish the proper bail and intimated that Mrs. Soffel's father, Conrad Dietrich, will sign the bond. Had the matter devolved upon me to fix the bail I would have made it $1,000 in each case, or $3,000 for all three charges. I presume that District Attorney Haymaker, as is usual, will be consulted by the court before any bail is accepted."

Offense Is Bailable.

Mrs. Soffel's offense is a bailable one and the matter rests with the magistrate and the court. If bail is accepted for her, from that moment she will be free to go where she pleases, pending her trial. In case she is convicted upon trial the bail can be renewed if she makes an appeal to the higher court, and so on all through the legal proceedings, until the matter is finally settled.

Attorney James T. Moore, Attorney Scandrett's partner, visited Mrs. Soffel at the Butler General hospital yesterday and returned last evening, bringing with him all the letters which have been received by Mrs. Soffel from her hundreds of anonymous correspondents throughout the country. These were turned over to Attorney Scandrett for examination.

Found Mrs. Soffel Better.

Attorney Scandrett said last night that Attorney Moore had found Mrs. Soffel very much improved and that he was informed by the hospital authorities that she would undoubtedly be able to leave the institution within two weeks, unless some unlooked-for change for the worse occurred. Attorney Moore's visit was not for the purpose of discussing the defense of Mrs. Soffel, but simply to see how she was getting along, in view of the alarming statements regarding her condition. He conversed with her for some time and said that she appeared to be in a very fair frame of mind and more hopeful and cheerful than when he had seen her last week.

Thinks She Is Much Better.

and R. H. Douglas. Music was furnished by the Leahman orchestra.

The Twelfth ward Republican club will hold a mass meeting in the Springfield school on Charlotta street tonight. William M. Benham, Esq., A. J. Edwards, Esq., and Capt. John A. Reed will be the speakers.

Party Regularity Discussed.

Party regularity was the theme of the addresses at the meeting of the Republicans of the Twentieth ward last night in the Friendship school. The audience was only a fair sized one and semi-enthusiastic. Policemen and payroll members formed the greater part of the audience. John A. Murphy, select councilman, was temporary chairman, and Dr. R. H. McCready acted as permanent chairman. Representative George M. Hosack addressed the meeting on the "Last Legislature." Assistant City Attorney William A. Blakeley confined his address to party regularity. District Attorney John C. Haymaker compared the records of the various parties. Maj. R. H. Long addressed the meeting and told the audience he had never deserted the party.

Lining Up the Police.

In the court room of Central station last night a grand final attempt was made to keep the members of the police force in line at the coming election. Officers were requested to have their parents at the polls, their brothers and relatives or the friends they meet while patrolling their beats. The principal plea was old friendship.

Herded in the court room with every avenue of escape cut off, they were forced to listen to Director A. H. Leslie and Superintendent of Police McAleese. Before the speechmaking began Director Leslie requested every person not a member of the police force to leave the room. Lieut. McAvoy was then stationed on the stairway leading from the court room to the corridor. Lieut. Harry Meyers was placed at the main entrance to the court room and the doors were kept closed during the discourse.

Ninety-Five Men Present.

Twenty-five officers from the first district, in citizens clothes, 30 night men and 20 substitutes from the first district were also present. Lieut. Harry Meyers brought his squad of 10 men from No. 3 police station, at Twenty-sixth street.

Director Leslie was the first speaker. He began by telling the men that a few years ago they had to purchase soap and towels with which to wash, but under the administration of J. O. Brown the city had been forced to buy these necessities. He told how Recorder Brown had built up the police force, erected the safety palace and police stations, No. 4 in Oakland, No. 6 in the East End, and No. 7 on the South Side.

"Director Brown has been ambitious," said Director Leslie, "but in his aspirations he has never forgotten the police. I ask you, gentlemen, to stick by an old friend in time of need. The promises made to you by the opposition will fall flat."

Every Vote Is Needed.

He asked the members of the force to come out plain and work for the success of the administration. "Bring your brothers, relatives and friends. If you know of a friend or relative that you are not sure of, let us know and we will send some one to see him and can probably hold him in line." He singled out one of the officers and asked him if he would turn down an old friend in time of need.

Director Leslie told how Recorder, then Director J. O. Brown, went to Harrisburg a few years ago and had the legislature pass a police pension bill which was vetoed by Gov. Pattison, of his later attempts and his success. He recalled that the men had been granted an increase in salary of $30 a year. The patrolmen were told that should the administration succeed in this election J. O. Brown would be recorder again in 1903.

Mr. Leslie introduced Superintendent McAleese, who said he did not have anything to add to what had already been said. He asked the men to stand by old friends, and to have their fathers, brothers and relatives at the polls on election day.

During the hours that the men were held in the station, the downtown district was practically without police protection, or at least inadequately protected.

WABASH CONTRACT LET.

Two Million Dollars' Worth of Work Near Pittsburgh Is Let.

RICHMOND, IND., Feb. 10.—(Special.)—It was given out here today that the Wabash Railroad Company has awarded to Kenefick & Hunt the contract for work in and near Pittsburgh that will aggregate $2,000,000. This firm has just completed a 60-mile right of way for the Cincinnati, Richmond & Muncie railroad. Their equipments will be shipped to Pittsburgh about March 1.

The Wabash contract includes a roadbed for a double track 15 miles west from Pittsburgh, to connect with the Wheeling & Lake Erie railroad recently acquired by the Wabash.

PATERSON BANK FINDS TREASURE SAFE IN VAULT

Under Guard of Militia $3,000,000 in Gold and Notes Put in Safe Place.

PUBLIC VIEWS THE RUINS

Financial Institutions of the Afflicted City Are Strong as Ever—Springfield, O., Lost 12 Manufacturing Plants by Fire Yesterday.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

PATERSON, N. J., Feb. 10.—Money and securities said to amount to $3,000,000 were recovered from the two huge vaults under the ruins of the First National bank late this afternoon. Books, papers, bullion and paper money were found uninjured. Guarded by files of soldiers with fixed bayonets the treasure was conveyed to the Paterson Savings institution in a two-horse dray.

Buried beneath the ruins of the City hall were found the safes which belonged to the controller's office, and in these also the papers, legal documents and public records were found unharmed. The safes of the Passaic Water Company, under the ruins of the building which stood at Nos. 107 and 108 Washington street, were destroyed, and the only part of their contests recovered was $500 in silver.

Tax Records Destroyed.

The greatest tangle in city affairs will be in the tax office. So far as can be ascertained the records of the department are destroyed. There is a set of books which shows the valuation, etc., of each piece of property in the city, and the assessors have their field books from which all this could be duplicated without overmuch work. It is said, however, that it is almost certain the records showing who paid their taxes and who had not are destroyed and that there is not in existence anything from which the information could be obtained.

The work of clearing up the burned district has not begun, but the firemen were busy until night with ropes and dynamite, tearing down the shaky walls that endangered those who had to be inside the burned area.

Public Views the Ruins.

So well did this work progress that in the afternoon, after a conference with Major Ross, commanding the militia, the public was admitted to the ruins. Sentries were posted at every important point and the crowd was kept moving briskly. Thousands passed about the choked up streets and viewed the ruins during the two hours and a half allowed them. At the expiration of the time the sentries in the center of the section began moving outward and, gathering up the extra men at each step, soon had the entire district cleared. The conduct of the soldiers was excellent and they have done splendid work. There has been no disorder and the authorities believe there will be none.

Fire Started in a Shed.

President David Young of the street railroad in the barns of which the fire was thought to have started, stated today that as a result of a careful investigation he would positively declare that the fire did not originate in the barns. His search showed him that the fire started back of the barns in a shed not owned by the trolley company.

Local bankers take a thoroughly hopeful view of the situation, not only as to the financial institutions of Paterson, but for the future of the city.

"The banks," a prominent bank officer said today, "did not lose a dollar in cash by the fire and they are just as firm financially today as they ever were."

"If," said another banker, "the banks of this city were in need of ten millions of dollars I have no doubt that it would be forthcoming and that quickly."

The Heaviest Losers.

The following is a list of losses which exceed $100,000:

Quackenbush & Co., department store, $500,000; Globe store, department store, 150,000; Scheuer & Co., grocers, $225,000; Muzzy Bros., willow ware, etc., $400,000; Boston store, department store, $450,000; City hall, $250,000; library, $100,000; Paterson National bank, $100,000; First National bank, $125,000; St. Joseph's church (Catholic), $225,000.

FIRED BY INCENDIARIES.

Homeless Waif Burned to Death in Orpheon Theater Fire at Chicago.

CHICAGO, Feb. 10.—Belief that the fire which early today practically ruined the Orpheon theater was of incendiary origin was further strengthened today. After the fire firemen exploring the basement discovered two gas jets, the tips of which had been removed, spouting flames three feet high. The flames were 30 feet apart and one had eaten into a wooden beam. Assistant Fire Marshal Campion said today that when the fire department was called last night flames were discovered in three different parts of the building at one time. The discovery of the gas jets, the assistant marshal says, shows that the incendiary attack was made in four places. The two women reported missing have been accounted for.

At noon today firemen in clearing away the debris on the third floor came upon the headless body of a boy. The head had been burned off and the body horribly scorched. The boy is supposed to have been a street waif who had been sleeping on the top floor of the building. Homeless boys often slept there, and the owner never offered any objection.

FIRE TO BE PROBED.

Fire Escapes Would Have Reduced the Death List of the St. Louis Disaster.

ST. LOUIS, MO., Feb. 10.—(Special.)—Mayor Wells this morning began an investigation of the cause of the Empire hotel fire, in which the lives of two, and probably more, of the 11 victims might have been saved if the building had been equipped with fire escapes. At 10 o'clock, immediately on arriving at his office, Mayor Wells sent for Building Commissioner Longfellow, and a conference in the mayor's office followed. After the conference Commissioner Longfellow said:

"The matter will be laid before the prosecuting authorities without unnecessary delay, though in what form I am not yet able to say. Warrants probably will be applied for and a thorough investigation of the fire escape situation will be insisted upon. The only way to enforce the law in many cases is to bring prosecutions in the police court. In this matter the city attorney has not co-operated with us."

FIRE IN M'KEESPORT.

Shaw Building on Fifth Avenue Badly Scorched—Loss $3,000, Partly Insured.

The Shaw building at No. 807 Fifth avenue, McKeesport, was gutted by fire last night, entailing a loss of $3,000, partially insured.

The fire broke out on the third floor in the suite of rooms occupied by Mr. and Mrs. F. S. Faust, a recently married couple, and destroyed their furniture, clothing and household goods. J. J. Weise, who occupies the second floor as a residence and the first floor as a meat market, also suffered heavily by the fire, smoke and water destroying his stock and ruining his furniture. The building is owned by Mrs. Della Shaw.

TWELVE PLANTS BURNED IN SPRINGFIELD, OHIO.

State Troops Now on Guard to Keep Off the Marauders—The Loss Estimated at $500,000.

[SPECIAL TELEGRAM TO THE GAZETTE.]

SPRINGFIELD, O., Feb. 10.—The largest fire in the history of Springfield broke out in the Champion chemical plant of the East street shops this morning at 9 o'clock. An hour and a half later 12 manufacturing plants were in total ruins. The latest estimated loss is $500,000.

The fire was started by the explosion of some chemicals in the Champion chemical plant, situated in the southwest corner of the shops. The fire started on the fourth floor of the building. A strong westerly wind was blowing, and, with amazing rapidity, the fire ate its way along the buildings, which were all under one roof. The buildings extend 800 feet along East street, and 1,200 feet along the railroad.

Firemen Handicapped.

The fire companies answered the call promptly, but their efforts were of little avail. They were greatly handicapped by the light pressure of water. The city has only two engines, depending upon standpipes to give the necessary pressure. The firemen could not get pressure enough to break the window panes on the second floor. Every building was destroyed, and nothing but the walls are left standing. Ten firemen were caught in the office of the Krell French Company and to escape they had to jump from a window.

State Troops on Duty.

A company of the national guard is now on duty to keep away the crowds and marauders. Four freight cars of the Detroit & Southern railway were totally destroyed and many others ruined. As fast as the materials could be brought from the buildings they were placed in the railroad cars and hauled away.

Among the heaviest losers are the Owen Machine Tool Company, Champion Chemical Company, Springfield Foundry Company, Progress Stove and Furnace Company, Indianapolis Frog and Switch Company, Miller Gas Engine Company, Green Manufacturing Company and the Krell French Piano Company.

The Whitely shops were built in 1882 by William Whitely for the manufacture of harvesting machinery, at a cost of $750,000. The equipment of the shops cost about $2,000,000, but after the failure of Whitely a few years later, the shops were left idle for nearly ten years, when they were sold at a receiver's sale, and Senator Fairbanks and several other capitalists bought them, the price being $200,000.

In the last few years, through the efforts of the board of trade of Springfield and the Commercial club, 15 concerns were placed in the old shops and the machinery, material and unfinished product of the concerns are a total loss. The insurance will approximate $300,000.

JURYMAN BURNED OUT.

House Destroyed and Family Homeless, but He Cannot Go to Their Assistance.

GREENSBURG, PA., Feb. 10.—(Special.)—The residence of William Roadman at Kreger, Donegal township, was totally destroyed by fire today, with all the contents. The family narrowly escaped cremation. The loss is about $4,000.

Mr. Roadman had just been selected as a juryman on a murder trial this afternoon here, when the story of the fire reached him. He cannot go to his homeless family.

Toby Factory Burned.

Last night the two-story building at 1607 Caldwell street, occupied as a toby factory by Lazier & Weisesin, was destroyed by fire. An alarm from box 94 was sent in, but the fire had gained too much headway before the firemen arrived to save the building or contents. The origin of the fire is unknown and the damage will probably amount to $1,000.

THE ST. LOUIS BRIBERY PROBE WILL GO DEEPER.

Some Councilmen Trying to Escape by Offering to Tell What They Know—A Confession.

[SPECIAL TELEGRAM TO THE GAZETTE.]

ST. LOUIS, MO., Feb. 10.—It was said positively at the Four Courts today that several former members of the municipal assembly had made overtures to Circuit Attorney Folk that they be permitted to appear before the grand jury and purge themselves by telling all they know concerning the bribery scandals. It also is said that the circuit attorney will accept the proposition made by some of the men, but will not listen to certain others, for against them he holds sufficient evidence to secure indictments.

A glance at the list of witnesses summoned Monday tells those who have kept watch of these matters that the grand jury is by no means finished with the Central Traction investigation, but has determined to delve further. Henry Gaus, one of the councilmen who voted for the Central Traction bill, today admitted that he was persuaded to do so by George J. Kobusch, millionaire president of the St. Louis Car Company, who was arrested Saturday night on a bench warrant charging him with perjury before the grand jury. Gaus denies having received any bribe to vote for the bill, but says Kobusch assured him he should have the contract for delivering the material to be used in constructing a new railroad contemplated in the bill—a contract valued at at least $100,000. Gaus further said that although this railroad was never built, Kobusch gave him contracts to the value of $15,000 for supporting the Central Traction bill. He admits that he supported the measure because he saw that it was to his own personal interest to do so.

It is known that the grand jury will issue several more bench warrants for alleged perjury and bribery before the week is ended, but what day the arrests will be made is a matter for speculation. Mr. Folk, the circuit attorney, says he expects to devote the entire time of the grand jury after tomorrow to the probing of the Central Traction scandal, and as soon as that matter has been thoroughly investigated the garbage contracts, the lighting scandal and the water works scheme now pending will be taken up.

Eugene Sweeney, the promoter who secured the passage of the Central Traction bill, arrived in the city today and immediately went before the grand jury.

WILL ASK FOR THE TRUTH.

Henry Norman Will Ask for Facts About the Alleged Pauncefote Note to the Press.

LONDON, Feb. 10.—The efforts of the German official and semi-official press to reopen the controversy concerning the attitude of the powers toward the United States prior to the Spanish-American war are rapidly leading to complications which at least will be entertaining and which possibly may have important developments.

Henry Norman, M. P., who, on January 20, first interpellated Lord Cranborne, under secretary for foreign affairs in the house of commons, on this matter, will ask Lord Cranborne tomorrow whether his attention has been called to the statements widely made in the German press and alleged to have received official confirmation, that Great Britain, on April 14, 1898, through her ambassadors, proposed a fresh joint note in which the powers should declare that Europe did not regard the armed intervention of the United States in Cuba justifiable and that in consequence of Germany's refusal to accept this proposal the step was abandoned. Mr. Norman will also ask whether Lord Cranborne can make any statement on this subject.

Daniel Davidson was sent to jail last night by 'Squire Engel of McKees Rocks on a charge of larceny made by J. M. McNally, who alleges he stole his watch. He was held for court in default of bail in $500.

ATTORNEY TRIED TO ENTER BAIL FOR MRS. SOFFEL

Continued from First Page.

said to the staff correspondent of The Gazette:

"I have just seen Mrs. Soffel and I think she is much better than when Mr. Scandrett and I were out here on Friday.

"I came here to console her and look into her condition. She must recover first before we discuss the plans of defense with her. The physicians tell me she will not recover sufficiently to be removed for 10 days. And she must make daily progress to do this.

"She expressed solicitude for her children and inquired especially after her boy, who is ill. Mr. Scandrett and myself will come here some time this week to confer with Mrs. Soffel."

Will Be Heard on Feb. 24.

The Biddle case had but few other matters of particular interest yesterday. The county commissioners met in the morning and decided to consider the claims of the applicants for the $5,000 reward on Monday morning, February 24, at 10 o'clock. The Butler county and Pittsburgh claimants will then be given opportunities to make their statements of the battle and the arrest of the escaped prisoners and Mrs. Soffel, and explain the part each particular one took in the affair.

Peter K. Soffel was at the jail for some time yesterday morning, and was informed that the prison board would not meet in the afternoon, as had been announced. Judge R. S. Frazer, the president of the board, said that postponement of the meeting to some future day was on account of the condition of James McGarey, the night clerk at the jail, who was injured on the night of the escape.

Waiting for McGarey.

He added that the board would not meet until McGarey had recovered sufficiently to appear before the board, as his testimony was regarded as important, but that the board did not consider the matter so urgent that he should endanger his health.

In the afternoon Soffel paid a visit to the headquarters of the Republican committee on Sixth avenue, and then returned to his father's home on Mt. Washington about 4 o'clock. After leaving the headquarters he again denied most emphatically the stories published concerning a reconciliation with his wife, and declared that it was an impossibility. He also denied that he was having any communication with her or that he was aiding in her defense.

Wounded Are Recovering.

The officials at the Homeopathic hospital said that McGarey was doing very well, but that it was not considered prudent for him to undergo any excitement or fatigue at the present time.

Guard Charles D. Reynolds, who has been confined to his home since the day of the escape, on account of his wound, was at the jail for an hour or so yesterday. He has almost entirely recovered and will report for duty in a few days. Acting upon the advice of District Attorney Haymaker, Reynolds declines to talk to any one concerning the affair.

Acting Jail Warden James Marshall has filed an application with the prison board for the position of warden. Judge Frazer said yesterday that the board would not be hasty in selecting a successor to Warden Soffel should he insist upon resigning, in which case several weeks might elapse while they considered the applications.

EMPEROR WILLIAM IS ANXIOUS ABOUT TEDDY, JR.

He and Prince Henry Are Keeping in Touch With the Groton Patient.

[ASSOCIATED PRESS CABLE TO THE GAZETTE.]

BERLIN, Feb. 10.—A dispatch announcing the gravity of the condition of the son of President Roosevelt was communicated to Prince Henry this afternoon by the correspondent of the Associated Press and was communicated by the prince to the emperor. Deep sympathy was manifested at the Schloss for President Roosevelt. The foreign office expects to receive a report from Dr. von Holleben, the German ambassador at Washington, of the condition of the president's son tonight.

The last dispatches from Groton were received too late for publication in the evening papers, but these journals comment regretfully on the news received earlier in the day.

The day Prince Henry sails for the United States Emperor William, with a large following, will go to Hubertusstock, a hunting lodge near Eberswalde.

NEW YORK, Feb. 10.—The committee appointed to take charge of the proposed receptions to the officers of the German imperial yacht Hohenzollern announced tonight that these receptions must be abandoned. The reason given is that the vessel, after its long trip, will need a thorough overhauling, and neither officers nor men will receive leave of absence.

MINNEAPOLIS, Feb. 10.—Prince Henry cannot come to Minnesota, so Minnesota's government will convey the greetings of the state to Prince Henry at Milwaukee.

Baron von Holleben, German minister at Washington, has replied to the invitation of Gov. Van Sant, stating that it will be impossible for the prince to extend his tour beyond Milwaukee. Gov. Van Sant and his staff will meet Prince Henry at Chicago March 2 and will join the party that is to escort him to Milwaukee. In connection with the exercises at Milwaukee, Minnesota's welcome to the prince will be extended by Mayor J. C. Jensen, of the governor's staff. It will be given in the German language.

WASHINGTON, Feb. 10.—Unless there shall be a decided change for the better in the condition of the president's son before the end of the present week, it is probable that Prince Henry of Prussia may be impelled to defer his proposed visit to the United States until later in the year.

No Diamond Found on Him.

Samuel Dodds of North St. Clair street was arrested last night by Officer John Kelly and locked up in the East End police station on complaint of Mrs. C. P. Turner, who claimed she gave him a diamond valued at $85, which he would not return to her. When searched at the station no diamond was found on him.

means of a car elevator or a warehouse building of sufficient height direct connection will be had with the warehouses. The Baltimore & Ohio interest will have communication by means of the Pittsburgh Junction railroad, and the connection by the Pittsburgh & Western with the Panhandle. Later, if the expenditure is regarded as justifiable, a bridge may be thrown across the Monongahela river, giving direct connection with the new warehouses. A car ferry is also regarded as probable.

A system of car ferries operating along the rivers is considered as an important factor in the general warehouse project.

Charter Has Been Secured.

Interests of the Henderson-Johnston company over a year ago made provision for this in the incorporation of a company to operate river car ferries. This and other means are expected to give the Wabash railroad ingress to the warehouses.

Nearly all of the realty required for the carrying out of the enterprise has been purchased within the past few months. The present warehouses of the Henderson-Johnston company, which are new, will hardly be disturbed. Practically all of the capital for consummating the enterprise has been subscribed and the promoters are hard at work to complete the deal.

In the early spring it is expected to break ground for a system of warehouses on the South Side rivaling in importance those projected in the Point district.

LOOKING FOR HUSBAND.

Young Wife Charges His Father With Abducting Him—Strange Tale of First Marriage.

COLUMBUS, O., Feb. 10.—(Special.)—Mrs. Claude W. Barbour, an attractive looking little woman of 26 years, asked the police department today to try to find her husband, who, she says, had been kidnaped Sunday evening by his father, John F. Barbour, a prominent contractor of Roanoke, Va.

Mrs. Barbour said her husband's father opposed the match, and they ran away from Bluefields, W. Va., last November, got married at Ironton and came to Columbus to live. Her husband has been in the employ of the Pennsylvania Railroad Company as clerk, and they had been living a retired life in the eastern part of the city. The elder Barbour in some manner learned of their whereabouts, and, accompanied by his wife, came to Columbus Sunday morning. He met his son outside the house during the afternoon and induced him to come to the Star hotel, where his mother was waiting for a conference. The young man told his wife to follow him. This she did, and reached the hotel just as they left by a rear door.

They went direct to the Union depot and she followed. She reached the iron-barred gate in time to see her husband going down the stairway between his parents, but the gateman refused to let her pass, and she was obliged to return to her home.

She says the elder Barbour has threatened her husband with violence if he ever returns to live with her, but insists that she will follow him to the ends of the earth before she will give him up.

In giving her history to the police she said she was forced into a marriage with Henry Horton at Preston, Va., when she was but 12 years old.

ART SOCIETY CONCERT.

Pittsburgh Orchestra, With Miss Christine Miller, as Soloist, Presented Program.

The Pittsburgh orchestra presented the entertainment for the reception of the Art society last night by a harmonious and interesting program.

Beethoven's massive No. 7 symphony was the chief number, following Goldmarck's Sakuntala overture. It was splendidly played. The balance and sympathetic swing of the orchestra indicated a comprehensive study of its beautiful structure. The second movement was especially convincing and the brilliant finale was worked out with admirable precision of utterance.

Following the symphony and opening the second part of the program was the favorite "Rouet d'Omphale," the most poetic of the Saint-Saens symphonic poems and sharing popular favor with the "Phaeton."

The thrumming movement which is likened to the whirl of the mystic wheel, was given with excellent taste, and the climax was so gradually and carefully worked up, too, that the dignity and beauty of the compositions were unusually apparent. Several recalls were necessitated by the continued applause. Tschaikowsky's Capriccio Italien closed the program.

Miss Christine Miller, a Pittsburgh vocalist, was the soloist of the evening. She sang an aria from "The Pearl Fishers" in the first part and a group of selected songs in the second. She was warmly applauded at each appearance and her work was greatly appreciated.

CONSTIPATION,

When your food does not digest properly, the bowels become clogged and the liver inactive. The poisons and impurities that should be carried off are thus allowed to accumulate, causing nausea, sick headache, indigestion, dyspepsia and biliousness. The best medicine to cure constipation and prevent these diseases is Hostetter's Stomach Bitters. Try a bottle and be convinced.

The Spring Inrush of Colored Silks.

The new Colored Silks are coming in earlier this year—but so is Lent and Easter. The department is fast filling up with beauties from abroad and beauties from home looms.

We keep side by side with this great city in her onward strides, and just now, we are all agreed, Pittsburg is pushing forward with 7-league boots. This store wears boots of the same league.

The variety of Spring Silks is most complete and the assortment most extensive. Many of the new designs now exhibited are exclusive with us—they are confined to the Joseph Horne Co., because the facilities of the company for getting them before the greatest number of people are so much better than can be found anywhere in the Western part of the State.

Today we show exclusive designs in richest color combinations on Printed Liberty Satins, Printed Foulards and Printed Peau de Soies, in an engaging price range beginning at 75c and graduating to $1.50 a yard.

A charming novelty in Pongee, with a pretty bordered effect, will be on exhibition, and the price will be only $1.50 a yard.

White Washable Cords—a 24-inch wide silk—priced at 60c a yard.

A very special value in a Japanese Printed Foulard, Lyons dye—27 inches wide—a 75c grade for 48c a yard. The color range in this silk comprises navy, gray, light brown, national, violet, dark brown, black and white with several styles in white figures.

Shantung Silks, 24 inches wide, with embroidered dot and Roman coloring in border effect, $1 and $1.50 a yard.

Plain Shantung and Tussah Silks, from 75c a yard to $2.

Printed Peau de Sole in twenty new spring styles, confined to us exclusively, very charming and pretty designs, $1 a yard.

Printed Satin Liberty is exhibited in 15 different styles, select and elaborate designs and colorings. $1 a yard.

Four new styles in Printed Broche Liberty Satins—24-inch widths, in latest foreign colorings, $1.25 a yard.

A strong showing is made of Polka Dots in all sizes—white on navy and black grounds and white grounds with black spots. 65c to $1.25 a yard.

New Colored Woolens for Spring Wear.

There is a long drawn out cry for Voiles—and they are going to be scarce. We're selling them just now as if May weather was only a matter of tomorrow.

But, like every other faddish fabric, there are thousands of women who are not going to take up Voiles, so we have provided liberally of everything good and stylish.

Among the new Spring stuffs, these—

Canvas Voiles, 42 inches wide—metal gray, castor, tan, navy, reseda, delft blue, garnet and brown, 75c a yard.

Corded Pebble Etamine, 46 inches wide—new colors for dressy gowns—46 inches wide—85c a yard.

French Voiles—tan, navy, castor and new blue—just received from Paris—46-inch widths and only $2 a yard.

And appreciation is sure to be shown the new Voiles of recent arrival, which we are selling for $1, $1.25 and $1.50 a yard.

Capella, a new crepe dress material with a new name. Something that is pleasant to look upon. Not quite so sheer as many crepe voiles, probably the better for it. 42-inch widths, 75c a yard.

Pebble Etamines, late colors. Although a 75c value, we say for it 50c a yard.

Summer-weight Venetian cloth, a quality we sold last season for $1.75 a yard. All the new colors for spring. This price is $1.25 a yard. Width, 52 inches.

New Broadcloths, specially light in weight. For anticipating the coming spring and summer. Newest shades, $1 to $3.50 a yard.

New American Wash Goods.

Two departments filled with choicest cottons for Spring and Summer. The foreign wash goods on main floor we have told about quite often of late.

Following is some news of new American Wash Goods and their small prices.

1,000 yards Dimities and Lawns, newest spring weaves, beautiful styles and printings, 10c a yard.

8,000 yards of Dotted Swiss Muslins, overspread with prettily printed designs and colorings, 12½c a yard.

12,000 yards finest Batiste Lawns, 15c a yard.

12,000 yards Irish Dimities—cloth woven and finished in Belfast—the printings executed in this country—20c a yard.

15,000 yards best American made Percales—yard wide—choice, neat styles for men's shirts, more elaborate designs for ladies' full suits—12½c a yard.

30,000 yards Dress Ginghams for ladies' and children's full suits and shirt waists, 10c, 12½c, 15c, 20c and 25c a yard.

STUNNING BLOW OF PROSECUTION DAZES PATRICK

Lawyer Potts Flatly Contradicts Defendant's Story About the Checks.

HAD A TELLING EFFECT

Alleged Murderer Turns Crimson to the Top of His Bald Head and Endeavors in Vain to Hide His Embarrassment.

[SPECIAL TELEGRAM TO THE GAZETTE.]

NEW YORK, Feb. 10.—After a long interval caused by the illness of the sixth juror, John D. Campbell, the trial of Albert T. Patrick was resumed before Recorder Goff and a jury today. There had been no session of the important trial since last Tuesday, and interest in the case seemed to have waned, for but few spectators occupied seats in the court room when the recorder took the bench.

Patrick, with his scholarly frock coat laid aside for a more serviceable sack suit of plain black, was brought in at the last moment, in conformity with the custom of formally summoning the prisoner to the bar. He did not make the impulsive and somewhat spectacular entrance that Molineux used to make in the same court room, but walked in very leisurely and stopped at the water cooler to take a drink on the way while the guard waited impatiently for him to proceed.

Doctor Was Cautious Witness.

Proceedings opened with the interrupted cross-examination of Dr. Henry P. Loomis, expert pathologist, by Robert M. Moore of counsel for the prisoner. Dr. Loomis testified to having performed several experiments on animals with chloroform in order to determine the effect of chloroform on the lungs.

"Doctor," said Mr. Osborne, "what evidence did you find that Mr. Rice died of disease?"

"I found no evidence of disease," was the reply.

"But, doctor," interposed Mr. Moore, "are you prepared, from the examination you made of Mr. Rice's body, to say that he did not die of disease?"

"No," answered the witness, after some hesitation. "I am not prepared to say that he did not die of disease. I say I found no evidence of any disease."

Blow Dealt the Defense.

A sensation was caused in the afternoon when John R. Potts, the close friend of the accused lawyer, swore that on September 17, nearly a week before William Marsh Rice's death, Patrick had in his possession several blank checks with Rice's name attached. The inference was that these were the checks for $250,000 which Patrick tried to cash on the day after the millionaire's death. Patrick's story heretofore has been that those checks were sent to him through Valet Jones by Rice himself on the day before he died. The proof that these checks were in his possession nearly a week previously has completely upset the whole fabric of the defense. It was the worst blow dealt to Patrick's case since the beginning of the trial.

Patrick Much Embarrassed.

Potts not only swore that blank checks were in Patrick's possession, but that Patrick produced the alleged forged will and the assignment turning over to him most of the old man's estate. Patrick realized the staggering effect of the state's last blow. He flushed until the bald crown of his head was almost as red as his cheeks ordinarily are. His face was simply crimsoned. He tried to conceal his discomfiture by leaning forward and making notes. His fingers trembled visibly, and in a few minutes he gave it up and found refuge from the eyes of the audience in the court room by whispering with his lawyers.

Just before adjournment for the day was taken a letter was introduced which may have an important bearing on the case. It was written by William Marsh Rice to Andrew J. Randolph, a real estate agent of Texas, and was mailed the day after the aged millionaire died. Randolph was on the stand when the letter was marked for identification.

Valet Jones Will Testify.

Assistant District Attorney Osborne afterward declared:

"We will show that these gentlemen mailed this letter after death to show that Rice was of sound mind and competent on the day before he died."

Charles F. Jones, former valet to the millionaire, it was said this evening, would probably be called to the stand tomorrow, when it is expected he will repeat his confession made several months ago implicating Patrick as the murderer of William Marsh Rice.

UNKNOWN FRIEND GIVES SCHLEY A FINE PIANO

Men Who Delivered the Instrument Bring a Receipted Bill for It. Many Other Gifts.

[SPECIAL TELEGRAM TO THE GAZETTE.]

WASHINGTON, D. C., Feb. 10.—A fine mahogany piano stands in Admiral Schley's apartment at the Richmond hotel and Admiral and Mrs. Schley are wondering where it came from. In the admiral's desk there lies a receipted bill of $1,000 for the instrument.

Several days ago a van drew up in front of the Richmond and several men began to unload the piano, which they said was for Admiral Schley. The admiral came downstairs, protesting that he had ordered no piano. One of the men handed him the receipted bill for $1,000 and also a short note. The note partly cleared up the situation. It concluded:

"Please accept this gift from a sincere admirer; one who desires no notoriety, but who wishes to take this method of expressing his regard for you."

There was no signature; nothing on the paper to indicate the identity of the writer, and the handwriting was wholly unfamiliar to both Admiral and Mrs. Schley. When the men had placed the instrument against the wall of Admiral Schley's apartment the admiral offered them a bill of generous denomination. They declined to accept, saying they had been paid, and that they were instructed to take nothing from Admiral Schley. The admiral could learn nothing from them concerning the gift.

Admiral Schley's mail is heavy, and he receives gifts nearly every day. Several days ago Admiral Schley received an eight-page letter of the most flattering tone, which concluded with the request that the admiral lend the writer $250.

STOPPED THE SHOW.

Frank James Secures Injunction Against Theatrical Company in Kansas City.

KANSAS CITY, Feb. 10.—Frank James, who at one time was a member of the famous James boys' gang, secured a temporary injunction in the circuit court here today restraining a theatrical company now playing in a local theater from presenting the play "The James Boys in Missouri," in which the members of the James family are made to represent train robbers, bank looters and outlaws of the worst character.

Mr. James says his main objection to the play is that it glorifies outlawry and is injurious to the youth of the country.

ZION MOVEMENT BEING AGITATED

RABBI ASKINSKY TRYING TO FORM UNION AMONG LOCAL HEBREWS

In Case It Is Successfully Effected an Attempt Will Be Made Immediately Afterwards to Purchase Jerusalem.

The great international movement for the recolinization of Palestine by the Jews is assuming large proportions in this city.

Prominent Hebrews of the two cities say that Zionism is now a world-wide force that will eventually bring all the sons of Israel into one common body. In this city Rabbi A. M. Ashinsky, pastor of the Beth Jacob and Beth Aamedrash Hagodal congregations, is the recognized leader of Zionism.

Rabbi Ashinsky came to Pittsburgh a few weeks ago from Montreal, Canada, where his eloquence and strong faith in the reunion of the Hebrew race won him golden opinions.

The Federation of Zionist societies of the Canadian provinces have recently commended his noble work for his race and urged him to keep before his flock the password of the Zionist movement: "If I forget thee, O Jerusalem, may my right hand lose its cunning."

Rabbi A. M. Ashinsky.

The Rabbi proposes to leave nothing undone to bring about a firm union of the Jewish race in this part of the country. It is believed that were all the Hebrews to aim at this end the purchase of Jerusalem from the Turk would be assured. The following is the text of a letter from the Canadian Zionists received by Rabbi Ashinsky.

MONTREAL, CAN., Jan. 14, 1902.

Reverend and Dir Sir: I beg to inform you officially that at the recent meeting of the Federation of Zionist societies it was unanimously resolved, by a standing vote, to convey to you the sincere regret which all Zionist societies of Canada have felt for your departure from this country. The Zionists of Canada realize that in you they had one of their most active and energetic supporters, and they will ever remember with gratitude your valuable service to the cause. They hope that you will be able to continue your good work in the new field which you have chosen and wish to express their very best wishes for your future welfare.

ONE MAN KILLED IN A REAR-END COLLISON.

Fast Freight Crashed Into Cattle Train at Haysville—Stock Was Cremated.

Maurice Burke of Pierceton, Ind., was killed, H. J. Harbout of Greenfield, Ia., was injured, many cars were wrecked and several hundred head of stock killed in a freight wreck on the Ft. Wayne railroad, near Haysville, yesterday morning.

At 4:45 o'clock a long stock train stopped near Haysville so that a brakeman could attend to some hot boxes. A flagman was sent back to protect the rear. A few minutes later a freight train ran into the rear of the stock train. The engineer and fireman jumped and were not injured. In the caboose of the stock train were the men in charge of the cattle. Harbout jumped and saved his life. Burke was probably asleep. When found his body was jammed up against the boiler head and badly burned.

Ten cars of stock, five cars of general merchandise and a caboose and engine were scattered for nearly 100 feet along the road. The largest pile was about the engine and was soon in flames. Word was at once sent to Allegheny, and engine No. 3 of the fire department was sent to the wreck. As soon as connections could be made for water the fire was extinguished.

The body of Burke was taken to the morgue and Harbout was removed to the Mercy hospital. He soon recovered from the shock and left the hospital in the afternoon to attend to the work of recovering his cattle. About 25 head of cattle, 50 of hogs and 100 of calves were killed. The carcasses were scattered all along the tracks. One car of cattle had been sideswiped and the cattle killed as they stood when packed in the car. A number of the animals were maimed, and it was necessary for the railroad men to kill them to put them out of their misery.

Some of the cars were tossed from the tracks to the houses along the right of way. One car smashed a front porch. Many families moved their household goods, as it looked for some time as if the houses would burn with the cars.

The engine that caused all the damage was No. 695, and it is but little more than a pile of scrap. An investigation will be commenced today to ascertain the cause of the wreck. The roadmaster said yesterday that the flagman of the stock train had gone back as far as the rules demanded of him.

GRANDSON REMEMBERED.

Not Mentioned in Will of Millionaire Hartley, but Testator Wrote Letter.

NEW YORK, Feb. 10.—Application was made today for permission to probate the will of the millionaire, Marcellus Hartley. Marcellus Hartley Dodge, the grandson, is not named, as the will was drawn 20 years ago. Mr. Hartley left a letter to his wife and his daughter, Mrs. Helen Hartley Jenkins of Morristown, N. J., requesting them to see that young Dodge have suitable participation in the estate.

An estimate from a reliable source places the value of the estate at $20,000,000.

PITTSBURGH MAN ARRESTED ON A SERIOUS CHARGE

Defendant Said to Be an Agent of the Simon Burns Faction.

CONSPIRACY IS ALLEGED

The Case Will Decide Whether Organization Men Can induce Workmen to Leave Their Places and Enter Employ of Rival Plants.

[SPECIAL TELEGRAM TO THE GAZETTE.]

ALTOONA, PA., Feb. 10.—L. C. Getsinger, agent for the Simon Burns organization of window glass workers was held for court this evening by the decision of Magistrate George A. DoByne to answer the charge of conspiracy in an alleged attempt to close the Altoona plant of the Independent glass combine. Attorney William J. Brennen of Pittsburgh gave bail for the appearance of Getsinger at the next court of quarter sessions in the sum of $500.

The magistrate's decision will throw into the courts one of the most vital questions in the history of the war inaugurated between the rival organizations of the skilled workers in the window glass trades. Two weeks ago L. C. Getsinger and Assistant Secretary Frank Yourison of the Burns organization came to Altoona, it is said, to take the workers of the local independent glass plant to Kane and Jeannette.

Plant Was Crippled.

In a short time they had the plant crippled, securing for other plants half of the skilled men at work here. Their expenses for moving household effects and the transportation of individuals were paid by Getsinger out of the Burns organization treasury. One witness at the hearing testified that Getsinger had brought $27,000 to Altoona "to close the Altoona plant."

Getsinger's alleged statement that he would close the Altoona plant was the basis of the charge of conspiracy. Assistant Secretary Frank Yourison was made co-defendant on this charge as an accessory before the fact. The warrant on Yourison was not served owing to his absence from the city, but he will be brought to Altoona immediately to answer the charge upon which Getsinger was held. Yourison was in Altoona a week ago with Getsinger and is said to have taken a prominent part in inducing the independent workers to go from Altoona to Kane and Jeannette.

Wanted to Compromise.

Previous to the filing of the decision of the alderman it is claimed that the attorney for L. C. Getsinger proffered a settlement, agreeing to pay costs and attorneys' fees and sign a paper to leave the Altoona glass workers alone in the future. The plant managers refused the offer and insisted that Getsinger be held.

The case is sure to be one of the noted legal test cases in the history of the glass war inaugurated by the stand of the Independent combine early this year. In his testimony Getsinger said the Burns organization was attempting to proselyte the Denny workers all over the country. The Altoona criminal charge will make a precedent in deciding whether an organization has a right to send monied agents to secure workers employed in rival factories for other points.

Will Honor Lincoln's Memory.

NEW YORK, Feb. 10.—Lincoln's birthday will be universally observed in the financial district. All the banks, trust companies, exchanges and similar institutions will be closed as well as the government offices.

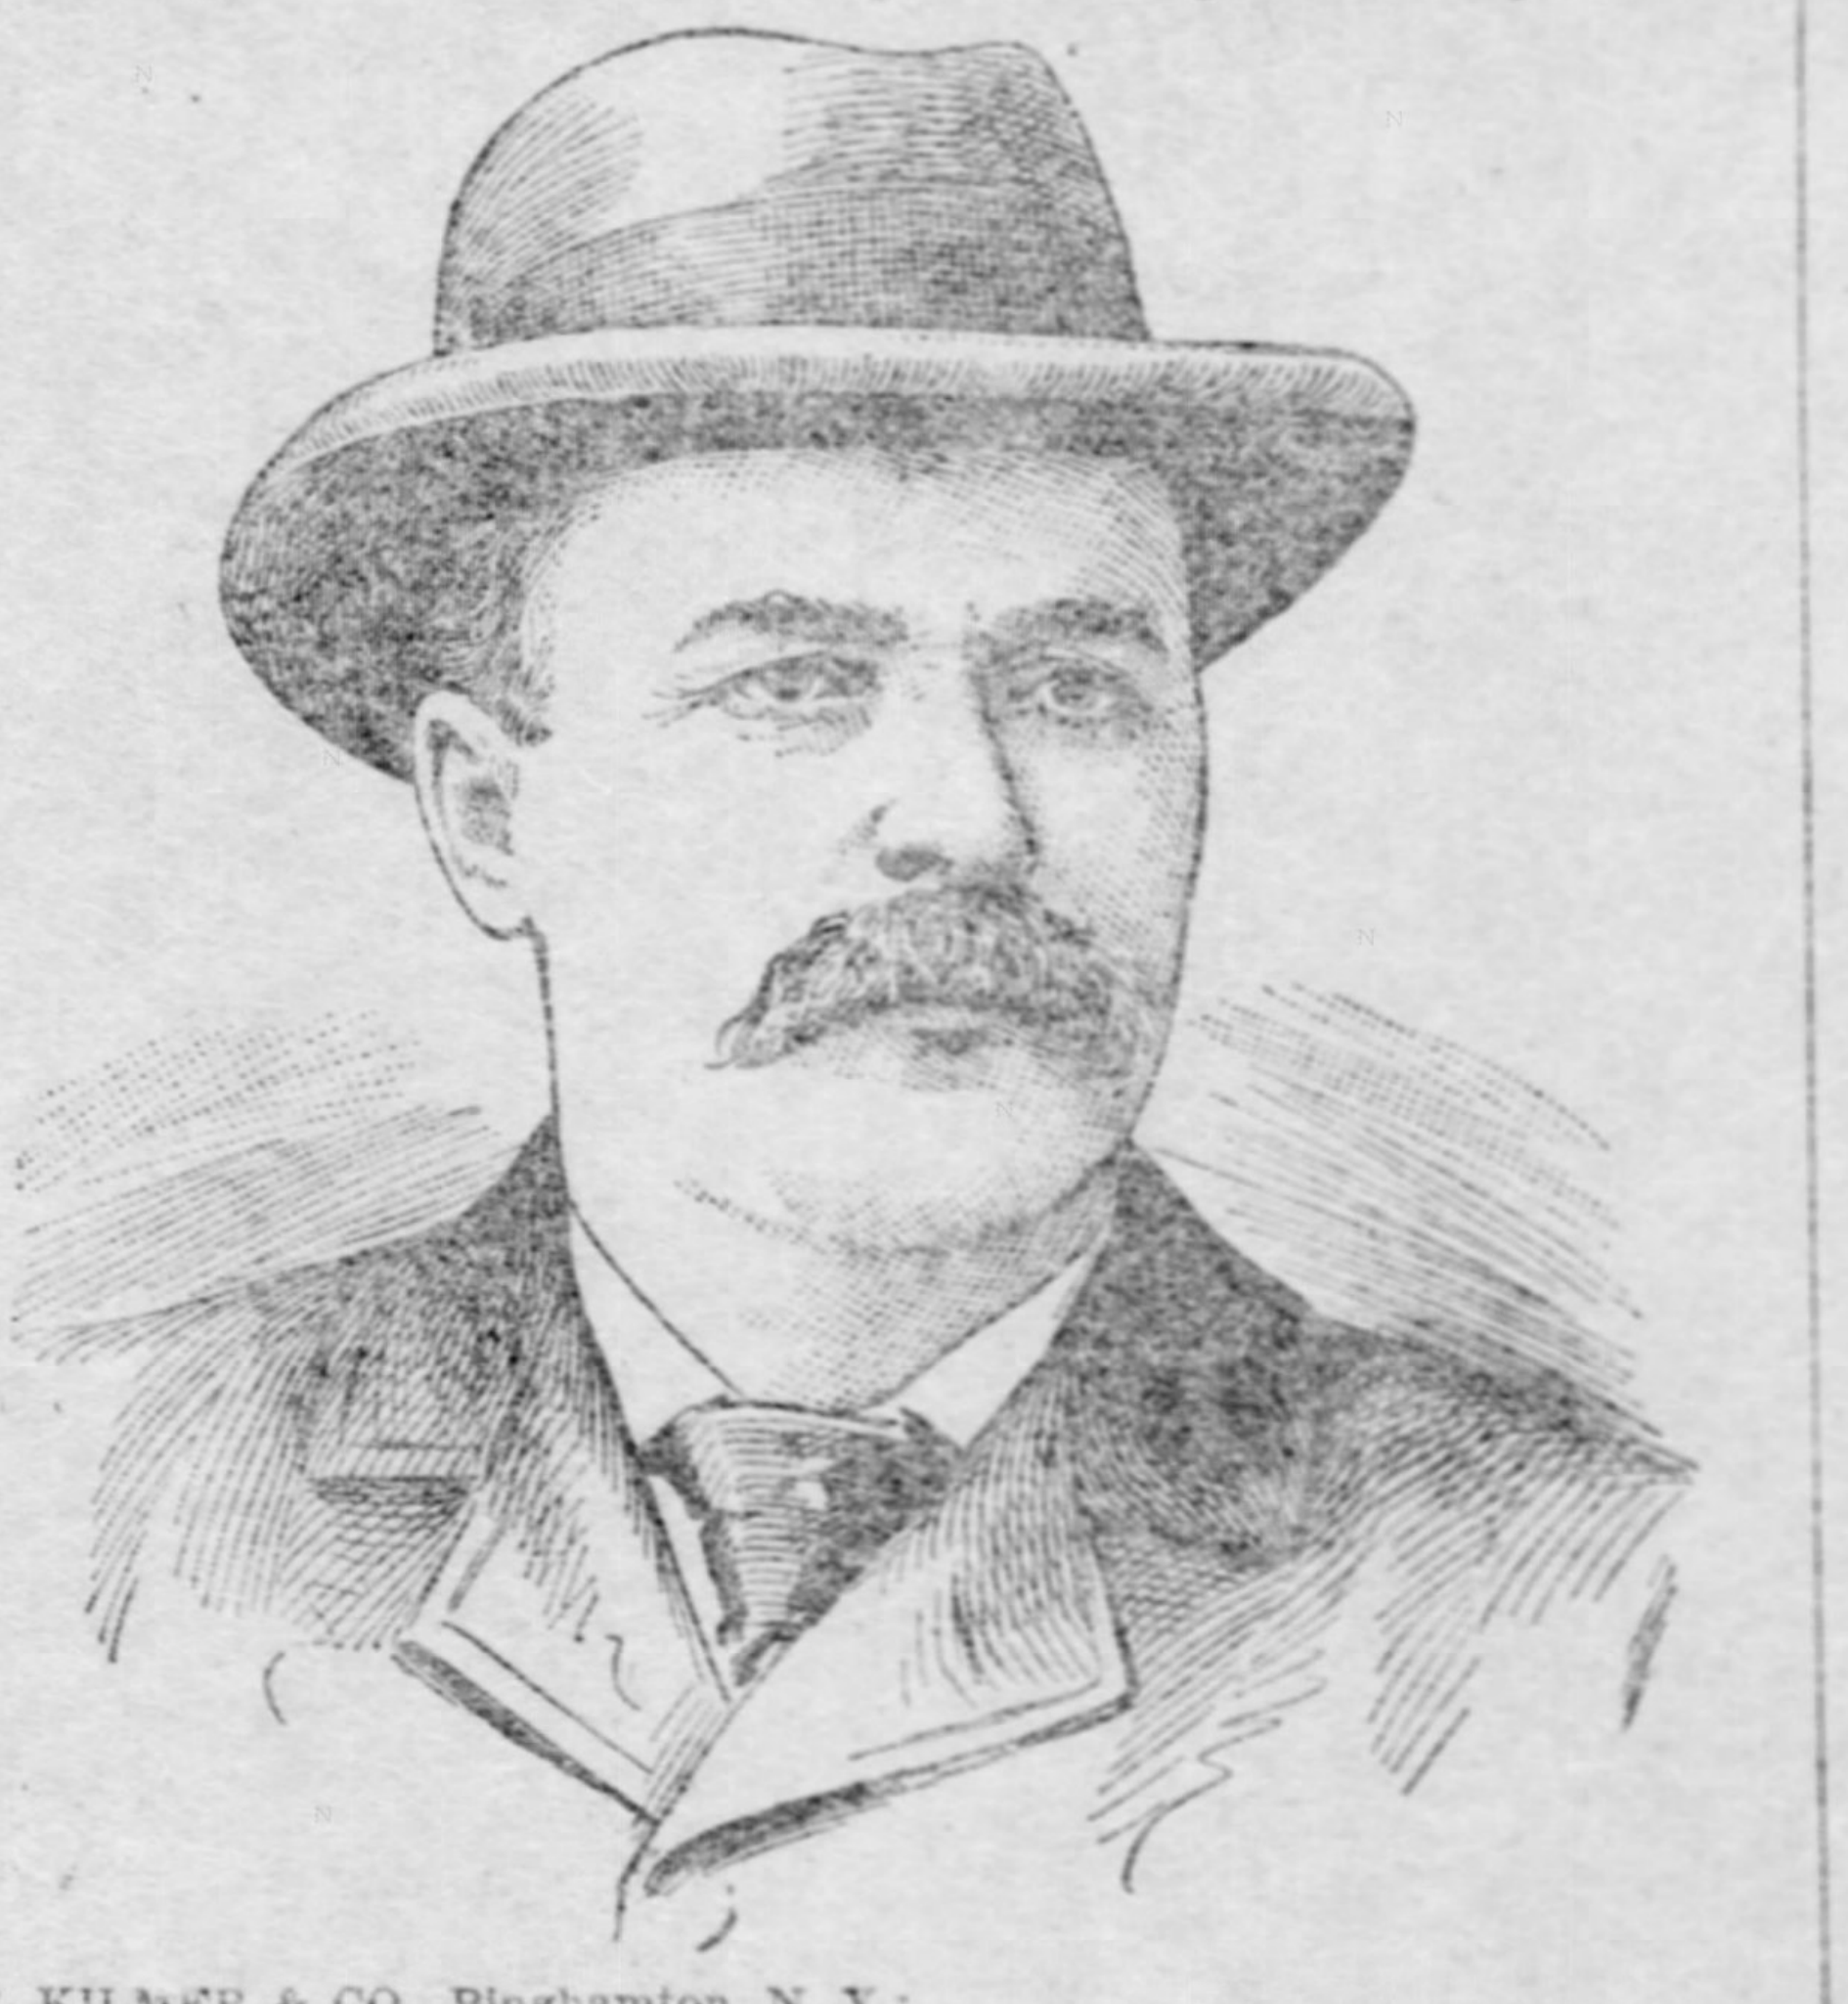
WEAK KIDNEYS AND BLADDER TROUBLE

Had to Pass Water Very Often Day and Night.

Cured by the Great Kidney Remedy, Swamp-Root.



DR. KILMER & CO., Binghamton, N. Y.:

About two years ago I had a very severe case of kidney and bladder trouble. The pain in the small of my back was so severe that I could not stand it to stay in one position more than a moment or two, and was obliged to pass water very often day and night. I tried medicines and doctors without getting relief. Noticing an advertisement in the Topeka State Journal of Swamp-Root I determined to give it a trial and bought a bottle. By the time I had finished the first bottle the pain had entirely disappeared from my back. The pain and frequent desire to pass water ceased. However, I continued to take the medicine, using about six bottles in all. That was over a year ago and I have had no return of the trouble since.

Weak and unhealthy kidneys are responsible for more sickness and suffering than any other disease, therefore, when through neglect or other causes, kidney trouble is permitted to continue, fatal results are sure to follow.

We often see a relative, a friend or an acquaintance apparently well, but in a few days we may be grieved to learn of their severe illness, or sudden death, caused by that fatal type of kidney trouble—Bright's Disease.

The mild and extraordinary effect of the world-famous kidney and bladder remedy, Dr. Kilmer's Swamp-Root, is soon realized. It stands the highest for its wonderful cures of the most distressing cases. A trial will convince anyone—and you may have a sample bottle sent free by mail.

Sample Bottle of Swamp-Root Free by Mail.

EDITORIAL NOTE—Swamp-Root has been tested in so many ways, and has proven so successful in every case, that a special arrangement has been made by which all readers of the Pittsburgh Gazette who have not already tried it may have a sample bottle sent absolutely free by mail. Also a book telling all about Swamp-Root, and containing many of the thousands upon thousands of testimonial letters received from men and women who owe their good health, in fact, their very lives, to the wonderful curative properties of Swamp-Root. In writing, be sure and mention reading this generous offer in the Pittsburgh Gazette when sending your address to Dr. Kilmer & Co., Binghamton, N. Y.

If you are already convinced that Swamp-Root is what you need, you can purchase the regular fifty-cent and one-dollar size bottles at the drug stores everywhere. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

(No. 281.)

AN ORDINANCE—Levying taxes and assessing water rents for the fiscal year, beginning March 1, 1902.

Section 1. Be it ordained and enacted by the select and common councils of the city of Allegheny and it is hereby ordained and enacted by the authority of the same, That for the purpose of providing sufficient revenue to meet the ordinary expenses of the city, to pay interest on outstanding bonds and to discharge all other liabilities now due or which may become payable during the said year beginning March 1, 1902, taxes shall be and are hereby levied and assessed upon all property and other objects of taxation as follows, viz.: City taxes—Upon all property taxable for state or county purposes, thirteen and one-half (13½) mills upon each dollar of valuation except the property in said city designated as rural, upon which the tax shall be assessed at two-thirds of said rate; and upon all property designated as agricultural the tax shall be assessed at one-half of said rate. Upon all property taxable for state or county purposes (exclusive of improvements) a tax of three-tenths (3-10) of one mill, for the purpose of paying interest on all sewer bonds of the city not otherwise provided for by the sinking fund.

Sec. 2. And at the above rate the board of assessors shall assess said taxes, and the city treasurer shall have no power to divide any item of tax as reported by the board of assessors.

Sec. 3. That the rates of vehicle licenses for 1902 shall remain the same as fixed by ordinance approved July 26, 1895, entitled, "An ordinance relative to the licensing of vehicles in the city of Allegheny."

Sec. 4. That the following shall be the rates of water rents: One room, $2 50; two rooms, $4 00; three rooms, $5 75; four rooms, $7 25; five rooms, $8 75; six rooms, $10 25. Houses containing more than six rooms shall be assessed an additional $1 50 per room; large rooms (equal in size to two common rooms), shall be assessed as two rooms; elevators, hotels, taverns, boarding houses, drinking saloons, cotton factories, breweries, tanneries, malt houses, and all places where steam is used, shall be charged special rates, to be fixed by the committee on public works, except when supplied by water measure, then the rate shall be one (1) cent per hundred gallons; also, a further rate, exclusive of any rate that may be charged by the foregoing, on the following items, viz.: Public baths, each tub, the sum of $10; private baths, each (cold water) $2; private baths, each (hot and cold water), $3; water closets, public and private, not less than $2 nor more than $10; private dwellings, each additional closet, half rates; Ives', McKissock's or similar closets, each $12; plug wash-hand basins, each $1 50; carriages, omnibuses, buggies, etc., $2 50 to $10; horses, each, $1 50; cows, each, 75 cents; slaughtering houses, each, from $10 to $50; store rooms, separate and apart from dwellings, from $2 50 to $10, hydrants, or any other arrangements (separate from hydrants in common use) for washing pavements, from $1 to $10; and garden or lawn hose, from $2 50 to $12; saloons from $15 to $40, where pumps are used, each $5 additional; barber shops, one chair, $5, for each additional chair used, $3; blacksmith shops, each forge, $2; churches, from $3 to $7; schools, from $5 to $25; offices, separate from dwellings and stores, $2; bakeries, for each barrel of flour baked, 1 cent; fountains in yards or gardens, a jet of three-sixteenths (3-16), $5, each additional jet, $2; brick yards, for each 1,000 bricks made, 10 cents. All the above indefinite assessments to be made at the discretion of the superintendent of bureau of water assessments. Permits for sprinkling the streets will be granted by the superintendent of bureau of water assessments, on the terms to be fixed by the director of the department of public works. The committee on public works may suspend the use of water for sprinkling streets, whenever, in their opinion, the public exigencies may require it. Any person or persons believing themselves aggrieved by the superintendent in levying the water tax, may at any time appeal for redress to the committee on public works stating the facts under oath or affirmation, administered by competent authority.

Sec. 5. That the superintendent of the bureau of water assessments be and he is hereby authorized to assess all owners of manufactories and private dwellings (who are not and cannot be assessed according to the established schedule) not exceeding five mills on their valuation for water purposes; providing no tax to be levied on property not within reach of fire protection.

Sec. 6. That the revenue of the said city for the year 1902-1903 arising from taxes, water rents, markets, fines and forfeiture and all other sources, together with any money in the city treasury not appropriated, are hereby appropriated for the current fiscal year:

Caught in Ice-Bound River--Prisoner Wants to Hang

ESCAPE FROM PRISON BLOCKED BY DEEP SNOW

AT LARGE SEVEN HOURS

Horse Thief Got Out of the Clarion Jail by Locking Up Sheriff.

[SPECIAL TELEGRAM TO THE GAZETTE.]

CLARION, PA., Feb. 10.—Dave Trainer, a horse thief, escaped from jail here last evening.

About 9 o'clock Sheriff Thompson entered the jail to remove the supper dishes. Trainer called to him at once and said the bath tub was leaking and needed attention badly. The sheriff set down the dishes and went into the bath cell, when Trainer slammed the door shut, then went out, closed and locked the large door into the corridor, stole one of the sheriff's coats and got away.

In a few minutes the cries of the sheriff were heard and some of his family came to his rescue, releasing him. He immediately formed a posse, stationed guards at all the roads leading out of town and the search began. About 1 o'clock this morning Guard Strickler, on the pike, saw a man coming toward him, who, when challenged, jumped a fence and ran through a field. Strickler at once notified the sheriff, who, with Deputies Famming and McElhattan, started in pursuit. Owing to the extremely deep snow Trainer was unable to make much headway.

About 3 o'clock this morning the sheriff and his deputies overtook the escaped prisoner at the river, just as he was crossing on the ice, and he was brought back to town, where he was lodged in jail about 4 o'clock, having been at large less than seven hours. Trainer has served three or four terms in the Western penitentiary for horse stealing, having been released from Riverside about six months ago.

SALE OF TROLLEY LINES.

Report That the P., McK. & C. Co. Has Purchased Westmoreland County Franchises.

GREENSBURG, PA., Feb. 10.—(Special.)—A rumor, based on excellent authority, says that the Westmoreland trolley line and the lines and franchises of the Greensburg and Southern Company have been sold to the Pittsburgh, McKeesport & Connellsville trolley concern, possession having been given today.

The rapid transit lines of the Westmoreland Company extend from Irwin to Youngwood, a distance of about 16 miles, and will connect with the Scottdale spur of the Pittsburgh Company at that point. The Greensburg and Southern road is in course of construction, and, as it was meant as an opposition line to the Westmoreland, it may be abandoned. The new company will at once extend its line from Irwin to Wilmerding, there to connect with the Monongahela Traction Company.

SAW DEDICATION AND DIED.

Harrisburg Pastor Passed Away One Hour After the Consecration of His New Church.

HARRISBURG, PA., Feb. 10.—(Special.)—One hour before the death of their pastor the congregation of the Second Baptist church (colored) dedicated their new place of worship at the request of the dying clergyman.

The Rev. W. R. Burrill, the pastor, had been ill for some time, but confidently looked forward to good health by the time of the dedication of the church, which was fixed for yesterday. Mr. Burrill was suddenly taken worse and his congregation suggested that the dedication be postponed, but he would not hear to it and within an hour after the service he passed away.

WILL NOT MEET STRIKERS.

In an Endeavor to Avoid Trouble a Findlay Mill Owner Has Left Town.

FINDLAY, O., Feb. 10.—(Special.)—President William Brenner of the Ohio Rolling Mill Company, left the city this morning to avoid further meetings with the strikers, who have made frequent threats of violence.

The mill is being heavily guarded and the Brenner home was under police protection all last night. The trouble is no nearer adjustment than on Saturday, and no settlement can be effected until Mr. Brenner returns. Two hundred and forty men are out of work and the authorities anticipate further trouble, as the foreign element among the strikers is quite large.

LOOKING FOR ALL TIMBER.

Shipbuilders May Find Material for Spars in the Black Spruce Forests of West Virginia.

ELKINS, W. VA., Feb. 10.—(Special.)—A northern shipbuilder is in Pocahontas county examining the quality of black spruce to see whether or not it is suitable for building spars for vessels. G. E. Patrick has been getting out some trees 60 to 70 feet in length with a diameter of 10 to 12 inches at the butt.

Shipbuilders have never heard of any spruce this far north suitable for masts of ships, the market having been supplied from the woods of Canada. It is hoped and believed that the spruce from this section will prove satisfactory.

Pennsylvania Lumberman Killed.

ELKINS, W. VA., Feb. 10.—(Special.)—Word has reached here of the death of David McDonald, a logger and woodsman from Pennsylvania in the employ of the West Virginia Spruce Lumber Company at Cass, Pocahontas county. McDonald, while sitting on the ends of the ties near a well known spring on top of Cheat mountain, on the railroad of the company with which he was employed, was struck by an engine and instantly killed.

Say the Water Is Polluted.

AKRON, O., Feb. 10.—(Special.)—The Thomas Phillips Company, manufacturing paper bags, today brought suit against the Diamond Rubber Company for an injunction and $26,000 damages. The Phillips Company uses water from the Ohio canal and claims that it is so polluted from the reclaiming plant of the rubber company that it cannot be used.

Brooms Will Cost More.

COLUMBUS, O., Feb. 10.—The meeting of the Broom Manufacturers' association of the United States and Canada scheduled to be held at Chicago on February 25 will be held one week earlier. There will be an advance of 25 cents per dozen in the price of brooms and other advances will probably follow. The cause is said to be a shortage in the broomcorn crop.

Charter Issued Yesterday.

HARRISBURG, Feb. 10.—A charter was issued by the state department today to the Donley Brick Company, Washington, capital $25,000; directors, G. E. Lockhart, J. K. Mitchell, A. M. McElroy, James E. Murray and R. H. Maloy, Washington.

Dead a Week Before Discovered.

GREENVILLE, PA., Feb. 10.—(Special.)—Michael Slater, an old and well-known man, was found dead at his home near Stoneboro yesterday. He lived alone and had probably been dead a week.

Insane Woman Kills Herself.

MORGANTOWN, W. VA., Feb. 10.—(Special.)—Mrs. Todd Dougherty, aged 27 years, committed suicide at her home on Cheat Neck, this county, last night by taking arsenic.

The Late Judge John Marshall Hagans

Judge John W. Mason, now on the bench in the Fairmont judicial district, has decided to arrange for the hanging of the portraits of all the former judges upon the court room walls in the Fairmont court house. The daughters of the late Judge Hagans of Morgantown are having a magnificent portrait of their father done in oil, to be placed in this gallery.

DESPERATE CITIZENS TO RAID COAL TRAIN.

Less Than Ten Tons in the Yards of Columbus, and a Large Section Out of Fuel.

[SPECIAL TELEGRAM TO THE GAZETTE.]

COLUMBUS, O., Feb. 10.—The citizens of the West Side of the city, driven almost to desperation by inability to secure coal during the severe weather of the past few days, have organized to intercept the heavily laden coal trains of the Hocking Valley railroad and take by force what fuel they need. They do not mean to steal the coal outright, but will pay a good price for whatever is confiscated when the railroad company presents its bills.

Five hundred families of the West Side are without coal. The movement is led by ex-Councilman Christopher Ross. The same state of affairs exists on the South Side, and a similar movement is in progress there.

There is less than ten tons of coal in the yards of Columbus tonight. Mayor Hinkle said today he would not interfere with the proposed raid upon the coal trains, the first of which is scheduled for tomorrow.

HAD A NARROW ESCAPE.

Hungarian Escaped Uninjured, but All His Clothes Were Torn From His Body.

YOUNGSTOWN, O., Feb. 10.—(Special.)—For three minutes a Hungarian laborer employed in the Bessemer plant of the Republic Iron and Steel Company wrestled with death while scores of workmen looked on, all helpless.

His coat sleeves caught in a cogwheel. For several minutes he tugged and fought, one moment gaining, the next losing, until finally, with a superhuman effort he tore away from the wheel but not until every stitch of clothing but his hat and shoes were torn from his body. He escaped without a single scratch.

WARRANT FOR MISSING MAN.

Mayor Doyle of Akron Makes Preparations for Capture of an Alleged Absconder.

AKRON, O., Feb. 10.—(Special.)—A warrant was issued by Mayor Doyle this morning for the arrest of Frank E. Fuller, the absconding agent of the Adams Express Company's office at Hudson. The affidavit was signed by L. Elliott, the agent for the company in this city.

Nothing is known as to the whereabouts of Fuller and the warrant was issued to use in case Fuller is found. It is impossible as yet to tell how much was stolen, but so far as known, there was only the package of mutilated currency, amounting to $300, which had been shipped by the City National bank of this city.

DIED FOR OTHERS.

Dunlo Physician Killed by Steel Cars in Heroic Attempt to Rescue Two Hungarian Women.

JOHNSTOWN, PA., Feb. 10.—(Special.)—In a heroic effort today to save the lives of two Hungarian women Dr. J. A. Baird of Dunlo was crushed to death by a train of cars at that place. Two steel cars had been thrown down the siding by a shifting crew and were in charge of a brakeman. They were on a grade and were seen approaching by Dr. Baird. He helped the women to a place of safety, but fell and the cars passed over him before he could pull himself out of the way. Dr. Baird was 52 years of age and a native of Maryland. He leaves a wife and two children.

Light Sentence on Serious Charge.

WASHINGTON, PA., Feb. 10.—(Special.)—In criminal court here today F. H. Cunningham, conductor, and C. H. Schull, engineer, on a Baltimore & Ohio freight train which crashed into a westbound passenger train near here on October 30, 1901, killed four men and injured several others, were found guilty of involuntary manslaughter and were each sentenced to one day in jail with a fine of $100 each. Both men pleaded guilty to the charge. They live at Glenwood.

Cocoa Causes Trouble.

ALTOONA, PA., Feb. 10.—(Special.)—Food Inspector James Foust of this city today made information before Alderman John A. Jones of Johnstown against Cawthern Bros. and F. S. Lewis, two Johnstown merchants, charging them with violating the pure food laws by selling adulterated cocoa. The cases will be heard February 21.

School House Burned.

JOHNSTOWN, PA., Feb. 10.—An $8,000 school house at Spangler, this county, was destroyed by fire last night. Insurance, $5,000.

STATE AND NEIGHBORHOOD.

WASHINGTON, PA.—At a hearing yesterday noon, "Rags" Mull, "Buck" Redman and "Pleasant" Brooks were held for court on a charge of being implicated in the express robbery here last week, when about $800 was stolen.

PARKERSBURG, W. VA.—While attempting to arrest Casper Cillas at his home in Belpre yesterday there was a row. The constable, after disarming Cillas, shot him twice, the balls taking effect in each arm. Sharp was placed under arrest, but was afterward released.

CONNELLSVILLE, PA.—Dr. Ellis Phillips of New Haven, while taking dinner at the home of a patient in Adelaide, put his false teeth in his pocket. When he replaced them a half-grain tablet of atropine clung to one of the plates. The doctor's life was despaired of for a time, but he is now on the road to recovery.

MOUNDSVILLE, W. VA.—The last consignment of criminals from Fayette county numbered eight men. One man is under sentence to be hanged, two to undergo life sentences, one to serve 10 years, two to serve five years, and two to serve two years. There are now seven men in the penitentiary here under sentence of death.

YOUNGSTOWN, O.—It is probable that the rivalry between the railroads and trolley lines connecting this city and New Castle will result in a reduction of the fare. The trolley fare will be 20 cents. The railroad fare between the two cities is now 65 cents, but it is expected that both the Pennsylvania and the Pittsburgh & Lake Erie will reduce this amount at least 50 per cent.

BUSY MAKING ROPES TO HANG HIMSELF IN JAIL.

TRIED TWICE IN VAIN

Washington County Sheriff Is Having a Hard Time With a Fractious Prisoner.

[SPECIAL TELEGRAM TO THE GAZETTE.]

WASHINGTON, PA., Feb. 10.—Steve Polasky, a prisoner at the county jail here, has made two unsuccessful attempts to hang himself in his cell, but each time has been thwarted by the timely arrival of the jail guard.

At rope making Polasky is an expert, and can make a hanging strand out of anything from a trouser leg to a flannel blanket. One time he used his underclothing and the next time he tore a sheet into ribbons and, twisting the strips together, improvised a rope that would have hanged a horse. He seems much chagrined that his plans for suicide were frustrated.

Polasky is a coal miner, and last week pleaded guilty to a charge of changing checks at the Schoenberg mines of the Monongahela River Consolidated Coal & Coke Company. He was sentenced to the workhouse for eight months and is now waiting to be taken to Claremont.

HOT RACE FOR PRESIDENCY.

Washington and Jefferson Seniors Will Have an Exciting Election for Class Officers Today.

WASHINGTON, PA., Feb. 10.—(Special.)—One of the biggest fights ever participated in by a class at Washington and Jefferson college will be on tomorrow, when the officers of the senior class are elected to serve until commencement time.

The principal contest will be for president of the class, which is the most important one. The president has the appointing of the committees who are to have charge of the commencement exercises and festivities. The two candidates for president are Charles Hull of Canonsburg and Benton R. Hough of Greensburg. Both men have been pledging votes for more than a year, and but two men in the class, it is claimed, have not pledged to one of the two candidates.

WRECK IN WEST VIRGINIA.

Two Engines Were Unable to Push Freight Up a Grade and Crashed Down Hill.

HAMELETON, W. VA., Feb. 10.—A freight train broke in two last evening going up the big grade between here and Thomas on the West Virginia Central railroad. The train has to climb 1,200 feet in 12 miles on this grade.

A helper was on behind. The back engine could not hold the 13 cars linked to it and started backward. The brakes were applied, but it did no good. The engineer and fireman jumped to save their lives.

In a cut the train left the track. The tender, three cars of paper, one of hay and six of lumber were smashed to kindling wood and piled up high. The engine was badly broken up. It took 24 hours to clear the wreck and passenger traffic had to be transferred at the wreck.

STATE ASKED FOR AID.

Ellsworth Coal Co. Wants Assistance to Quell the Smallpox Ravages at Scenery Hill.

WASHINGTON, PA., Feb. 10.—(Special.)—Smallpox, which was thought to have been checked at Scenery Hill, this county, has broken out again and many new cases are reported. William Tunico, aged 14 years, died from the disease this morning, making the fourth victim that has succumbed.

A strict quarantine has been re-established and no one is allowed to leave or enter. Bentleyville, a neighboring village, is greatly excited and has again placed an armed guard at the entrance to the town to keep out any refugees from Scenery Hill. The Ellsworth Coal Company has asked the state for aid in checking the disease.

School Has a Hard Name.

MORGANTOWN, W. VA., Feb. 10.—(Special.)—Harmony Grove school in Grant district is closed because the teacher has been run out by the students. This school has established a reputation. For five years the school has had from two to three teachers each year and has been closed half the time. Only one teacher came out on top with the pupils who attended and he beat them so that they would not attend.

Big Ore Beds Purchased.

YOUNGSTOWN, O., Feb. 10.—Col. George D. Wick, president of the Youngstown Iron, Sheet & Tube Company, returned from Duluth this morning and confirmed the report of the purchase of the Maitland ore property and stated that he had also secured the ore properties of the Pitt Mining Company, on the Mesaba range, which he said would insure a 30 years' supply of ore for the company here.

Crushed by a Locomotive.

GREENVILLE, PA., Feb. 10.—(Special.)—George Thompson was rolled 80 feet along the track by the wheels of a locomotive and is still alive. Thompson is a car inspector at the Bessemer shops and was struck by a passenger train while walking along the track today. Both legs were broken and his skull crushed. A brother of the victim lost an arm in the shops last week.

Trainmen's Wages Stopped.

ALTOONA, PA., Feb. 10.—Twenty-two trainmen on the middle and Philadelphia divisions of the Pennsylvania railroad, residing at Harrisburg, had their wages attached today for debts of from $5 to $200 due to Harrisburg merchants. The attachments were received at the offices of the Pennsylvania Company here, so that the wages of the men can be intercepted.

Banner Pay Day at Altoona.

ALTOONA, PA., Feb. 10.—This is the banner pay day in the history of the Pennsylvania railroad shops in Altoona. Its employes today received $530,000 in payment for work done in January. Every department in the local shops is taxed to its utmost, getting out new and old work, and men have been working over time.

Despondent Man Tries Suicide.

TITUSVILLE, PA., Feb. 10.—(Special.)—Edward Eckardt, a mill man of Troy township, made an unsuccessful attempt on his life last night by drinking carbolic acid. He had become despondent over the probability of having an injured arm amputated. His condition is very critical.

WON'T RESIGN UNDER FIRE.

Secretary of Navy Long Admits He Will Be Glad When He Can Return to Private Life.

HINGHAM, MASS., Feb. 10.—(Special.)—In an interview today, and in a tentative way, Secretary Long denied the truth of Washington dispatches that he had resigned, and said:

"I certainly shall not resign under fire. The old story has been revamped. That is all there is to this latest dispatch. I have at present no thought of resigning. It has not been even considered by me. My position today is simply the same as it was at the end of President McKinley's first administration. I would have been glad then to be relieved of official duties and responsibilities. My mind has not changed in that respect.

"The matter of resignation might, possibly, come up for some thought later on, but just now it is in no way considered. I will be glad when the time does come when I can return again to private life."

Marconi System to Receive Greatest Test on Ship on Which Prince Comes.

GERMAN ADMIRAL ABOARD

[SPECIAL CABLE TO THE GAZETTE.]
(Copyright, 1902, by The New York Herald Co.)

LONDON, Feb. 10.—It is more than probable that the steamship Kronprinz Wilhelm's next voyage to America will be memorable for at least two reasons.

Not only will the North German Lloyd steamer have the honor of conveying the emperor's brother to America, but during the trip may be recorded one of the most important developments in the history of wireless telegraphy—one which, it is hoped, will set the minds of "doubting Thomases" at rest and chronicle another triumph for Mr. Marconi. Briefly, it is expected by the Marconi Company that messages will be transmitted from the vessel to the shore for at least 200 miles out, while the more confident expect that she will be in communication with land 1,000 miles out.

Admiral von Tirpitz of the German navy, who, I understand, will be on board, is greatly interested in wireless telegraphy, and, no doubt, will follow the work done closely.

WILL TRY AMERICANS.

Sir Thomas Lipton Will Test Work of a Skipper and Crew From This Side.

LONDON, Feb. 10.—Sir Thomas Lipton's third challenger for the America's cup will be tested against the Shamrock II., with an American skipper and crew on board the latter. This decision is the outcome of the statement that the Columbia was better handled during the cup races of last year.

No American captain has yet been asked to show what he can get out of the Shamrock II., and probably none will be until the end of the coming season, but Sir Thomas has decided that, after his new challenger has been thoroughly tried here against the Shamrock I., another series of trials shall be carried out over the cup courses against the Shamrock II., with the latter yacht in American hands.

By this means it is hoped to show how far George L. Watson's opinion of his boat was justified and give the third challenger such a tuning up as to assure that she shall not suffer from being brought to the starting line in an untried condition.

OPERATION A STRANGE ONE.

Paris Surgeon Separates New "Siamese Twins" While Living Picture Machine Records Operation.

PARIS, Feb. 10.—The condition of the Hindoo twins, Radica and Dordica, who were united after the manner of the Siamese twins and who were separated yesterday afternoon by Dr. Doyen, was no worse today.

They have been sleeping quietly, side by side, watched by the Sisters of Mercy. The children are terribly emaciated, due to tuberculosis. They have been nourished since the operation with champagne, rum and tea.

Dr. Doyen, who is one of the first surgeons in Paris, cannot answer for the life of either of the twins. He took great pains to have all the details of the operation clearly recorded by a living picture machine. The doctor twice asked anxiously how much time was left before the films would be exhausted.

The children were 20 minutes under chloroform, but the actual operation lasted only ten minutes.

HOSPITAL FOR AMERICANS.

Citizens of United States to Be Treated Free in Paris Institution.

PARIS, Feb. 10.—(Special Cable.)—There is to be built in Paris an American hospital where all citizens of the United States will find, in case of illness, careful medical and surgical attention free of charge.

Funds for the purchase of land for the erection of buildings for the complete fitting up of a model modern hospital and for the endowment of the same, are available. The land already has been bought, and for several months American architects have been working on the plans.

WILL HOLD WEI HAI WEI.

Great Britain Will Withdraw Troops, but Will Not Surrender the Port to Chinese.

LONDON, Feb. 10.—In the house of lords today the under secretary for the colonial office, Lord Onslow, referring to the government's intention to withdraw the British troops from Wei Hai Wei stated that the Chinese regiment there will be gradually disbanded. It has been found that the position can only be fortified at a great expense. The colonial office took over the administration of the place January 1.

The rumors that Wei Hai Wei would be returned to China or handed over to any other power are, according to Lord Onslow, entirely unfounded.

BELGIANS FEAR TROUBLE.

The Socialists in Brussels Have Threatened to Invade the Chamber of Deputies.

BRUSSELS, Feb. 10.—Stringent police and military measures will be taken to counteract the expected Royalist demonstration tomorrow, on the occasion of the commencement of the debate in the chamber of deputies on universal suffrage.

The Socialists here threatened to surround the house, and an invasion of the building is feared. All the approaches to the chamber, ministerial offices and palace will be strongly held by troops and civil guards.

Silvela Challenged to a Duel.

MADRID, Feb. 10.—Senor Ibaney, a Republican deputy, has challenged Senor Silvela, former premier, to fight a duel in consequence of sharp criticism by the latter in the chamber of deputies February 8 of Ibaney's connection with the agitation in Valencia.

FIRST MEETING HELD.

Southern Conference of Lutheran Church in This Synod Begins Winter Sessions.

The winter session of the southern conference of the Pittsburgh synod in the Lutheran church held the first of a series of meetings at the Brushton Avenue Lutheran church, corner Hamilton and Brushton avenues, last evening. The meeting was well attended. One of the features of the evening was the music rendered by the choir. The meeting was opened with devotional services conducted by the Revs. J. B. Markward and W. G. Slonaker.

The Rev. A. J. Turkle of the Trinity church, Allegheny, delivered an address upon the pre-eminence of a congregation's own work in a mission church. He spoke of the importance of a congregation working as a unit with the pastor and the necessity of a church presenting a solid front in order to secure the necessary aid to carry on the work.

A paper was read by the Rev. J. E. Bittle of Turtle Creek on the necessity of the general work of the church in mission work, in which he said that the people must work as churches; that they must first support their own church and afterward contribute to the general fund as individuals.

The Rev. W. J. Bucher of Braddock delivered an address upon the "Attitude of the Laity to Its Ministers."

There will be three sessions held today; morning, afternoon and evening.

Aeronaut Santos-Dumont.

MONACO, Feb. 10.—Santos-Dumont today made his third trip over the bay. The aeronaut made evolutions with complete success for 30 minutes and returned to his starting place amid the plaudits of a great crowd.

GEN. GOMEZ WELCOMED.

Cuban Soldier Received a Big Ovation at Santiago—Said He Trusts the United States.

SANTIAGO, CUBA, Feb. 10.—Gen. Maximo Gomez arrived here tonight on his way to Santo Domingo. He was given a great demonstration. A large crowd had assembled with bands of music. The municipal police and the firemen also turned out to welcome him.

Gen. Gomez said that he believed the United States would fulfill its pledges to establish a stable government in Cuba. He added that a reciprocal tariff will be necessary and said he felt confident that a reduction of 50 per cent on Cuban sugar and tobacco imported into the United States would be granted. He also declared that the Cuban people would appreciate even a smaller reduction of the duties on these products.

Gen. Gomez is in good health and expects to return soon from Santo Domingo, whither he goes to visit a sick relative.

Americans to See the King.

LONDON, Feb. 10.—(Special Cable.)—Several Americans will be presented to the king at the first levee at St. James place tomorrow afternoon. In the general circle Mr. Choate, United States ambassador, will present Allison V. Armour of Chicago and Charles Gibson of Boston, while in the diplomatic circle there are to be introduced William C. Eustis, third secretary and Maj. Edward B. Cassatt, military attache of the American embassy, and William Woodward, private secretary of the ambassador.

Big Australian Wheat Crop.

ADELAIDE, SOUTH AUSTRALIA, Feb. 10.—The Register estimates the wheat yield of the colony at an average of five 50-pound bushels per acre on 1,500,000 acres, and the exportable surplus of wheat at 146,000 tons.

FINANCE COMMITTEE MEET.

Several Ordinances Referred to Allegheny Councils for Their Action.

The committee on finance of Allegheny councils met in regular monthly session last night.

The principal matter considered was an ordinance authorizing the payment to W. S. Foster and Dr. E. S. Riggs of $11,000 damages occasioned by the widening of the Brighton road.

The board of viewers allowed the owners $11,000 damages and they agreed to take that sum. New viewers, however, have been appointed to assess the damages and benefits on the Brighton road and their report has not yet been completed.

Lewis McMullen appeared before the committee last night for Messrs. Foster and Riggs and urged that the ordinance be sent to council with an affirmative recommendation, claiming that the city has taken bodily his clients' property and they should be paid for it.

John M. Goehring argued against the ordinance. The ordinance was sent to councils with a negative recommendation. A large number of exonerations from sewer assessments were allowed.

An ordinance creating the bureau of public improvements and fixing the salary of the superintendent thereof at $1,800 and that of his assistant at $900 per year, and ordinances regulating and licensing slot machines and regulating peddlers' licenses were recommended affirmatively. The city solicitor was instructed to consult with the city recorder and the heads of the several departments of the city government relative to the cutting down of the amount of bond certain officials have to give annually, it being claimed that $5,000 is much too high a bond to be furnished by officials who handle little or none of the city's finances. The solicitor was instructed to draw an ordinance fixing the amount of each official's bond.

CAUCUS A FAILURE.

Not Enough Republican Congressmen Gather to Settle Policy on Southern Question.

WASHINGTON, D. C., Feb. 10.—The second caucus of house Republicans to consider the question of action looking to reducing the congressional representation of the southern states which abridge the suffrage, was held tonight, but a quorum was not present, and after two and a half hours of discussion, the caucus adjourned until next Monday without action.

It requires 101 Republicans to constitute a quorum of the caucus, and at no time tonight were over 95 Republicans in attendance. Speaker Henderson was present for a short time, but took no part in the proceedings and left early. His lieutenants, Messrs. Payne, Cannon and Dalzell, were present, however, and threw the weight of their influence in favor of a conservative course.

In the only test of strength made the friends of action had a majority of 20 votes. The test developed the lack of a quorum. It was on Mr. Payne's motion to refer the whole matter to the committee on census. The vote resulted in 36 ayes and 56 nays.

Lord Kitchener Reports That Last Week Brought Many Casualties.

WAGON TRAIN CAPTURED

[ASSOCIATED PRESS CABLE TO THE GAZETTE.]

LONDON, Feb. 10.—A report received today from Lord Kitchener at Pretoria shows that last week was the liveliest week, with the heaviest losses on both sides, for several months past. Lord Kitchener gives the Boer casualties a total of 69 killed, 57 surrendered and 574 taken prisoners. The British captured 480 rifles, one pompom and the usual grist of munitions and live stock.

The most serious British loss during the week was the capture of 60 donkey wagons, conveyed by 160 troops. At a point 30 miles from Beaufort West, Cape Colony, the enemy swooped down on the donkey wagons and cut up the convoy before assistance arrived. They were able to remove only 12 of the wagons and burned the rest. In this engagement, the British lost two officers and 11 men killed and 1 officer and 47 men wounded, while the Boers lost 24 killed and 47 wounded.

The Boers also rushed a detachment of 100 men of Col. Doran's column, the night of February 3 when the British lost 3 officers and 7 men killed and 17 wounded.

Von Dop surprised Potgier's laager near Wolmaransstad, Transvaal colony, February 7, killing 3 Boers and capturing 26, as well as 25 wagons and live stock.

NOISE OF CANNONADING.

Libertador Believed to Have Attacked Another Gunboat.

WILLEMSTAD, ISLAND OF CURACOA, Feb. 10.—Cannonading has been heard from early morning in the direction of the Venezuelan coast. It is believed that the Libertador has been engaged with another gunboat.

The report of the engagement between the Libertador and Gen. Crespo appears to be confirmed. It is further asserted that the Crespo sank in the roadstead of Cumarebo.

Serious Outlook in India.

LONDON, Feb. 10.—The viceroy of India, Lord Curzon of Kedleston, telegraphs that the famine outlook is very serious. No rain has fallen and the plague of rats in Gujerat, Rajpootana and Central India is assisting in the destruction of the crops. The relief works are being rapidly extended.

TAKEN TO MILWAUKEE.

John Ragginger, Who Eloped With a Woman and Four Children, Must Face Serious Charge.

John Rogginger was taken to Milwaukee last night by a detective from that city. He has been locked up here for two weeks, having been arrested at East Pittsburgh by Detectives Roach and Swinehart at the request of the Milwaukee authorities.

He is charged there with assaulting a 15-year-old child. The Milwaukee detective said Rogginger has a wife and family in Chicago, but had been living in Milwaukee, where he gained a livelihood by singing in concert halls.

When he left Milwaukee he eloped with another man's wife and she took with her four of her children. They were all found living together at East Pittsburgh by Detectives Roach and Swinehart when Rogginger was arrested; and the woman and children are there yet.

WATER AGAIN TURNED OFF.

Wilkinsburg Residents Are Helpless in Case a Fire Breaks Out.

The residents of Wilkinsburg were in a state of great indignation last night at the action of the Pennsylvania Water Company in turning off the water at 9 o'clock, leaving the town utterly helpless in case of fire, and causing great inconvenience to the public generally.

The office of the water company was closed, but it was learned from a director of the company that something was out of order at the pumping station at Wildwood and that the town would be without water for another day at least. It was rumored that the trouble was occasioned by the ice gorge at Wildwood, which interfered with the intake in the Allegheny river.

The water supply has failed so often in the past two years that the citizens declare that the matter has now reached the limit of endurance and that something must be done to preclude any possibility of a water famine in the future.

JULIA MARLOWE AS MARY TUDOR IN MAJOR'S PLAY

A Notably Clever Revival of "Rip Van Winkle" at the Grand Opera House.

MELODRAMA AT THE BIJOU

Burlesque at Empire and Excellent Bills of Vaudeville and Variety at the Duquesne and the Academy. A Night's Theatrical Enjoyment.

Alvin—Julia Marlowe.

Henry VIII	Charles Harbury
Francis D'Angouleme	Wilfrid North
Thomas Wolsey	G. F. Gibney
Duke of Buckingham	Albert Bruning
Duke De Longueville	John Lord
Charles Brandon	Bruce McRae
Sir Edwin Caskoden	George S. Christie
Master Cavendish	Frederick Burt
Sir Adam Judson	Wilfrid North
Will Sommers	Frank Reicher
Capt. Bradshawe	Algernon Tassin
Host of the Bow and String Tavern	Frederic Leslie
Servant at the Tavern	William Charles
An Adventurer	R. C. Beecroft
Queen Catherine of England	Annie M. Clarke
Mary Tudor	Julia Marlowe
Lady Jane Bolingbroke	Norah Lamison
Mistress Anne Boleyn	Frances Ring
Mistress Jane Seymour	Maud Lantry
Louise De Valois	Gwendolyn Valentine

So long as the art of Julia Marlowe is preserved to the American stage we need not fear that its highest and purest ideals will be lost. Other actresses there are endowed with equal power in all that enters into the mere technique of acting, but in no other woman on the stage in this country is there found so happy and forceful combination of gracious and womanly charms with artistic instinct and training of such intelligence and magnetism. In all that she has brought to the theater since her first great success as Parthenia there has been this dominant and appealing note of pure womanliness in her work. As Juliet, as Rosalind, as Colinette, as Barbara Fritchie, she has displayed a versatility and a genius for pure comedy or exalted emotionalism that makes her the most thoroughly lovable woman on our modern stage, that boasts as it never has before so many rare women. Her Mary Tudor has been in Pittsburgh before and does not therefore call for extended review. Holding always to the belief that Miss Marlowe belongs first and best in classic roles, it must be admitted that the role of Mary, so full of womanly caprice, so possessed of varying emotions, so tender and loving, so pure and steadfast beneath the veiled shrewdishness, the result of heredity and training, combines opportunities for her art that no one of her previous characters has possessed. A large audience at the Alvin last evening enjoyed the play so thoroughly and so fully that no review is necessary by which to enforce the popularity of the actress or the pleasure that her work always affords. It has been rightfully claimed that Miss Marlowe does not act Mary Tudor. She is Mary Tudor. The supporting company is mainly good. Bruce McRae makes a manly Brandon, that famous swordsman and gallant gentleman who came down to Henry's court and won the heart of the king's royal sister. The king of Charles Harbury is just what we would expect to see in that fine actor, careful, commanding and in one or two instances rising to real artistic dignity and effectiveness. Albert Bruning's Duke of Buckingham lacks color, but in other respects is adequate. Mr. George S. Christie hardly realizes for us the debonair Sir Edwin Caskoden, the chronicler of Mr. Major's charming romance, though his acting is intelligent. The other characters, including Miss Nora Lamison as Jane Bolingbroke, will be remembered as in the play last winter. In staging and costume the production is rich and historically correct, appealing to the eye as well as to the intellect in its completeness pictorially.

Grand—"Rip Van Winkle."

Rip Van Winkle	William Ingersoll
Deidrick von Beckman	John Waldron
Cockles	Charles Abbe
Beth	Wilton Taylor
Hendrick	Thomas Meighan
Gretchen	Alice Gale
Meenie { Helen Windsor	Marion Ballou
Mary	Anna Barclay
Hans	Joseph Wighaman
Peter	Emmett Frazier
Jacob	Walter Ware
Henry	Willis Martin

Those people who are accustomed to receiving enjoyment from a dramatic performance through the appeal that is made immediately to the eye and the emotions, will be ready to accept the Grand Stock Company's production of "Rip Van Winkle" with quite as much satisfaction as they have felt in the work of Joseph Jefferson in the same play. The scenery and stage accessories at the Grand are handsomer, newer and more in accord with the spirit of the Irving legend, while the company in a majority of instances perform their parts quite as well as the people who usually surround the "dean of the American stage." Even Mr. Ingersoll's Rip Van Winkle will appeal strongly to many people. It is fresh and exuberant. There is a certain Ingersollian abandon about the familiar old stage character that will please the uncritical, and even those who are inclined to look deeper into the performance will be disposed to congratulate Mr. Ingersoll. True, his Rip is a sadly mixed Dutchman so far as dialect goes. It is distinctly Rogers brothers in much of its variations, with here and there the gestures of a Dave Warfield in his Hebrew parodies, and to round up the admixture there is a slight flavor of negro dialect in the hard places. In one particular Mr. Ingersoll is sure of his footing and gives us Rip's famous toast with a Jeffersonian spirit that is unctuous and impressive. But we started out to view the Grand's "Rip Van Winkle" from the standpoint of the average theatergoer. This numerous and potent individual will find much to enjoy in the performance. The comedy has been touched up here and there, and while some of it is inartistic and crudely devised, it never fails to bring a laugh. Mr. Abbe's Cockles was a sample of this in the first act. Out of the acting of the two little folks, who play Hendrick and Meenie in the first half of the play, there may be much enjoyment extracted by those who admire precocious children. Alice Gale is an excellent Gretchen, if somewhat unnatural and vehement in the interview with Rip prior to his expulsion from his home. Mr. Waldron's Deidrick von Beekman is quite satisfactory, as is also the Nick Vedder of William Yerance. Miss Marion Ballou is a charming Meenie in the last act, while Wilton Taylor, Thomas Meighan and Miss Barclay fit into the cast with excellent results. Returning to Mr. Ingersoll's conception of Rip it may be said that while there is a complete absence of the subtle humor and pathos of Irving's old tippler, both in the earlier and later incidents of the play, Mr. Ingersoll infuses the role with a light, pleasant comedy that does credit to his intelligence and his capabilities as an actor. The part is one that few critical theatergoers will care to accept seriously at the hands of a man so deeply immersed in other work continuously, as is the leading man of a stock company with change of bill every week. On the whole, however, Mr. Ingersoll need not feel abashed by the crudities and limping dialect of his Rip Van Winkle. His courage has been justified in a performance that pleases because it is intelligent and new.

Queenie Carruthers	Ida Glenn

In the thrilling melodrama, "When London Sleeps," which opened a week's engagement at the Bijou yesterday, lovers of excitement are treated to more than the usual number of scenes from behind the curtain of lower city life. In the first act the audience gets a novelty in the shape of a breezy glimpse at real life in a circus in which two lovers, whose separation and final union form the plot of the play, are introduced. Ida Glenn, the queen of the slack wire, who as Queenie Carruthers, falls heir to a fortune and barely escapes with her life several times in consequence of her cousin's villainy, commands by turns the sympathy and admiration of her hearers. Her cousin, Capt. Rodney Hays, who poses as a libertine, is a villain true to life and is encored time after time with a chorus of hisses. A little flaxen-haired girl, Irene Starr, is the means of reforming her wayward mother and bringing out the pathetic features of the life of an abandoned woman. In the midst of the performance a street scene and a drinking booth are thrown in to give color to the action and the climax is reached when the villain, who has been foiled in all his plans of murder, fires the house where the heiress is sleeping and then is forced to see her escape by a daring climb to the street wires which she walks to safety. From the time the audience sees Sammy Blythe, the clown, in the ring till he leaves the stage to wed his circus companion in the last act, he proves himself a funmaker of more than ordinary ability. Another very clever part is taken by George E. Murphy, who as the Hon. Bertie Broomhead is lured into the net of evil by a jolly crowd of dissipators. His superb innocence is one of the best features of the evening's performance. The play ends with a fantastic exhibition of a burning altar where the god of the heathen sits enthroned in a blaze of weird light.

The Weberfieldian burlesque "Fiddle Dee Dee," which was taken out for a spring tour last season and scored a hit wherever it went, was produced at the Empire theater last night before an audience which packed the house to the doors. Truly as some eastern critic has said of "Fiddle Dee Dee," there should be some law passed prohibiting the production of plays which make people laugh as this conglomeration of ridiculousness does. C. William Kolb and Matt M. Dill, who play the parts taken by Gus Weber and Lou Fields in the original production, are worthy to stand in the shoes of their predecessors. Barney Bernard is almost a second Dave Warfield, so cleverly does he show the Jew of New York's East Side. The greater part of the fun making is entrusted to these men, and they take advantage of every opportunity. All of the burlesque which came so readily from Weber and Fields flows just as smoothly from their successors, and in many places little bits of by play not in the original production are put in, every one with effect. The burlesque of the "Gay Lord Quex," which De Wolf Hopper and Fay Templeton put on with such effect in the former presentation, was cut from the program last night. As it was the performance lasted until after 11 o'clock. "The Royal Family" was taken off very cleverly, John Alden and Maude Amber taking the parts played by De Wolf Hopper and Lillian Russell. There was a large chorus of fairly good looking and fairly clever girls, who sang and danced with a spirit and abandon seldom seen. Dorothy Drew, of variety stage fame, occupies rather the center of the stage during the work of the chorus. Her voice is not at all what it might be, but her figure and manner carry her through admirably. The burlesque is divided into two exhibits, and during the second of these some good specialties were introduced. The Musical Johnstons played well on xylophones, and a quartet of men sang one or two songs. The Cardownie sisters, three lithe and supple young women, gave a fine exhibition of dances, going from negro hornpipe to Irish jig, with a Highland sword dance between. The audience laughed and applauded until the final curtain rolled down, and then went home with a feeling of perfect satisfaction, and the thankfulness for their own sakes that the show had not lasted longer. For any person who can enter into the spirit of a potpourri such as "Fiddle Dee Dee," it is well worth seeing.

Duquesne—The Scribner Show.

It's the Scribner show at the Duquesne theater this week, in a return engagement, with Ezra Kendall still, of course, the principal feature of the program. A large house greeted the company last evening and the interest in most places was good enough, although one of the best of the performers, Nat M. Wills, needed to make careful inquiries of the audience as to its wakefulness before he could secure attention sufficient to grasp in time the point of his quips.

In the show as produced there is little new to Pittsburgh. It has almost all been seen, some of it time and again, but there has been allowed considerable more broadness in the way of jokes than in the earlier productions. Nor can it be said that the additions are a credit either to the wit of the makers or to the house. The Duquesne has a considerable patronage of people who appreciate bright, clear vaudeville, and would like to enjoy such without the addition of features better left out.

Those taking part in the show are the Hoovers and Clifford and Burke, dancers and singers; Clarice Vance, who is called the "Southern" singer, because she warbleth ragtime—a base libel on the south; Foy and Clarke, and Gertrude Mansfield and Caryl Wilbur in farces; Wills and Hasson in excellent acrobatic work, in addition to Ezra Kendall and Nat M. Wills, mentioned above. Kendall has a new monologue and his philosophy, as at all times, is amusing in the extreme. There is fun and interest galore in the bill as a whole and unlike most vaudeville aggregations, may play a return engagement without wearing its welcome out, barring the exceptions noted above.

Academy—The Jolly Grass Widows.

The management of the "Jolly Grass Widows" Company which is at the Academy for the week have completely remodeled the show and have introduced enough new turns into the olio to make the second appearance here this season as enjoyable as a brand new performance. A little sketch in three scenes called "On Duty," in which all the company takes part, displays pictures of real melodramatic interest not usual in the burlesque shows. The first scene, called "The Night Patrol," especially appeals to the public mind which has been keyed up more or less over exciting events in police circles lately.

The opening burlesque, "One Night and Gone," is quite elaborate and runs through three scenes and is well rendered by the comedians and a well selected chorus. The Juggling Normans are the "strengthening" feature for the Pittsburgh engagement and their feats are somewhat remarkable on account of the tender age of a couple of the performers. Morrissey and Cameron in a knockabout trapeze act give a ludicrous exhibition. All the other specialties can be indorsed and are Harvey and Moora as sport and Hebrew, Paulo and Dika, the French entertainers, and Montague and West in a musical sketch. "Are You an Eagle?" is the closing burlesque and is about the average in merit. Carrie Fulton, always a favorite here, takes prominent roles in both burlesques.

Elks as Minstrels.

Minstrelsy was never better put before the public than last night in the Avenue theater. The cast of characters was taken from the roster of Pittsburgh lodge No. 11, B. P. O. E. The songs were good and the jokes new and catchy. The Elks Comedy Five in "Booking a Vaudeville or a Manager's Troubles," was presented by Messrs. Ed. Gibson, Julius Cohn, James Dunlevy, William Marion and Thomas Quinn. C. M. Couch was director. James E. O'Donnell, exalted ruler of the lodge, was interlocutor, and his place was ably filled. The end men were the source of merriment. The hit of the evening was a song "I Hates to Get Up," by Julius Cohn. An orchestra of 15 pieces, under the direction of P. Dannhardt, furnished the music.

The Barrymore Week.

The sale of seats and boxes for the Barrymore week at the Alvin theater will begin Thursday morning. Much has been heard of Miss Barrymore in Clyde Fitch's "Captain Jinks." The reports of a lively, jolly play and a beautiful, highly gifted girl in its principal part, with a supporting company of well-known players, arouse pleasant anticipations.

Another Situation for Lyman J. Gage

NEW YORK, Feb. 10.—It was reported with authority in financial circles here today that the presidency of the United States Trust Company of this city had been offered to Lyman J. Gage, former secretary of the treasury, and that he would accept.

Lincoln Memorial Services—Duquesne Post 259, G. A. R., will hold memorial services tonight in Veteran Legion hall in honor of Lincoln. The principal feature will be a sketch of the martyred president's life and character by H. H. Bengough.

Shoulder Blade Broken—James Fusce, a hodcarrier, employed at furnace D of the Edgar Thomson steel works, Braddock, had a brick fall 70 feet on his shoulder yesterday. His shoulder blade was broken and the side of his head cut. He was taken to Mercy hospital.

Had a Contagious Disease—Mary Thompson, a negro girl 20 years of age, went to No. 3 police station for aid, as she was sick. She was taken to the West Penn hospital where she was refused as a patient, as it was said she had scarlet fever. She was then taken to Mercy hospital.

Fire Started by Tramps—Fire in a new building at Water and Smithfield street yesterday morning caused damage amounting to about $200. It was extinguished by No. 2 Engine Company. It was said the fire was started by tramps who were sleeping in the building and had built a fire on the floor.

Charged With Larceny—Bruce Ross worked three days for the Adams Express Company in Homestead last September, and when he quit $106 was missed. Yesterday Ross was arrested. G. L. Eagye, agent for the company, preferred a charge of larceny against him before Burgess J. C. Miller. He pleaded guilty and was held for court.

Struck by a Sled—Frederick Hill, aged 11 years, was struck by a bob-sled in Lincoln avenue last night and had his left leg broken. The boy was crossing the street, which was alive with coasters when the accident occurred. He was taken to No. 27 engine house and later sent to his home, No. 74 Orphan street, in No. 6 patrol wagon.

Was Held for Court—Mrs. Mary Stubs of Allegheny was given a hearing before Magistrate David McKelvey on charges of larceny preferred by A. Bion Boggs and Samuel Barker, representing Boggs & Buhl and Horne-Stewart Co., yesterday. She pleaded guilty to the charges and was held for court in default of $500 bail.

Small Damage by Fire—An alarm was sent in from box 627 at 9 o'clock last night for a fire in a double house at 209 and 211 Carver street, East End, occupied by Mrs. James Kent and James Wiggins. The fire started in Mrs. Kent's side of the house, in the partition. How it originated is not known. The loss was about $300.

Celluloid Comb Victim—Mrs. Ray B. Ross of No. 217 Fourth avenue, Homestead, is a victim of a celluloid comb. Yesterday afternoon she had one in her hair. Stooping down before the fire it burst into flames. In pulling it from her hair her hands were badly burned and her clothing caught fire. Last night she was in a critical condition.

Smallpox in Braddock—Bertha A. Evans, daughter of T. J. Evans, of No. 304 Camp avenue, Braddock, was discovered yesterday to have smallpox. She has been ill for two weeks, and the attending physician did not report the case to the health authorities. The family has been going and coming at will. Guards were placed about the house last night.

Tried to Shoot His Brother—During a dispute Thomas Bennett made an unsuccessful attempt to shoot his brother Jack in the saloon of Michael Posluszry, 2000 Penn avenue, last evening at 8 o'clock. The brother was seated in the rear room. Jack seized his brother's wrist and the two revolver bullets lodged in the ceiling. Both brothers were locked up at No. 3 police station.

Both Legs Cut Off—Edward Kratt, aged 27 years and single, of Republic street, Allentown, had both legs cut off above the knees and his left arm broken about 8:30 o'clock last night by being run over by a street car on the McKees Rocks division of the Pittsburgh Railways Company. He was removed to the West End car barns on a street car and from there taken to the Homeopathic hospital in an ambulance. He cannot recover.

Jailed on Assault Charge—Thomas F. McVilla, of 1212 Bigham street, was arrested last night and locked up in the Twenty-eighth ward police station on a charge of assault and battery with intent to commit robbery. August Dietrich is the prosecutor. He alleges that on Saturday night McVilla and two companions assaulted him in South Thirteenth street and tried to rifle his pockets. McVilla's companions have not been arrested.

Killed by a Street Car—Mrs. Annie W. Donaldson, 50 years of age, of No. 1425 Western avenue, Allegheny, was killed yesterday morning by a street car on Rebecca street. She leaves a husband and two children. The woman had left her home but a few minutes before. She signaled the car when she was on the wrong side of the street, and instead of going behind the car to get upon it, ran in front and was knocked down.

Officers Were Elected—At the annual meeting of the board of directors of the Allegheny General hospital, held yesterday, the following officers were elected: President, the Rev. Dr. B. F. Woodburn; vice president, D. E. Park; secretary, J. S. Gibson; treasurer, J. N. Davidson; Miss Alice E. Pierson was re-elected superintendent and Charles M. Fischer clerk. The board will hold a meeting Friday, February 21, to consider plans and specifications for the new hospital buildings.

Convention Opens Today—Many of the delegates to the 18th annual convention of the National Association Master House Painters and Decorators arrived here yesterday and took up headquarters at the Monongahela house and the Hotel Henry. Upward of 250 delegates are expected to be present. The convention will open this morning at Turner hall, 1017 Forbes street, President Alexander Grant of Providence, R. I., calling the meeting to order.

Here are Carpets and Rugs, and Draperies of every wantable kind and shade at very modest prices. Wilton and Brussels Carpets made up into rugs—many of them copies of rare and expensive rug designs—

Domestic and Oriental Rugs—some very fine ones—and hundreds of the lesser priced ones but all especially appropriate for office floor coverings.

Then there are the Linoleums in a great number of patterns and grades, and the biggest line of window shades ever shown in Pittsburgh—

FOURTEEN PAGES.

The Stone-Flinn Ticket.

Senator Quay may be a sick man, but readers of The Gazette will have observed that he retains in a noteworthy degree his happy faculty of expressing a great deal in a few words. When he spoke of the ticket put forward by the city administration of Pittsburgh as the Stone-Flinn ticket he expressed a wealth of condemnation that could not have been more strongly put had he sat up nights to think it out. The Flinn administration is in control of Pittsburgh by the grace of the governor, who is afraid to pay his own home a visit, and the will of the governor is being carried out. It is being carried out, it has often been declared, as the result of a deal "for mutual, political and business advantage" at the expense of the people. It is a Stone-Flinn combination and the Stone-Flinn ticket is designed to keep it in control, with Flinn as the active, though junior partner. The hyphenating of the names tells the whole story. It makes startlingly clear the bargain and sale of the second city of the commonwealth in a secret conference. It tells the people how their liberties were traded away by the man in the executive mansion in Harrisburg. It tells them how a reform charter was perverted to the uses of the power it was designed to overthrow for the benefit of the perverter. The people sought an honest government and appealed to the legislature to help them to get it. The legislature voted them the help and then, in defiance of the people and the legislature, came the Stone-Flinn deal. The people wanted relief from the oppressive burden of taxation; instead they got the Stone-Flinn deal and the Stone-Flinn ticket. They wanted pure water; instead, they get the Stone-Flinn ticket. They wanted a sufficient supply of water to fight fires; instead, they get the Stone-Flinn ticket and an increase in their insurance assessments of $890,000 a year. They wanted the Highland reservoir completed according to contract; instead, they get the Stone-Flinn ticket and what goes with it. They asked economy instead of reckless extravagance in municipal expenditures; instead, they are given the Stone-Flinn ticket. They ask a system of municipal financiering that will not tax them for the payment of bonds, the proceeds of which are permitted to lie in the banks, but not for the use of the city; instead, they are offered the Stone-Flinn ticket and more bonds. They want public improvements at a fair cost, and are offered instead, the Stone-Flinn ticket, "for mutual, political and business advantage." In all this bartering of the liberties of the people the chief beneficiaries are Stone and Flinn, and Flinn benefits so long as he does his partner's will. It is a STONE-Flinn deal and a STONE-Flinn ticket as the result of the deal. That is the secret of the popular indignation. There was resentment against Flinn before, but it is greater against Flinn and his master-partner, whose authority over Pittsburgh it is designed to strengthen and continue during his term in the executive chair at Harrisburg. Senator Quay seems to have read the popular mind and to have sized up the situation, and his short phrase tells the whole story.

Street Cars and Politics.

The Philadelphia Company's poor street car service is losing its friends in the city administration many votes. The people of the Lincoln avenue district have been sufferers for a long time from a refusal of the city organization to provide the district with a safe bridge, and as if this were not enough the traction management adds to the popular woe by studying to make the car service as bad as possible. Something of what the people suffer is told this morning in our news columns, but it is only proper to say that the people of the Twenty-first ward are not alone in having reason to complain. The service all over the city is so bad that it could not well be worse. It was bad before the Philadelphia Company took charge of all the lines, and there has been no sign since then of improvement at any point. Indeed, there is no reason why any material improvement should be looked for, for it must be remembered that the car service has not passed into new hands, but has been concentrated in the hands of some of the men who have for years been responsible for running the street cars wrong. The only hope of the people for betterment is in the election of councilmen who will consider the interests of the people first and compel the street car magnates to give a proper return for the revenues derived from operation of the lines. The people will have their first opportunity to impress themselves on the minds of the managers of the public service corporations embraced in the Philadelphia Company one week from today and there is every indication that they intend to take advantage of it. They have the satisfaction of knowing that a change cannot put them in any worse position, and are convinced that any change they may make must be for the better. The great achievement under the Philadelphia Company's rule has been to have the cars stop on the near side of the street instead of the far side, but the gain from this is simply in the doing of the thing another way. If it has helped matters it hasn't been noticeable to the traveling public.

Illness of the President's Son.

So treacherous is the disease from which young Theodore Roosevelt is suffering that no surprise was felt when it was announced that the president would forego his visit to the Charleston exposition and go to Groton instead to be near the bedside of his child during the time of crisis, which it is thought will be reached within the next 24 hours. The entire nation will turn in sympathy to the sick room in the little Massachusetts town where the president and his wife watch by the bedside of the youthful sufferer, and will hope that the issue may be the return to health and strength of the boy, who, according to all accounts, is now grievously ill.

Much discussion has been aroused by the fact that the school in which young Roosevelt was a student when stricken has been closed because of the presence of several cases of pneumonia, it not being hitherto believed that pneumonia was in any sense an infectious disease. According to Dr. Shrady, a well-known New York specialist, the disease is communicable, but only "in a mild degree," while other physicians declare it to be infectious but not contagious. In view of these opinions and the very general and widespread presence of pneumonia at this season of the year it will be wise for everybody to exercise more care in its presence. Of all our "cold weather" diseases it is the most common, as it is the most treacherous and persistent.

The Noonday Meetings.

The daily course of lectures on municipal politics is well attended. It is a hopeful sign when voters in considerable numbers are willing to take half an hour out of a busy day to listen to addresses on the local political situation. It manifests a thorough awakening to the gravity of municipal conditions.

It has been a long time since the citizens of Pittsburgh have been so deeply stirred with the conviction that they must look personally into the city's affairs, that they must make the city's business their own business, as it is, by insisting that it be conducted on business principles. They are utterly weary of the idea that has long prevailed in official circles that a public office is a private snap; that the people exist for the officeholders, and not the officeholders for the people. They realize that it is a condition and not a theory that confronts them, and that the condition is a bad one and cries aloud for reformation. These noonday meetings are aiding in the crystallization of opinion.

Great Fire Waste.

The great fire waste in the United States is distinctly discreditable. Americans pride themselves on their progressiveness and their enterprise, and yet they have so far proved themselves incapable of preventing a fire waste which is appalling in its magnitude. The value of property which is destroyed by fire in this country is much greater, proportionately, than in any other country in the world. And this is true in spite of the fact that the most effective appliances for fighting fire are in use in the United States, and in spite of the additional fact that American firemen are the most alert and skillful in the world.

Carelessness of one sort and another is the cause of many fires. Americans are prone to throw down a lighted match or a burning cigar or cigarette, without making sure that no combustible material is near. They are not sufficiently careful with their stoves and furnaces and flues. Most fires are preventable, and it is far easier to prevent a fire than to extinguish one. The list of destructive fires in the last few days has been unusually large, even for the United States. Modern progress ought to find some way of reducing the vast fire loss in this country, which wipes off the face of the earth every year so many millions of dollars' worth of property—a loss which is absolute, for even if the owner be insured, the insurance companies lose.

Conner's Mistake.

Puffed up with a little brief authority, flushed with the measure of success achieved in disfranchising the people and flattered with the unwonted space he has been occupying in the daily papers, Samuel Conner, county delinquent tax collector, has swelled out in a manner that must cause his tailor to beam with hope and talks threateningly of going into court. The delinquent one should not threaten. He may get into court sooner than he thinks. Mr. Conner's course of double dealing has won him no friends. Those he serves are notoriously ungrateful. What he has done for them does not anchor him in their favor or assure his future even should they succeed. Their course since Gov. Stone clothed them with power shows that it is the present and future they consider and not the past. What a man may have done for them or for the public gives him no prior place in their esteem. Present service to them is held not to give claim for future preferment but to be in payment for past favors. Mr. Conner is, therefore, left in a bad way. Without claim on those he is serving, he has forfeited all claim to public favor and it needs but the pricking of a legal pin to take all the wind out of him. He cannot, if he finds himself in a hole, look to the men who have been pushing him onward in his program of fooling the people. They will leave him in his hole to make use of some one else who has been smart enough to keep above ground. It is their own safety that concerns them, and not the safety of Conner and others like him. The county delinquent tax collector has made a great mistake. When he made a promise he should have kept it. His broken pledges will return to plague him. He may indulge in bravado now to keep up his courage, but it deceives no one. He has dug a pit and fallen into it.

The story that L. A. Watres had retired from the contest for the Republican nomination for governor turns out to have been manufactured. Mr. Watres announces this morning through The Gazette that he is in the field until the state convention makes its choice. But even if he had not made the announcement for himself, there is evidence from the northwestern part of the state of his continued activity. Mr. Watres is seeking the support of Republicans throughout Pennsylvania, and apparently has no intention of getting out of the race. He is a good Republican and a self-made man, and a very successful one. So is Mr. Sibley, though a recent convert to Republicanism, who declines to be an active candidate, but who would accept the nomination should it come to him with some degree of unanimity. There are many other self-made men in the Republican party who would honor the governorship and be a help instead of a handicap in the elections for congressmen, members of the legislature and county offices. There should be a number of them in the field actively competing for party honors. It would be a sign of healthy, vigorous party life.

The case of the young colored woman, suffering from scarlet fever, who rode about the streets in a patrol wagon for two hours in quest of a place of refuge, is another illustration of the necessity for a hospital where contagious diseases may be treated. In this case the delay and exposure may prove fatal to the sufferer. The hospital authorities can hardly be blamed, however, for they are in duty bound to protect the patients under their care from the dangers of contagion, and in their exercise of precaution they cannot justly be charged with inhumanity. The remedy for this state of affairs rests with the city.

The attempt to place responsibility for the prolongation of the Boer war upon the shoulders of the Missouri mule is base unkindness to a thoroughly patriotic and American institution.

There are some indications that the worst cold wave of the season will strike a section of Pittsburgh's political machinery next Tuesday.

You can never depend on Chicago's taste. Grand opera was rejected offhand, but the city has taken to ping-pong with a hurrah.

Compilers of "who is who" literature in the United States are working overtime in contemplation of the visit of Prince Henry.

Prince Henry should get some authoritative pledge from New York that her subways shall be held down while he is in that town.

The George Washington hatchet story has already begun its annual February tour in the principal cities and towns of the country.

From the present persistency of winter we judge that she is preparing to do a lot of lingering in the lap of spring.

When the Commoner breaks loose on the coronation there is going to be trouble for everybody concerned.

WEARY GRIND OF PROFESSIONAL PEDESTRIANS

THE PITTSBURGH GAZETTE BUREAU,
Herald Building, Herald Square.
NEW YORK, Feb. 11.

Getting back to old times, Madison square garden has its six-day go-as-you-please walking race this week. There was not much difference in the scenes at midnight, when the "peds" started, from those in Pittsburgh, at the big wooden building in Penn avenue, near Sixth street, a dozen years ago, where six-day races were common. The same desperate attempt to work up interest and excitement was to be observed at Madison square this morning that we used to see in the Pittsburgh place. The contestants were not any more attractive personally today than they used to be in the old days. The same skinny type of limbs, drawn faces and leathery complexions distinguished them all. A long-distance walker, in his professional costume, is not a pleasant thing to look at. There is one marked difference between this race and that is that men race in "teams." The law will not allow one man to keep continuously on the track for a week, whether he be a walker or a bicycle rider, and there are always two men representing each entry. Whether this relieves the men much may well be doubted, for at the end of the week they are usually as fatigued in appearance as if they had raced alone. It was Edward Payson Weston, whose wonderful walks were the talk of the world a quarter of a century ago, who fired the pistol which started the racers today, and the old man said he wished he had the strength to take part in the contest this week. Gilbert Barnes of Pittsburgh is one of the racers, and Allegheny city has a team in the contest, Lon Taylor and Charles Trainer. The team that won the last big race in Pittsburgh, M. Fahey and G. Motkus, is in this one. There were a good many spectators in the garden in the course of the day, and tonight, with music and brilliant electric illumination to make the scene cheerful, there is an assemblage of respectable size, every individual cheering on his favorite on the track. So far as can be judged by the attendance today the six-day go-as-you-please will be a monetary success. A lot of people like such exhibitions well enough to pay to enjoy them, it seems. Five teams dropped out by noon.

Concentration of Paterson's Fire.

One of the peculiarities of the big Paterson fire yesterday was its concentration. I went to the city within a mile of the burning district in the afternoon and there was nothing to show that a tremendous fire was anywhere within a hundred miles. The sky was clear, there was no smoke apparent, and if the fire engines were pumping—as they were, a score of them—not a sound of them reached me. And I was in Market street, the other end of which was all ablaze. But this thoroughfare, like all others leading to the scene of the fire, was fairly black with people walking toward it. They had to walk, for all the car lines were tied up.

Kubelik's Handsome Rival.

Florizel, the boy violin virtuoso, is running a close second to Jan Kubelik as a musical sensation in New York. The boy has appeared at two recitals in this city, and now Maj. Pond has announced five consecutive recitals in the Astor gallery at the Waldorf-Astoria next week, beginning Monday and continuing every day until and including Friday. The entertainments will be in the forenoons. Florizel is an ethereal looking youth and is decidedly handsomer than Kubelik. As to the playing of the two, comparison must be made by those who hear them play. It is not my business here to give an expert opinion.

Rudolph Aronson's Plaint.

Perhaps if Kubelik had never come over to America we should have never heard Florizel. Rudolph Aronson is interested in the tour of Florizel and he says he should be also a sharer in the profits from the performances of Kubelik. Aronson and Daniel Frohman were associated in the project to import Kubelik, but Mr. Frohman says that Aronson drew out before the contract of the virtuoso was made. Mr. Aronson says he is still concerned in the tour of Kubelik, and, to prove his statement, has a suit pending against Daniel Frohman. Whether Aronson brought Florizel to prove that Kubelik was not the only boy violinist of remarkable talent in the world may be conjectured, but neither Maj. Pond nor Rudolph Aronson cares to discuss the subject.

Bad Day for Patrick.

In the Patrick murder trial some days are good for the accused and others are decidedly bad. This was one of his bad days. John R. Potts, who used to be his close friend, swore damaging testimony against the accused in connection with blank checks, and an undertaker said that there was no mercury in the embalming fluid used in the body of the dead millionaire, Rice. Potts' testimony indicated that Patrick has not told a straight story about the big checks which he says Rice gave him, and the undertaker leaves the inference that Rice may have been put out of the world with mercurial poison. Patrick looked much worried when these two bits of testimony came out. But then, tomorrow may be a good day for him.

Rights of an Obstinate Juror.

Whether one juror has the right to maintain his own opinion in opposition to the united belief of the 11 other jurors with him in a case is the interesting question that Supreme Justice Steckler will consider at a special investigation on Friday. The case was that of Filiberto Marchetti, a well-known ballet master, who sued the Metropolitan Street Railway Company for $20,000 damages on account of his falling from one of the cars of the company and permanently injuring his ankle. Eleven of the jurors agreed that he should be paid from $3,000 to $15,000, but the twelfth man, a banker, said that $500 would be enough. The 11 jurors were indignant with the twelfth, and reported him to the court. The obstinate man smiles as he says he was only doing his duty as a juror, and cheerfully invites the justice to go on with his investigation.

Bicycling Not So Popular.

If anyone has doubted that bicycling has been losing its grip in the last few years the statement today by a representative of the American Bicycle Company that the best products this year are for a demand of not more than 500,000 high grade wheels, as against an average annual demand a few years ago of 800,000, will convince him. It was rumored in Wall street today that the company will gradually evolve into an automobile concern almost exclusively. There is no money in bicycles, according to manufacturers here. The 500,000 high grade bicycles that may be sold this year will go at about half the price commanded by the 800,000 when the wheel fad was at its height.

Giants Sign Roaring Bill.

The baseball incident of the day was the signing of "Roaring Bill" Kennedy to pitch for the Giants this summer. Kennedy has been one of the most famous pitchers in the Brooklyn club for several years past, and as he was not reserved by the Brooklyn management he was able to sign with the New Yorks as soon as a satisfactory offer was made. The Giants needed an extra pitcher, judging by their work of last season, and "Roaring Bill" doubtless will prove an acquisition.

Liners Sheathed in Ice.

Several big liners steamed slowly up the bay this morning. They had arrived after a tempestuous and cold trip across the Atlantic. Each ship was sheathed in ice from end to end and from masthead to water line. Her smokestacks were coated with salt, and in every respect she looked as if she had been buffeted in the Arctic for a week. The Cymric of the White Star line, which had been anchored outside the Hook all night, was the first to come in this morning. She was a beautiful sight, as her armor plate of ice glistened in the sun. Then came the Cunarder Lucania, after a wild time of it off the banks of Newfoundland and heavy winds all the way from Liverpool. The Philadelphia of the American line and the North German Lloyd steamer Breslau were other arrivals. The captains of all of them declared they had never experienced such stormy weather before in their whole careers.

Revival of "Mistress Nell."

Henrietta Crosman revived "Mistress Nell" at the Theater Republic tonight, and the enthusiasm with which it was received by an immense audience should convince her that this is the play in which her admirers want to see her. She says she will put on "As You Like It" when it is ready. But she need not hurry. New York likes her as the harum-scarum, good-natured, tender-hearted Nell, and they can wait even to see as fine a performance as her Rosalind.

Frank Daniels at the Casino.

Frank Daniels was welcomed with uproarious demonstrations at the Casino tonight. This is his first appearance in New York in many months, and it was like coming home to him. He is playing in one of Barnet's musical comedies, "Miss Simplicity," which was originally done by the Boston cadets. It suits Daniels' requirements and gives him opportunities to bring out a laugh every 30 seconds, which is his principal object on the stage. He has a good company, good music, and a good comedy, as such things go, and everyone in the Casino tonight seemed satisfied. William Collier reappeared tonight at the Madison Square theater in his last year's success by Augustus Thomas, "On the Quiet."

Performance by Dramatic Students.

There will be an interesting performance by members of the American Academy of Dramatic Arts and the Empire Dramatic School at the Empire theater on Thursday afternoon. There will be two one-act plays by American authors and a three-act comedy by Henry James that has never been performed on any stage. The titles of these plays are "The New Year," a modern drama in one act by Louisa Meigs Green; "A Gentleman of the Road," a one-act play of the same period and story as the successful play, "If I Were King," recently produced by E. H. Sothern, and "Mrs. Jasper," a comedy of social life by Henry James.

A District Attorney's Trials.

Jerome, the district attorney, had a wildly hysterical woman after him today. She believed that some one was trying to poison her, and she wanted to see the district attorney. Mr. Jerome was wise enough to keep her out of his office. He has to deal with cranks now and then, and has a wholesome terror of them. He does not complain much about his work, but some of his friends say that he finds the district attorney's duties a harder job than being a judge, and will not be sorry when his two years of hard labor are up.

Irish Patriots Arrive.

William K. Redmond, the Irish patriot, is in New York again. He arrived on the Cymric this morning. He is accompanied by Joseph Devlin, who, like himself, is a leader in the United Irish league, and the two will make a tour of the principal cities of the United States in the hope of increasing the membership of the league. Redmond was interviewed on what he thought of Lord Salisbury's recent observation that "England is not afraid of the Boers, but must keep a close watch on the Irish." On this he said: "Lord Salisbury knows what he is talking about. The Irish movement was never as threatening as it is now, and the British public is beginning to realize that there is something in it. No matter what gag rule they introduce in parliament, we will still keep on talking and making our grievances heard. If they reduce our membership by 20, which there is some talk of doing, the 60 members that are left will make as much noise as the 80 do now. When the Irish finally unite to assert their independence it will be with a force of arms such as no country has ever seen before."

A Jolt for Philadelphia.

James Richmond Glenroy says the reason Mr. Carnegie has not presented a library to Philadelphia is because the people there do not stay awake long enough to read a book.

Correspondents' Club Dines.

The Correspondents' club of New York, which is composed of New York telegraph correspondents of important daily papers in all parts of the United States, including Pittsburgh, held its annual dinner this evening. It took place in a quaint restaurant in Houston street, known to Bohemia and the "smart set" as "Little Hungary." The dining room is in the wine cellar where the fumes of rich liquors in ancient casks make a pleasantly convivial atmosphere, and give a zest to the unknown viands that are served up so appetizingly direct from the chef, who can be seen bobbing about in his kitchen in the distance. The Correspondents' club has a way of digging up these queer places for its annual dinners, and invitations to the function, which are issued sparingly to a few distinguished personages outside of the profession, are always eagerly accepted. Some of the most important men in the city have dined with the Correspondents' club from year to year.

What the Editors Are Discussing

PICKED UP HERE AND THERE.

Some Sunday schools in town have actually grown since the Christmas holidays. That is a good record.—Elizabeth Herald.

The weather department has a snap. It is easy enough to predict snow each day.—Oil City Blizzard.

A religious expert declares that sin is growing less as time passes. If this is true our ancestors must have been a tough lot of sinners.—Bradford Era.

By a notice in our local columns, readers will see that strawberries have been placed on the market by an enterprising Franklin firm. As they retail at 75 cents a quart, it is not thought that the churches will indulge in any strawberry festivals for a time at least.—Franklin News.

The Dutch club in Water street are making great preparations for the reception of Prince Henry. They have chartered the "Nellie Hudson" to meet his royal yacht as soon as it appears down in the bend. The singing element of the club are now rehearsing new music for the occasion, the selection including: "The Watch on the Buffalo Creek," "Sauer Krout Ish Bully," "O Doo Leeber Augustine," etc. Minute guns will be fired and the stars and stripes and the tricolors will be hoisted to the breeze as soon as his royal highness' yacht drops "anchor."—Freeport Herald.

Some remarks have been made recently relative to the groundhog not wholly friendly to that prophetic animal. Which shows that while we may do our best we are likely to have the worst thought of us. For more than half a century the Hagerstown Almanac has been condemned by the thoughtless for its occasionally erratic weather predictions, yet that venerable publication appears with annual regularity, notwithstanding, and it abates nothing in its promises as to fair weather, variableness, etc. Recalling which the groundhog may go on prognosticating, careless of the jeers and slurs of the ignorant and blind and deaf to the sneers of the jealous and untutored.—Harrisburg Patriot.

The other day a lady entered the street car office at Moxham and asked if a grip had been found on one of the cars, giving the name of the conductor on whose car the grip was left. The automatons, who decorate the front office and count nickels, gave no evidence that such a thing as courtesy was known to their shallow pates. She again asked the question, when one of the ten-a-week beauties turned and rested his vacant stare upon her. She then asked him if he knew the conductor, and he glibly answered that he was not intimately acquainted with him, which caused the other nickel counters to snicker at the wit of their fellow. After a vain attempt to get some information as to when the car would be in the barn she departed and the rattle of the nickels continued. Verily this was a case which demanded a stuffed club and a strong muscle.—Windber Era.

THE STATE PRESS.

The Republican friends of B. H. Osborne, of this city, present his name as a candidate for assembly. He is a lawyer of fine ability and popular with all classes.—Franklin News.

There will be no need of stealing the ballot boxes this year to ascertain how electors shall have voted, as the ballots will not be numbered, and will therefore be absolutely secret.—Waynesburg Messenger.

Coal region people will be glad to learn that greater prominence is to be given the department of mines and minerals at the St. Louis exposition than at any previous exposition. The palace of mines and metallurgy will be larger and more elaborate in its arrangements than any similar structure ever devoted to this subject.—Pittston Gazette.

It is evidently not the purpose of the Union party to present either state, city or county tickets of its own, but to select the best of the candidates presented by the old parties. This program is stronger than any other, for if there is to be a balance of power anywhere the Union party may in this way reach it. The plain pathway for the great parties is to make good nominations, then the red lantern of the Union party will go out.—Delaware County American.

Crawford county presents Dr. T. L. Flood, one of her most gifted and distinguished citizens, as a suitable candidate for second place on the state ticket this year. Dr. Flood was a candidate for congressman-at-large two years ago, but the honor, which properly belonged to the northwest and ought to have gone to him, went finally to another. His graceful acceptance of defeat on that occasion will be remembered to his credit at this time.—Titusville Herald.

Just now there seems to be activity in the race for congressman from the new Twenty-third district, which by the new apportionment consists of Fayette, Somerset and Greene counties. The vote of Somerset is about 3,000 Republican majority, which would overcome Greene and Fayette should the latter even fall into the hands of the Democrats, which is by no means conceded. A nomination therefore is equivalent to an election. So far W. E. Crow and A. F. Cooper are the only avowed candidates, but R. F. Hopwood is thinking seriously of the position, and like many another man has ambition to fill the place.—Washington Observer.

Beset by the cares of the senatorship and weighted with the responsibilities as the leader of his party in his state, and on the eve of a trip to Florida made necessary by the state of his health, Senator Quay kept in mind his promise to New Castle and succeeded in having her public building bill passed by the senate in advance of all similar bills introduced. The bill now goes to the house of representatives and there Representative Showalter has a promise from the committee that New Castle's claim shall take precedence of all other Pennsylvania cities.—New Castle Herald.

CELIBATES BACK DOWN.

Ohio Legislators Who Organized the Club Frightened Into Offering to Change Its Name.

COLUMBUS, O., Feb. 10.—(Special.)—The unmarried members of the house of representatives of Ohio, who organized the Ancient Order of Celibates the other day, have [illegible] the wrath of a score of indignant [illegible] women upon their heads. Today Mr. Meisle of Cleveland, originator of the club, received nearly a score of very caustic letters from as many women, in which the sentiment was expressed that a man who has not enough [illegible] with a helpmate, does not know enough to legislate for the commonwealth of Ohio. Some of the letters were [illegible], and the members of the club will make an effort to [illegible] the matter [illegible] in person.

The club has replied through an open letter to the press, explaining that its primary object is to encourage matrimony, and that [illegible] will only undertake [illegible] not only [illegible] of the [illegible] who have [illegible] adverse comment.

HANNA FORCES IN CONTROL.

They Are Once More in Complete Command of the Political Situation in Ohio.

COLUMBUS, O., Feb. 10.—(Special.)—At a caucus of the Republicans of the house tonight the Hanna forces regained all that they had lost at a previous caucus and are now once more in complete command of the situation. Last week a combination of the Foraker and Daugherty forces outvoted the Hanna men and provided for a steering committee to [illegible] legislation. The appointment of this committee was left in the hands of the chairman, a Daugherty man.

Tonight the action of the caucus was [illegible] and the Hanna [illegible] any action on the bills introduced by the Johnson [illegible] have been [illegible].

[illegible] introduced [illegible] Hardin [illegible] commission [illegible] situation [illegible] consist of [illegible] the governor [illegible] for expenses [illegible] to name [illegible] sanitarium.

Two Gifts to Hebrew School.

NEW YORK, Feb. 10.—Adolph Lewisohn today gave $75,000 to the Hebrew Technical School for girls, toward a [illegible]. The [illegible] added $5,000 [illegible]. The school is for the education of poor East side girls.

THE DEATH ROLL.

Maj. W. B. Coleman.

ERIE, PA., Feb. 10.—(Special.)—Maj. W. B. Coleman, proprietor of the Reed house, is dead after an illness of several months. He was in his 74th year and had been connected with the Reed house since 1865. He was a native of New York, and his hotel experience had extended over more than 40 years. He was associated at one time in the management of the Astor house in New York city, and numbered among his friends many of the prominent men of the ante-bellum days, including Daniel Webster, Henry Clay and Rufus Choate. He served as paymaster in the United States navy during the rebellion. He leaves a wife and four sons, one of whom, Charles E. Coleman, was associated with him in the management of the Reed house.

Haymond Griggs.

MORGANTOWN, W. VA., Feb. 10.—(Special.)—"Uncle" Haymond Griggs, one of the most respected and best-known farmers in the county, died suddenly yesterday evening at his home in Clinton district. He had been in excellent spirits all day, and was reading by his fireside when suddenly he called his wife to him, saying to her that he was going blind. In a moment's time he had expired. He is survived by a widow and five children. He was 76 years of age. He will long be remembered as the man who at the beginning of each tax year was the first man in the county to pay his taxes. He maintained this record for 40 years.

The Rev. Nils Eagles.

NEW YORK, Feb. 10.—The Rev. Nils Eagles, pastor of the Emmanuel Swedish M. E. church, Brooklyn, died at the parsonage this afternoon from smallpox. Mr. Eagles was born in Sweden 42 years ago, and was educated at the Swedish seminary in Evanston, Ill. He had been with the Emmanuel church but two years, coming from the Thomas Street Swedish church at Worcester, Mass. Prior to this he was for some time pastor of the Swedish M. E. church at Jamestown, N. Y. He leaves a widow and four children.

Mrs. Eleanor Regal.

WARREN, O., Feb. 10.—(Special.)—Word was received today by relatives of the death of Mrs. Eleanor Regal of Crawford county, Pa., aged 92 years. Mrs. Regal had lived to see four generations of posterity. She was the mother of Mrs. Elizabeth Kelley of McKean county, Pa., grandmother of Mrs. S. W. Loomis of Sharon, Pa.; great-grandmother of J. E. Loomis of Warren, and great-great-grandmother of Mabel Estella Loomis, aged 10 months, of Warren.

Thomas S. Reese.

NILES, O., Feb. 10.—(Special.)—Thomas S. Reese, vice president of the tin-plate workers of this district, died last night. The deceased was taken ill with typhoid fever four weeks ago. Mr. Reese was employed at the local tin works and took great interest in labor matters. He has a brother, Thomas, who is a missionary in China, another brother, James, who is a minister in England. He leaves a wife and two small children.

Miss Grace Atkinson.

Miss Grace Atkinson, aged 82 years, is dead at the home [illegible] her niece, Mrs. C. A. Cool, No. 1518 Webster avenue. She was born in the Atkinson homestead, in the Fourth street road, Squirrel Hill, and was the last of a family of 15 children. She was a member of the Tabernacle Presbyterian church.

Dr. R. P. Flower.

ERIE, PA., Feb. 10.—The death of Dr. R. P. Flower occurred this forenoon at his home in Albion, this county. He was in his 74th year, and had been a practicing physician in Albion for half a century. He was widely known throughout this section of the state.

The Rev. Robert T. Miller.

FORD CITY, PA., Feb. 10.—(Special.)—The Rev. Robert Thompson Miller of the Pittsburgh conference of the Methodist Episcopal church, died here today of paralysis.

Linemen Killed by a Train.

CAMDEN, N. J., Feb. 10.—Thomas Hennesy and Charles Dodson, telegraph linemen, were struck by a Pennsylvania railroad train here tonight and both instantly killed. They were walking on the track. Both resided in Paterson, N. J.

THE MAN UP A TREE

From a High Viewpoint.

It is not proper to celebrate the beginning of Lent by borrowing money.

The hens must expect us to observe an eggless Lent.

At some boarding houses there is a hash Wednesday every week.

London papers considerately refuse to regard our politeness to Prince Henry as ground for a declaration of war against the United States.

Admiral Sampson is never ill enough to prevent his lawyers from trying to take charge of the Schley case.

It may be that pingpongers will become so devoted to the game as to refuse to go back to golf when gentle spring arrives.

The man who talks of importing monkeys to pick cotton has not yet picked his monkeys.

There's a good idea concealed in the suggestion of that Brooklyn doctor who offered himself for vivisection. Let no more vivisection be done without the consent of the vivisectionee.

Maclay has decided not to lecture. Persons who have been accumulating ancient eggs may as well dispose of the collection in some other way.

The woman who has a man arrested for kissing her must at least acknowledge that he is a person of good taste.

The Lower Rate.

"I see," said the traveler from Chicago, "that Representative Blakeney of Maryland has introduced into congress a bill fixing the price of lower sleeping car berths on interstate railway lines at $1.25 and upper berths at $1."

"Good for Blakeney!" replied the traveler from Pittsburgh.

"I've always thought," the Chicago man went on, "that it was unjust to charge as much for a gallery berth as for a berth on the ground floor. There ought to be lower rates for upper berths."

"There are now," said the Pittsburgh man.

"How?"

"The companies have lower rates for upper berths now."

"Well, I never heard of them. You have the lower berth and I have the upper in this section, and we paid precisely the same for each. Isn't that true?"

"It is, and it is just what I was telling you."

"Look here, my friend, I wish you would explain what you are driving at!"

"All right. I paid $2.50 for my lower berth. What did you pay?"

"I paid $2.50. Is that a lower rate for the upper berth?"

"Certainly. I paid the lower rate and you paid the lower rate, too. Think it over."

He was still thinking when last heard from.

Not on the Program.

An Allegheny minister who believes that there is a place of punishment after death was discoursing on Sunday on "The Hobbies That Men Ride to Hell."

As he proceeded with his sermon, depicting the dangers of such hobby riding, with its appalling results, something got wrong with the furnace in the basement and sulphurous smoke began to rise into the room, causing much coughing and choking among the worshipers.

It seemed like an illustration of the subject under discussion, but the illustration was no part of the minister's plan. It was only an impromptu object lesson.

POINT BREEZE.

Olympia Refitted.

BOSTON, Feb. 10.—The cruiser Olympia left for New York this afternoon. She has been at the navy yard for repairs, and a few days ago was floated from the dry dock, practically refitted. Capt. Henry W. Lyon, United States navy, is in command.

The Olympia will assist in the reception of Prince Henry of Prussia, and later represent this government at the coronation of King Edward.

PERSONALS.

"We have in the Thunder Mountain district of Colorado the coming gold mines of the world," said E. W. Johnson of Boise City, Idaho, at Newell's hotel last night. "Large deposits of gold-bearing stones have been discovered, also large deposits of copper and high-grade lead carbonite ores. This district is now attracting the attention of miners all over the world. The Oregon Short Line says it will have trains running into the new town of Roosevelt, which is in the center of the gold district, within 18 months. Engineers are now in the field and this new railroad will tap the country to the Salmon river branch and the town of Macey, 90 miles from its main line, and will come out at Blackfoot. The Northern Pacific railroad has also engineers examining the Thunder Mountain country with a view to extending its branch from Stites, which lies to the north of Thunder Mountain, a distance of 180 miles. The Pacific & Idaho Northern railroad, which leaves the main line of the Oregon Short Line at Weiser, will also extend its road from the town of Council to Meadows. This will bring the terminal of the line to within 140 miles of Roosevelt. It is conservatively estimated by the railroad officials that the new gold district will have a population of over 20,000 souls before the summer is advanced. It is believed by miners familiar with the country that a gold reef has been discovered on Thunder Mountain greater in extent than the famous gold reef in South Africa. Pittsburgh people are interested in the mining properties on Thunder Mountain, and much capital from this city is being used in developing the different mining properties."

Russell N. Bolton, an attorney of Mexico City, was at the Hotel Victoria last night. He is just about completing a tour of the world, and left last night for New Orleans to witness Mardi Gras. "When I graduated at the Columbia law school," he remarked, "my father was so pleased that he gave me a trip across the continent. To keep an account of the cities and hotels I stopped at I determined to have some tangible evidence, so I began to collect hotel baggage checks. I am somewhat of an engraver, and as I collected the checks I engraved them with the names of the hotels and cities where I stopped. This check you see has just been given me by Chief Clerk Fred Ambrose. I will engrave the name of the Victoria, the rates, and the city on its back. This makes the 169th check in my collection, and represents the number of cities in which I have stopped. I have traveled through parts of China, Japan, India and England, and am now going to my home in the City of Mexico, where I will take up my profession."

Col. James E. Barnett, state treasurer and colonel of the Tenth infantry, returned from Florida last night. He registered at the Duquesne and after taking dinner went to Markleton. "No site," he said, "has yet been selected for the annual encampment. A site near Scranton has been examined, also the old camp site at Lewistown. The site at Lewistown is out of the question, as the owners of the land want too much money for its use. The Tenth regiment is in excellent condition and the companies have nearly their full quota. I expect the regiment to pass a good inspection this spring, as the company commanders are working hard for it."

Hon. James Sheakley of Greenville, Pa., a member of the forty-fourth congress and at one time governor of Alaska, is at the Hotel Duquesne. Mr. Sheakley was elected to the first Democratic congress after the close of the civil war, and was appointed by President Cleveland during his first term as territorial governor of Alaska. "Alaska," said Mr. Sheakley, "is simply a mining country and is not adapted to agriculture. The mining laws are very unjust, and they should be changed so that every person engaged in that pursuit should have an equal chance."

James J. Kimmen, representing the Standard Pneumatic [illegible] Company of Chicago, is registered at Newell's hotel. "I have just come from South America," he said last night, "where I placed several large orders with English firms. In the vicinity of Buenos Ayres, the English planters monopolize the coffee trade. Some four or five years ago they imported Japanese to labor in the coffee fields, and I understood that many Boers who had been made prisoners in South Africa are now working on the plantations."

Capt. Harry Alvan Hall, former United States district attorney, was at the Seventh Avenue hotel last night. He was asked his opinion of Mt. Gretna for an encampment of 20,000 troops. "I don't see," said Capt. Hall, "where the ground could be secured at Mt. Gretna to maneuver such a large body of soldiers. I have never seen the Somerset camp grounds, but the men of my old brigade say it was an ideal camp site, and the most satisfactory place the brigade has ever encamped."

Charles A. McFeeley, wife and family, left for Dayton last night to attend the marriage of their son J. Howard McFeeley to Miss Ada C. Weakley of Dayton. The wedding will be held this afternoon.

The Presbyterian Union held a dinner last night at the Hotel Henry. Covers were laid for 18. In an adjoining room the Baptist Query club held a dinner at which 16 covers were laid.

F. A. Vanderlip, formerly assistant secretary of the navy, is registered at the Hotel Lincoln.

Otto A. Berger of San Francisco, Cal., is a guest at the Hotel Henry.

EUROPEAN TOUR CONTEST GOING MERRILY ON

Series C Drawing to a Close and Ballots of Series B Must Soon Be In.

ALLEGHENY COUNTY LIST

Seventy-Two Were Voted for by Ballots of the First Series—Those Who Want to Be Winners Must Hustle for Votes.

The time is drawing near again to get in the ballots. Series B must be deposited before midnight on Saturday next or they will not be counted. It is not enough to merely get them into the postoffice before that hour. They must reach the Excursion Department, Pittsburgh Gazette and Chronicle Telegraph within the time limit.

Today the list of candidates in Allegheny county, outside the cities of Pittsburgh and Allegheny, is printed below. There are 72 names, all balloted for in Series A. There are six to elect from this division. It will require lively work to be among the winners, but the chance of one is as good as that of another. The offer on the part of The Pittsburgh Gazette and The Chronicle Telegraph is a liberal one and the candidates and their friends must do the rest. A typographical error yesterday morning made the name of Miss Laura Merker, Twelfth ward, Allegheny, read Menker.

The following comment is from the New Castle Daily Herald: "Miss Lydia Paisley's chances for success in the European trip contest of The Pittsburgh Gazette and Chronicle Telegraph are becoming brighter. There is a steady growth in the number of coupons sent to the Herald office, and it is evident that the collectors are not losing their enthusiasm. The Herald believes that if such work as is now being done is continued throughout the contest Miss Paisley will be one of the seven teachers outside of Allegheny county elected."

Miss Martha J. Christian, Moorehead school, city, requests withdrawal of her name from contest.

Following are the names for Allegheny county:

ALLISON, DELLA, Idlewood school.

Rules to Be Observed.

Ballots must be voted in series; those of one series must be deposited before midnight of the day the succeeding series closes. They must be filled out legibly, with full name of teacher, school where employed, town and county. They should be kept in good condition and sent in flat, not rolled or crumbled. If torn or mutilated they will not be counted.

The tour will be of more than six weeks' duration. Starts at Pittsburgh July 3; leaves New York July 5, by Atlantic transport line steamer; arrives London July 15; Antwerp, July 19; Brussels, July 20; Amsterdam, July 22; Cologne, July 24; Mayence, July 25; Heidelberg, July 26; Lucerne, July 28; The Rigi, July 29; Interlaken, July 30; Paris, August 1; London, August 6; Highlands, August 8; Glasgow, August 8; leaves Glasgow by Anchor Line steamer Columbus, August 9; expect to arrive in New York August 17.

Who Will Be Taken.

The party will be composed of 25 teachers of the public schools, i. e., persons engaged in teaching in schools supported by public funds. These will be apportioned as follows: Twelve from the cities of Pittsburgh and Allegheny, six from Allegheny county outside of the two cities, and seven from those parts of Pennsylvania, Ohio and West Virginia outside of Allegheny county, but within the territory covered by the daily deliveries of The Pittsburgh Gazette and Chronicle Telegraph. They will be elected by the readers of these papers. Those having the largest votes in their respective divisions will be declared elected.

All expenses of the tour will be borne by The Pittsburgh Gazette and Chronicle Telegraph, and these papers will give each member of the party $50 in cash to gratify individual tastes. Representatives of the papers will accompany the party to arrange routes and look after the comfort of the guests.

The contest will close May 31, and the result will be announced as soon after all of the votes are in as possible. Ballots from The Pittsburgh Gazette and Chronicle Telegraph will count one vote each, and those from The Sunday Gazette will count for three votes each. The ballots will be found at the top of the second page in each issue, and attention is directed to the terms and conditions printed thereon. The whole ballot, including border, must be sent in.

LATEST NEWS OF SOCIETY AND GOSSIP OF THE HOME

Society.

Mr. and Mrs. Charles Albert M'Feely of Aiken avenue and Castleman street, Shadyside, left last evening with a large family party for Dayton, O., where today occurs the wedding of their son, J. Howard McFeely, and Miss Ada C. Weakley. In the party were Miss Anna L. McFeely and Miss Clara Foster McFeely, who returned home from school at Walnut Lane to attend the wedding; Miss Helen McFeely, Charles A. McFeely, Jr., the little son of Mr. and Mrs. Charles A. McFeely, Mr. and Mrs. Fred Brooks McFeely, John Lindsay McFeely and Mrs. John W. Black.

The wedding of Miss Weakley and J. Howard McFeely will take place at the home of the bride's father, J. Willis Weakley. It will be a very pretty affair. The bride will have but one maid, Miss Katherine Gebbhart, and John Haley of Pittsburgh will be the best man. Miss Olive McFeely went to Dayton last Thursday to be the guest of the bride until after the wedding, and Mrs. McFeely, the bridegroom's mother, will remain for several days in Dayton, though the greater number of Pittsburgh guests will return home tonight.

Miss Weakley, who belongs to a prominent family in Ohio, has frequently visited here both as the guests of Miss Nettie Nicholson and Miss Olive McFeely. After the customary wedding trip Mr. McFeely will bring his bride to Pittsburgh, where they will make their home.

The Program Is Growing.

The committee on arrangements planning for the general conference of club women which will be held at the Twentieth Century club on Thursday, February 13, met yesterday and definitely arranged some features of the program. Mrs. Frank G. Wallace of Edgewood is chairman of the program committee. The meeting is called by Miss Kate C. McKnight, vice president of the State Federation of Pennsylvania Women for the promotion of fraternal feeling and interchange of thought among the clubs of Western Pennsylvania; for the discussion of civic and educational matters in which women are interested and also for the discussion of topics relative to the biennial meeting of the general federation in Los Angeles next May.

Among the educational and civic discussions will be the following: "Street Car Abuses," opened by Mrs. Frank H. Iams; "The Power of the Press in Molding Public Opinion," Mrs. Sullivan Johnson, and "The Vacation School and Summer Playground Work," by Miss Beulah Kennard.

The program committee also announces an unbiased discussion of the question of the reorganization of the general federation. Thus far, however, only the names of the women who will speak in favor of the question are announced. They are Mrs. John Shaffer of the Colloquium club and Miss Beulah Kennard of the Twentieth Century club. The committee has planned for no one to present the opposing side.

A bureau of information will be established at the Twentieth Century club on the day of the meeting and the committee of arrangements plans to entertain all the out-of-town club women at luncheon at Hay's restaurant in Penn avenue.

Pittsburghers at Palm Beach.

"The Tatler" of St. Augustine, Fla., announces the arrival at Palm Beach a week ago of some Pittsburgh people in the following manner: "Mr. and Mrs. Harry Darlington came in Monday evening on their private car, 'Olympia,' bringing with them Master Harry Darlington and his tutor, Miss Darlington, and a retinue of servants. They keep 'open house' here as well as in their palatial home at Pittsburgh. Mrs. Darlington's luncheons and dinners were among the notable events here last season."

Other Pittsburghers who are taking a prominent part in the gay life of the winter colony in Florida are the Hon. and Mrs. B. F. Jones, Mrs. Alexander Laughlin, Mrs. Elizabeth Horne, the Misses Laughlin, Mr. and Mrs. Thomas M. McKee, who are at Palm Beach; Robert S. Woods, Ray G. Murray, Mr. and Mrs. E. Kneeland and Mr. and Mrs. J. H. Purdy at Miami; Mr. and Mrs. Walter McClintock and C. Oliver McClintock at Ormond; Mr. and Mrs. R. J. Beatty, Maj. and Mrs. William F. Aull and the Misses Aull at Magnolia; Mr. and Mrs. A. E. W. Painter and Charles L. Painter at St. Augustine.

George L. Carnegie sailed over from Cumberland island to St. Augustine one day last week on his little yacht Wissoe. Mrs. John A. McKelvy of Pittsburgh is chaperoning Miss Madelaine and Miss Nina Steele of Philadelphia at the Florida resorts.

Bridge whist more than rivals golf this season at Palm Beach and it is said that several Pittsburgh people are devoting many hours daily to its fascinations.

The Porters at Jekyl Island.

Mr. and Mrs. Henry Kirk Porter and Miss Hegeman, who have been spending the greater portion of the past month in the east, will go to their winter cottage at Jekyl Island, Ga., for the remainder of the winter. Their cottage is one of the handsomest and most hospitable on the island. Among the other cottagers who are already at Jekyl Island are Mr. and Mrs. C. S. Maurice, the Misses Maurice and Miss Julia Hickey of Athens, Pa.; Mr. and Mrs. Charles MacDonald of New York, N. K. Fairbank, Miss Fairbank and Livingston Fairbank of Chicago; Mrs. John A. Weekes, the Misses Weekes, the Edwin Goulds, the Frank J. Goulds, Mr. and Mrs. E. S. Jaffray and N. A. Campbell of New York; Gordon McKay of Newport and Mr. and Mrs. William Struthers and Miss Struthers of Bryn Mawr. Bishop Potter is one of the cottage contingent expected soon.

To Celebrate Washington's Birthday

The Pittsburgh chapter, Daughters of the American Revolution, this afternoon will hold their annual celebration of Washington's birthday. The arrangements for the afternoon are very informal. The Daughters will first meet in a brief business session for the purpose of instructing their delegates who go to Washington, D. C., next week to attend the continental congress of the Daughters of the American Revolution. It will be followed by an interesting and instructive paper read by Mrs. Imogen Brashear Oakley, formerly of Pittsburgh, but now identified with Philadelphia, whose subject will be "Civil Service Reform." A tea with delightful social features and music will conclude the program.

Meeting of Colloquium.

The Colloquium club was entertained yesterday afternoon by Miss Jean Palmer at her home in Aiken avenue, Shadyside. The women discussed events of the recent Spanish-American war and papers were read by Mrs. Samuel L. Seymour on "Dewey's Victory and the Purchase of Spain," and Miss Jane R. Murdock on "The Peace Commission." Mrs. Carolyn Watson discussed new books. Mrs. William Anderson read a paper on "Examples of the Impressionist School in the Carnegie Institute," which was omitted at the previous meeting of the club, Mrs. Anderson being absent. The club appointed Miss Hanna to represent it at the conference of club women at the Twentieth Century club on Thursday.

Meeting of Joint Committee.

The first meeting of the joint committee of Women's clubs will be held at the Twentieth Century club on Thursday, February 20. At that time plans will be prepared for the opening of the summer vacation school, the one of the past two years possibly being increased to two this season, and the summer playgrounds during the two summer months. The excellent work which has been accomplished during the past two years since the club women took it up was made possible by the active co-operation of the clubs and their members. But that success is only felt to be an indication of what the women of Pittsburgh and Allegheny can do with a greater number of workers and greater funds.

Entertained at Cards.

Several handsomely conducted card parties were given yesterday in Pittsburgh and Allegheny. Among the hostesses was Miss May Rodgers of Center avenue, who entertained in honor of Miss Donahue of Sandusky, O., who has been visiting Miss Lanahan. Miss Adelaide Lare gave a large card party yesterday afternoon in honor of her sister, Mrs. John Jackson O'Leary, a recent bride. Mrs. Orlando Metcalf was hostess at a very enjoyable card party yesterday at her home in Oakmont.

Gen. Wheaton's Daughter a Bride.

WASHINGTON, D. C., Feb. 10.—Miss Octavia Wheaton, a daughter of Maj. Gen. Frank Wheaton, U. S. A., retired, was married at noon in St. John's church to Mr. Frederick Hitchcock Morley of Colorado Springs. The Rev. Dr. Mackay Smith officiated.

Notes of Society.

Mrs. A. C. McCallam and the Misses McCallam gave a pretty informal tea yesterday afternoon in honor of Mrs. Alexander Murdock.

Mrs. F. F. Nicola entertained at luncheon yesterday afternoon at the Schenley, her guest of honor being Mrs. Imogen Brashear Oakley.

The seniors of the Pennsylvania College for Women have issued invitations to the members of the other classes for next Friday evening, St. Valentine's evening, when they will give a bucolic party. Their guests are requested to appear in rustic costume. The seniors will themselves be the guests of honor at the Valentine dinner which President and Mrs. Martin and the members of the faculty give that evening at 6 o'clock.

Miss Brownson will lecture in the chapel of the First Presbyterian church, Wood street, on Wednesday evening, February 19, at the thank offering service given under the auspices of the Women's Foreign Missionary society. Her subject will be "Camping in Palestine."

FUNDS FOR UNIVERSITY.

Methodist Protestants Trying to Raise Money for Kansas City School.

Methodist Protestants of this city are just now making a renewed effort to complete the great enterprise inaugurated by them in Kansas City some years ago, the completion of the Kansas City university. This institution is to the Methodist Protestant denomination the center of religious education in this country.

Not long ago a twentieth century building fund was inaugurated in the churches of this denomination for the completion of this enterprise, and H. J. Heinz was so pleased with the efforts then made to complete the university that he made an offer to contribute one-third of $10,000 to the fund if the various congregations would in this vicinity raise the other two-thirds. This would make Mr. Heinz's contribution $3,333 33.

The fund will close its books March 1 and by that time it is believed the entire amount for the completion of the university buildings will have been gathered. The Rev. D. S. Stephens, treasurer of the twentieth century fund, has issued a statement which shows that since last September $1,318 has been subscribed. A balance of over $5,000 yet remains.

The university is to be used as a training school for the ministry and also as an advanced school for ministers desirous of taking a post-graduate course.

DAINTY DISHES.

Some Practical and Inexpensive Suggestions for Little Dinners.

In preparing a menu for a little dinner which you desire to serve as daintily as possible and at the same time avoid undue expense, it greatly assists the perplexed and often inexperienced housewife to have the successful experiments of others to guide her in making a selection of dishes.

Little French dinners have been quite popular. These may be very simple and inexpensive, for if you masquerade the dishes under the more fanciful appellation given by the French cooks, they loose all suggestiveness of their plebeian origin and seemingly acquire a much finer and more delicate flavor.

CHESTNUT SOUP.—(Potage a la Puree de Marrons.)—Remove the shells from one and one-half pounds of chestnuts; cover with cold water; place them on the fire and let come to a good, hard boil; then drain and remove the brown inner skin. Return to the saucepan and cover with a quart of milk and a quart of chicken broth or water; slice in a small carrot and small onion; add a sprig of parsley, a tiny bit of bay leaf, a teaspoonful of salt and several pepper corns. Place where it will cook gently for about two hours. When chestnuts are very tender rub them through a puree sieve, moistening the paste with the stock in which chestnuts were cooked. Return to the fire; season with more salt if necessary and let the soup boil up; then serve with small croutons of bread.

HADDOCK, WITH SAUCE DIPLOMATE.—(Eglefin, Sauce Diplomate).—Choose a haddock large enough to serve the number of guests invited; put it in a fish kettle with plenty of water to cover, having wrapped it in a piece of cheesecloth. Add a half cup of vinegar to the water, a few cloves, small blade of mace and sprig of parsley. Cook gently for about 15 or 20 minutes until it is tender, but not broken. Remove from the water and drain over the kettle in order to keep it hot. Then serve on a folded napkin with garnish of parsley and sliced lemon.

SAUCE DIPLOMATE.—Rub two tablespoonfuls of butter in two tablespoonfuls of flour until smooth; put in a saucepan with half an onion sliced, a large slice of carrot and a sprig of parsley. Let these cook gently without browning, for a few minutes; then add a bay leaf and piece of thyme; a little grated nutmeg and a pint of white stock (the water in which fish was cooked, if no other stock is at hand). Let the sauce simmer for half an hour. Then add half a pint of milk or cream and a few chopped mushrooms and let it boil up again. Season to taste with salt and pepper. Strain and add about a dozen and a half of shrimps cut in halves and three or four chopped gherkins, and just before serving add a teaspoonful of lemon juice and the well-beaten yolks of two eggs. Do not let this sauce stand after it is finished.

INQUIRIES ANSWERED.

E. M. R. writes: Will you kindly give as soon as convenient a recipe for whipped cream? I find it nearly impossible to get cream to whip with satisfactory results, it not being rich enough. But there are means by adding gelatine or something to aid it, which is successful. Will you kindly send it and oblige one who appreciates many of the things you publish?

Whipping Cream.

The ordinary milkman's cream should be rich enough to whip nicely, for if too rich and thick it will turn to butter in the process. The principal thing is having the cream and all the utensils used as cold as possible or the best cream will not whip. While whipping keep the vessel containing the cream on cracked ice and as the froth rises skim off and lay on a fine wire sieve (puree) to drain; keeping it in a cool place it will stand for several days. Very thick or double cream is not diluted with milk and is used for garnishing, but for general purposes heavy cream is diluted with one-third or less its bulk in milk; as it is more delicate and lighter in texture. We would not advise adding gelatine or other substances to thicken the cream as they are readily detected. Try chilling your cream thoroughly and keeping it on ice while you whip, using rather a deep vessel for holding it and either an old-fashioned syllabub churn, a Dover egg beater or a modern whip churn. A common wire egg whip can be used but the process is longer and cream must be rather rich.

J. M. D. writes: Will you kindly publish a recipe for baked bananas, and are they served with meats?

Baked Bananas.

Cut a slice from each of large bananas; then cut the bananas in half lengthwise. Lay them in a shallow agate pan or on an old meat platter. Put three tablespoonfuls of sugar, two of butter and two of lemon juice in a saucepan and stir over boiling water until the sugar melts. Put the bananas in a slow oven and baste them with this syrup. Bake for 20 minutes and baste several times with the mixture. Serve them with broiled beefsteak.

Trolley Line Competition Bringing Down Railroad Fares

RAILROADS HAVE TO REDUCE THEIR RATES

Erie Makes Big Cut Between Sharon and Youngstown and Others Are Expected.

Competition between steam and electric railways, resulting in lower fares on the steam roads, has reached this territory. The Erie railroad has already prepared to enter into active competition with the Youngstown-Sharon electric line, which started its cars a few months ago. The traction line cut heavily into Erie passenger receipts between those towns. The street car fare from Youngstown to Sharon by the electric line is 25 cents, with a round-trip ticket for 40 cents. To meet this the Erie will sell a 10-trip ticket for $2.

Between Youngstown and New Castle also there is promise of a similar cut. The new line between those towns will start its cars in a few days. Inroads upon local receipts of the passenger service of the three railroads between the towns, the Pennsylvania, Lake Erie and Pittsburgh & Western, are expected, as in the Erie's experience at Sharon. The present railroad fare is 65 cents one way. The street car company will make a fare of 30 cents. It is now proposed to have the steam railroad fare reduced to about $3 50 for ten trips.

In various parts of Ohio the competition between the two forms of transportation has caused heavy rate cutting and only measures of this kind have saved to the railroad companies a fair share of the business. There has been talk from time to time of the Pennsylvania railroad making a cut to 5 cents between the Union station, Pittsburgh, and all stations as far as Wilkinsburg as soon as the new yards are completed and the full schedules resumed. Competition from the street cars is the sole cause of the move.

Railroad men say that ultimately the traction lines through the country districts add to the railroad company's revenue by aiding in settling up the communities and giving travel out of the territory to points not reached by the electric lines, but while the country is building up the electric lines take much from the steam roads.

Philadelphia and Erie Report.

PHILADELPHIA, Feb. 10.—The 51st annual report of the Philadelphia & Erie Railroad Company was read today at the meeting of the stockholders. The report shows an increase for the year of $704,029 in earnings from freight traffic, and an increase of $249,459 from passenger traffic. Progress is reported in the work of construction on the 46 miles of double track between Keating and McElhattan, Pa. The cost of the work to December 31, 1901, was $2,001,041. The net income for the year was $1,573,745 and the balance given at $506,808. Out of this sum was paid the interest of 7 per cent on the special guaranteed stock, amounting to $168,000, and a dividend of 2 per cent on the common stock, amounting to $159,700, leaving a surplus of $176,168. The gross earnings amounted to $8,789,689, a gain of $965,063 over last year. An increase of $333,327 in expenses makes the net increased earnings $643,943. To this is added $12,207, from other sources. Interest on the bonded debt, interest on valuation of equipment, taxes and amount appropriated for maintenance amounting to $9,217, is deducted, making the total increase $634,725. The old officers and directors were re-elected.

D. B. Martin Says Mileage Is Sure.

D. B. Martin, passenger traffic manager of the Baltimore & Ohio, is responsible for the statement that the trunk lines have practically agreed upon the long-discussed mileage tickets. He says that some minor details still remain to be worked out, but that there is little doubt of the final adoption of the plan. Attempts to secure such an agreement have been made repeatedly for several years past, but the opposition of the New York Central lines to the plan has always been strong enough to neutralize the urgings of the other lines. The Pennsylvania, Baltimore & Ohio, Chesapeake & Ohio and the Lackawanna are the main promoters of the present plan and it is said they will go ahead with it even if the Jersey Central, Reading and the New York Central do not come in at the start, believing that, like the Erie in the central mileage territory, they will fall in line when the popularity of the books becomes established.

Beech Creek-New Castle Extension.

The project first started several years ago of connecting the Beech Creek line of the New York Central with the Pittsburgh & Lake Erie by a line from near Dubois to New Castle has been revived and is intended to be soon carried through. The acquirement of the Buffalo, Rochester & Pittsburgh by the Vanderbilt interests has for some time been thought among the possibilities and as the extension to New Castle would involve paralleling part of the Buffalo, Rochester & Pittsburgh the delay in the plan has likely been in order to await the developments in the ultimate purchase of that road. The Buffalo, Rochester & Pittsburgh has in sight an extension of its own from Butler to New Castle, and the Beech Creek will likely reach New Castle when the Buffalo, Rochester & Pittsburgh is acquired by the Vanderbilts.

Does Not Fear Big Gorge.

H. L. H. Blair, assistant to the general manager of the Pennsylvania lines, said yesterday that the Pennsylvania Company is watching the bridge and false work of the new bridge of the Fort Wayne across the Allegheny at Eleventh street and expect no trouble from the great ice gorge formed in the river. He said that the company's engineers had reported the structure sound and the channel of the river clear from the bridge to Forty-third street.

"Unless something entirely unforeseen occurs there need be no fear in regard to the bridge," he said.

MANY LINES TO BE BUILT THIS SUMMER

Wabash and Buffalo, Rochester and Pittsburgh Will Build Miles of New Tracks.

The coming summer promises to have more railroad construction in progress in this section than any previous one. The work of the Wabash line will be going forward, the new line of the Big Four, from either Akron or Galion, to Youngstown, to connect with the Lake Erie, is expected to start in the spring; the rebuilding of the Lake Shore from Doughton to Plymouth will be done; the line from East Brady to Karns City, crossing the Allegheny river, will be started; the line from Callery, on the Pittsburgh & Western, to Remington, on the Fort Wayne, will likely be commenced. The East Brady line in connection with the Pittsburgh & Western and the Callery-Remington line form a western route for coal and other freight from Central and Northern Pennsylvania without involving passing through Pittsburgh.

Out along the Buffalo, Rochester & Pittsburgh many spurs are being built and a branch about 22 miles long will be built this summer from Horatio to Indiana, to open up the coal fields of Indiana county, in which the Rochester and Pittsburgh Coal and Iron Company has recently invested almost $2,000,000.

President Loree Spends Quiet Day.

President L. F. Loree of the Baltimore & Ohio spent yesterday quietly in this city, many of his friends not knowing of his presence here. The visit is believed to have been closely connected with the project for extending the Baltimore & Ohio tracks down the Monongahela wharf to reach the proposed Point warehouses. So far Mr. Loree has said nothing about the project, either in confirmation or denial. It is believed that more developments in the matter will be forthcoming shortly.

RAILROAD NOTES.

James Zelby, for 50 years in the employ of the Pennsylvania railroad, for many years as baggagemaster on the Pennsylvania limited, will retire on pension upon reaching his 70th birthday, February 26.

Robert M. McLaren will address the Pennsylvania railroad branch of the Y. M. C. A. at Twenty-eighth street at 2 and 8 o'clock today and February 18 on "The Airbrake." All railroad men are invited to attend.

Arthur Hale, assistant general manager of the Baltimore & Ohio, succeeds General Manager J. B. Hutchinson of the Pennsylvania railroad as chairman of the car service committee of the American Railway association.

NET EARNINGS $4,272,209.26 FOR PAST YEAR

The Pittsburgh Coal Company Stockholders Hear Splendid Report for 1901.

MORE BUSINESS POSSIBLE

Deficient Transportation Facilities on Lakes and Car Shortage Detracted from Volume of Sales. Much Money Spent for Coal Land.

At the annual meeting of the Pittsburgh Coal Company at Jersey City yesterday, the report of Francis L. Robbins, chairman and president, showed that the company had, for the last year, net profits amounting to $4,272,209 26. After certain reserve funds are deducted and dividends on the preferred stock paid the undivided earnings for the year are shown to be $1,020,672 81. This sum the directors have appropriated for preferred stock dividends and working capital.

Despite this excellent showing, President Robbins announces in his report that fully 2,000,000 tons of coal contracted for delivery in the northwest could not be delivered by reason of transportation conditions on the lakes involving delays, and the lack of sufficient car facilities. All this is expected to be remedied in the next year.

The reserve funds deducted from the operating profits of the company, include $376,846 78 for the acquisition of new coal lands; $614,139 38 for depreciation of plants, and $81,685 04 for depreciation of railway cars. President Robbins in his report says in part:

Policy of the Officers.

Your officers beg to report that their policy in the conduct of the company's affairs during the past year was to obtain the maximum output from the company's property; to decrease the cost of production; to protect its coal land investments; to broaden its markets and improve its transportation facilities, and to acquire a field of coal in the Hocking Valley district which could be owned and operated by it exclusively.

In carrying this policy into effect, the mining operations of the company were concentrated at mines now most favorably located for operation and transportation. At these mines additional and necessary miners' houses and modern mining equipments, operated by either electricity or compressed air, were installed at a cost of $492,335, the working organization perfected and many economies introduced.

Increased Tonnage Secured.

One of the first results of these operations was an increased tonnage per mine operated with the consequent decreased cost per ton of coal produced. This decreased cost per ton of coal produced is steadily decreasing, and will soon reach the basis of minimum cost at which the output of the company's properties can be put upon the market. This will be apparent while the fixed charges remain the same, while the tonnage per mine operated is increased, and is especially so because of the fact that the fixed charges have been and are being very substantially reduced.

It has always been the endeavor to intelligently and effectively protect the investments of the company in coal lands owned by it. This has been done particularly in the district immediately adjacent to the city of Pittsburgh.

Purchases of Coal Lands.

During the past year there have been purchased 23,195 acres of coal and 1,620 acres of surface, all in the vicinity of the city of Pittsburgh, at a cost of $2,701,942. In making these purchases, as also the large purchases of coal lands made during preceding year, your officers believe that the acquisition of coal lands in the territory immediately surrounding Pittsburgh, adds stability and strength to the capital stock of the company not attainable by any other means or in any other way.

In addition to the above purchases, the mines and property of the Shaw Coal Company, consisting of five opened and producing mines, 3,700 acres of coal and 500 acres of surface, situate within 15 miles of Pittsburgh, were leased for a term of 40 years on advantageous terms without any investment whatever by this company. This property was among the best of the few outstanding coal properties in the Pittsburgh district.

Creating a Sinking Fund.

The policy of charging royalty at the rate of $100 per acre on the coal purchased at an average cost of about $100 per acre has been continued, and the fund thus created will within the next ten years provide for any pay all indebtedness incurred for coal purchased since the company's organization. The total amount of coal owned by the company at this date is over 150,000 acres.

All the coal purchases made by the company since its organization have been carried on its books at absolute cost; no revaluation or reappraisement of the same has been made.

The statement submitted herewith shows liabilities incurred in the purchase of coal lands since the organization of the company of $9,102,395 59. The intrinsic value today of the coal representing these liabilities is more than double the total amount paid for the same. This is apparent in prices being paid for tracts adjacent to those purchased by our company. This continuous appreciation in value of the vast coal acreage owned by this company has added intrinsic value to its capital stock far in excess of the amount of undivided earnings, shown on its books and in the accompanying statement.

Distribution of the Output.

In providing for the distribution of the output of the company, the officers believe that they have acquired wider and better markets that the company has heretofore possessed, in that they have acquired the ownership and control of docks in addition to those heretofore owned and controlled.

Following the policy of dealing as nearly as possible directly with the consumer, we have, during the past year, acquired docks and yards at various points on the great lakes, which have more than doubled our capacity for storing and marketing our product direct to the consumer in the northwest—thus securing for our mines a permanent and steady market for an increased output.

Lake Docks Secured.

Among the docks thus secured and under contract are the following: Pioneer Fuel Company docks at Duluth, Minn., and Gladstone, Mich.; Ohio Coal Company docks at Duluth, Minn., Milwaukee, Wis.; the C. Reiss Coal Company docks at Sheboygan and Ashland, Wis., Manitowoc, Wis., and Escanaba, Mich., and the docks of the Whitnall Coal Company at Milwaukee, Wis.

The expenditures on this account thus far are $632,915. The properties representing this investment show from their operation during the year ending December 31, 1901, net earnings of at least 15 per cent on the amount of our investment. In connection with these docks the company acquires a large anthracite and Hocking Valley coal business.

Hocking Valley Holdings.

The company is now in control and owns approximately 5,000 acres of coal lands in the Hocking Valley, formerly property of the New Pittsburgh Coal Company and the Greendale Coal Mining Company. This property, among other things, consists of eight mines, having a capacity of 2,000,000 tons per annum, and was taken over by this company by the purchase of the capital stock of the above-named companies, with the property free and clear from debt. These properties were purchased because, with the acquisition of the dock properties at the head of the lakes, your officers were confronted with the necessity of providing a supply of Hocking Valley coal for the trade established at the dock properties, amounting to a considerable proportion of the tonnage produced at these mines, so that we could control its production and transportation exclusively. The property thus purchased, not only provide for this necessity, but by their last year's earnings have demonstrated that they will pay this company at least 20 per cent net upon the amount invested in them.

The Transportation Problem.

One of the greatest problems that confronts your officers is the transportation of coal purchased and produced. To market and to more effectively accomplish this, new car shops have been erected and equipped at Montour Junction on the Montour railroad. These shops are so equipped as to provide the means of repairing the company's railroad car equipment and also to construct and repair the mining cars, mining machines and other equipment of the mines. In addition, these car shops are turning out at least one finished railroad car per day.

During the year, 500 new 40-ton coal cars have been added to the railway car equipment of the company, which, together with the cost of the new car shops, represents an additional investment of $474,545.

Effect of Engineers' Strike.

In carrying out the policy outlined at the beginning of this report, your officers were greatly hampered by reason of losing 30 days' transportation through strike of lake engineers and by the unfortunate inability of the railroad companies, transporting its output, to effectively handle and carry the immense and unprecedented amount of freight offered for transportation from this district. The conditions were such that the railroad companies were unable to furnish the company with the normal proportion of their equipment, and at the same time, by reason of the congestion of freight, the movement of individual equipment was such that we received only about one-half of the service normally expected from our own cars and equipment. This resulted in the company being unable to make deliveries of coal sold upon very satisfactory and profitable contracts, of not less than 2,000,000 tons. We believe this condition will be remedied to a great extent this year by reason of the improvements in tracks and equipments that the railroad companies are taking active steps to effectuate.

Some Important Expenditures.

The principal additional expenditures made in the company's operations during the past year on the policy outlined may be summarized as follows: Additional coal lands, $2,701,942; new equipment at mines, including miners' houses, $492,335; additional docks and yards on the great lakes, $632,915; 500 new 40-ton railway cars, car shops and equipments, $474,545; total, $4,301,737.

The purchases of the capital stocks of C. Reiss Coal Company, the New Pittsburgh Coal Company and Greendale Coal Mining Company, referred to in the preceding paragraphs, having been made since January 1, 1902, are not included in the figures here shown.

Bright Prospects for 1902.

Beginning the business year of 1902, your officers believe the company is in position to do a larger and more profitable business than ever before. They believe they say so advisedly, because all of the railroads operating in the Pittsburgh coal district are making extensive track improvements, and all have contracted months ago for additional car equipment and motive power, which are now in course of delivery and which cannot fail to very materially improve the railroad transportation at an early date. This is apparent at this time by reason of the fact that during the month of January, 1902, the company shipped 12 per cent more coal than during the month of January, 1901, and 19 per cent more than in December, 1901.

Considering the railroad situation in connection with the improved equipment of the mines, together with the increased markets afforded by the docking facilities and Hocking Valley coal fields acquired during the year, your officers look forward to a highly successful and prosperous business year.

Mining Rate Fixed.

Your officers are able to report that on February 7, 1902, a contract was made in the joint convention at Indianapolis, which fixed the mining rate and the terms and conditions under which our coal will be mined during the year ending April 1, 1903, on the same basis as that operative during the year ending April 1, 1902.

The annual meeting re-elected the following directors: Francis L. Robins, Henry W. Oliver, J. D. Nicholson, H. C. Frick, A. W. Mellon, D. R. Hanna, John A. Bell, M. H. Taylor, Peter M. Hitchcock, Grant B. Schley, A. M. Neeper, John I. Bishop, U. A. Andrews, W. P. Murray and F. M. Osborne.

The directors at their next meeting will re-elect the following officers: Francis L. Robbins, chairman and president; J. D. Nicholson, vice president and treasurer; F. J. LeMoyne, secretary; J. B. L. Hornberger, auditor.

Chautauqua Division Closed.

CORRY, PA., Feb. 10.—(Special.)—The Chautauqua division of the Pennsylvania is still snowbound. However, many men are at work in addition to the huge snow lows, and it is expected that trains will be running regularly some time tomorrow. Last evening train No. 1 ran into a freight train at Foxburg and a fireman was fatally injured. Other railroads are now open.

Cabinet for Phonograph Music

The advent of the phonograph created a demand for a tasteful cabinet in which to keep the rolls of music.

The Phonograph Music Cabinet pictured above is typical of this store's policy—which is to have every worthy article pertaining to the line of furniture—and to supply the best values obtainable.

Our prices are always an inducement.

The appearance of this cabinet commends it to the good taste of music lovers. The interior is most conveniently constructed. Each roll of music is placed on a little wooden neck, over which the roll fits like a collar. This prevents the rolls from being misplaced, and provides a system of classification that is simplicity itself.

Made of quartered golden oak, 20 inches wide, 36 inches high.

Price $22

Same cabinet made of solid mahogany for $25.

COURT DECISION LIKELY TO FREE CAPT. J. C. READ

U. S. Court of Appeals Declares Regular Officers Can't Try Volunteers.

CASE MAY BE CARRIED UP

If It Is Not, and Capt. Deming Is Released from Fort Leavenworth Penitentiary, the Convicted Pittsburgher Also Will Be Set Free.

[SPECIAL TELEGRAM TO THE GAZETTE.]

WASHINGTON, D. C., Feb. 10.—Capt. James C. Read of Pittsburgh, who was convicted by court-martial at Manila of complicity in commissary frauds, is likely to go free, in consequence of a decision of the United States circuit court of appeals in St. Louis. The decision was handed down today.

Judge Walter S. Sanborn of that court holds that officers of the regular army are not competent to sit on court-martial for trial of volunteers. The essential question, as stated in Judge Sanborn's opinion, is whether the volunteer army is the same as the regular army, or whether it is one of the "other forces" mentioned in article 77. The opinion establishes the fact that the volunteer army is at all times distinct from the regular army.

Points in Deming's Case.

The case immediately settled by Judge Sanborn's decision was that of Peter C. Deming, a former captain of United States volunteers, against Robert W. McClaughrey, warden of the federal penitentiary at Fort Leavenworth. Deming was imprisoned on the sentence of a court-martial composed of nine regular army officers, convened by Gen. W. R. Shafter on March 29, 1900.

Unless an appeal to the supreme court is taken, Deming will be released from the Fort Leavenworth penitentiary within 60 days and all other former members of the volunteer army who are confined in federal prisons on sentences inflicted by court-martial of regular officers will also be liberated as the result of today's decision, it is stated. E. A. Rozier, United States district attorney, estimates the number of such cases at 200.

Lower Court Is Reversed.

The case of Capt. Deming is similar to that of Capt. Read. Capt. Deming was tried and convicted by a court-martial composed of regular officers of complicity in commissary frauds and was sentenced to serve a term in the military prison. Through the influence of his friends he was transferred to the military prison at Fort Leavenworth, Kansas, and then his friends applied for a writ of habeas corpus on the ground that Capt. Deming had been illegally convicted by a board composed of officers of the regular army. The warden of the penitentiary, acting under instructions, resisted the writ, and the case was decided in his favor by the lower court. An appeal was then taken to the court of appeals, which today decided in favor of granting the writ.

Thus, unless the government appeals the case on a writ of supersedas to the supreme court of the United States, the warden of the Leavenworth penitentiary will be compelled to release Capt. Deming.

Likely to Go Up Higher.

When seen tonight Judge Advocate General Davis was reluctant to discuss the case until he had received and considered the decision, but he intimated that the secretary of war would authorize an appeal, as the decision affects a large number of volunteer officers who had been similarly convicted and sentenced. Unless an appeal is taken, they must all be released. As Gen. Davis and his predecessor both ruled that an officer of the regular army could sit on a board to try volunteer officers, the law department of the army will receive a bad overthrow unless an appeal is taken and the decision of the judge advocate general is upheld. The decision of the court did not surprise Gen. Davis.

It is understood that Capt. Read's friends are prepared to take advantage of the decision. He is now being taken from Manila to the Leavenworth penitentiary, and it is possible for his attorneys at once to apply for a writ of habeas corpus on the same grounds as those taken by the attorneys for Capt. Deming.

Read's Counsel Undecided.

Attorney James H. Hayden of this city, counsel for the friends of Capt. Read, said tonight it had not been decided what course to pursue if an appeal is taken in the case of Capt. Read. The friends of Capt. Read can await that decision, but if an appeal is not taken, then it will be demanded that Capt. Read be released on the writ.

Representative Dalzell, who has been active in the interest of Capt. Read, said tonight:

"The decision covers the case of Capt. Read, and unless an appeal is taken by the government, he will be entitled to a speedy release. I understand that the judge advocate general has not decided whether to take an appeal or not. If he does not Capt. Read will be released. Pending a decision, the friends of Capt. Read may institute proceedings so as to pave the way for his release if the decision rendered today stands.

RUSSIAN TRICKERY IN MANCHURIAN QUESTION.

Yielded to Objections of United States Against Treaty, but Concluded Secret Convention.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

WASHINGTON, D. C., Feb. 11.—Negotiations between the United States and Russia relative to Manchuria are progressing with a great deal of energy on our part, though the exchanges are in the kindliest spirit.

The attitude of the Russian government in this matter has shifted materially since the beginning of the negotiations. A treaty was drawn up originally between Russia and China providing for the evacuation of Manchuria by the Russian troops who have been in military possession of the country since the early days of the Boxer outbreak.

This treaty contained a great many complex guarantees in Russia's favor, but a singularly objectionable proviso was one placing the Russo-Chinese bank in practical control of the commercial and material interests of Manchuria. It was quickly perceived that the provision, if executed, practically would exclude Americans from competition in Manchuria, which is very valuable as a market for our manufactured cottons.

Apparently our representations were effectual, for the objectionable proviso was withdrawn from the treaty, and that convention, save in some minor respects, was regarded as unobjectionable.

However, it has been discovered that the Russian government, following a practice known in European diplomacy, has drawn up a secret agreement with China conferring upon the Russo-Chinese bank all the powers contained in the original treaty proviso. Therefore the United States government has renewit its objections, not only addressing itself to the Russian government, but making a very strong protest to the government of China. It is expressly declared that in so doing our government has acted independently, though it is a matter of common knowledge that other great commercial powers whose interests in Manchuria are almost as considerable as our own have addressed similar representations to both China and Russia.

ACTION DELAYED ON FILTRATION

ORDINANCE WILL NOT BE INTRODUCED UNTIL AFTER ELECTION

Neither Will Bids on First Contract Be Opened, Until February 24, As Giving of Work to Senator Flinn Might Affect the Votes.

An ordinance for contract No. 2 for the filtration plant will be introduced in councils on Feberuary 24, six days after the municipal election. Director J. Guy McCandless said yesterday that the work on the filtration plant will be divided into several contracts. He said that better prices can be thus obtained than by letting the work in one or two contracts.

Director McCandless said that contract No. 2 would be for three pumping engines, to pump the water from the river into the pure water reservoir. The cost of the three engines is not to exceed $300,000, and each is to have a daily pumping capacity of 35,000,000 gallons, aggregating 105,000,000.

Another Bond Issue Needed.

The estimated daily consumption of the city is now about 75,000,000, and the three engines for the filtration plant are expected to supply Pittsburgh for a number of years before additional engines will become a necessity.

Houses will be built for the engines and these are to be provided for also in contract No. 2. The engine house is to be built on the Allegheny side of the river. It is estimated that the remaining $1,000,000 of the bond issue appropriation, voted for the filtration plant, will be expended on contract No. 2, and that an additional bond issue will be required to build roofs over the filtration beds and for other portions of the work, which are to be let by succeeding contracts.

Opening of Bids Postponed.

On the same day that the ordinance for contract No. 2 is to be put through councils the bids on contract No. 1 are to be opened. Contract No. 1 provides for the expenditure of $1,500,000. The original date set for the opening of the bids on contract No. 1 was February 10.

The opening of the bids was postponed until February 24, as Senator Flinn is expected to be a bidder and to get the contract and this fact was expected to have an adverse effect upon the election if the contract should be let before that time.

SURPRISED HER SON.

Mrs. Perrett Left Half Her Estate to One Who Charged Her With Forgery.

The will of Mrs. Sarah Perrett, widow of Michael Perrett, late of Allegheny, was filed for probate by Attorneys S. K. Porter and John N. Dunn. Under the terms of the document a son, who contested his father's will, is given a large share of the estate.

The will of Michael Perrett was the subject of extended litigation, Henry Perrett, a son, having begun the contest, as by its terms he was only to receive $5, while the residue of an estate worth about $75,000 went to the widow, who died last week. At the outcome of a trial by jury the will, which the son alleged was forged by his mother, was sustained. After his mother's death last week, Henry Perrett filed a caveat against her will, but this will possibly be withdrawn, as he received a share far beyond his expectations.

By Mrs. Perrett's will the estate is left to Messrs. Porter and Dunn in trust for final disposition. Mrs. Eliza Sommers, a daughter, is given one-fourth of the estate absolutely and one-fourth is to be retained in trust for her, she to receive the income from this part. The other one-half of the estate is left to Henry, the son, who filed the caveat, his share to be held in trust. He also gets the one-fourth held in trust for his sister should she die without issue.

This will was prepared and written during a bitter contest, and about the time Mrs. Henry Perrett had instituted a suit for assault and battery against her mother-in-law.

Warmer Weather Wednesday.

There will be no change in the weather today, according to both the local and Washington forecasts. "Partly cloudy, occasional snow flurries and continued cold" are the indications for today. It is also suggested that it may be warmer on Wednesday. The current temperature here yesterday was 20 degrees, the maximum 23 and the lowest 15.

Pottawattomies Will Move.

GUTHRIE, OKLA., Feb. 10.—The citizens band of Pottawattomie Indians, of whom there are 1,800 in Southeastern Oklahoma, have appointed a committee of four to visit the state of Tamaulipas, Mex., to prepare for the removal to and the colonization of lands near Tampico by 200 members of this tribe.

PRESBYTERIANS MODIFY CHARGES AGAINST POPE

Will Change that Part of Confession That Calls Him "The Man of Sin."

REVISED CHAPTER HELD

The Rev. Dr. Henry Roberts Yesterday Reiterated His Statement That the Church Never Taught That Infants Were Consigned to Perdition.

[SPECIAL TELEGRAM TO THE GAZETTE.]

PHILADELPHIA, Feb. 10.—The Presbyterian creed revision committee's fifth day's session for the reconstruction and revision of certain clauses in the church creed, which began in the Witherspoon building at 10 o'clock this morning, was regarded by members of the committee as the most important meeting yet held. While the committee's work is only partially completed, it was officially announced last night that the most arduous and perplexing questions sent down by the last general assembly for the revisionists' deliberation have been satisfactorily considered and agreed upon.

These questions, including the one which affects chapter 10, section III, on elect infants, were discussed at length during the last general assembly held in this city in May, 1901, and directly influenced the members of that body in appointing a committee on creed revision.

Work of the Committee.

In a word the work of the committee, so far as completed, provides for a declaratory statement of chapter 3 of the confession of faith and also for chapter 10, section III., on elect infants. It has further agreed to the revision of the text of the confession in the matter of good works, and to chapter 17, section VII., on its being a sin to refuse an oath, and as to the pope being the man of sin in chapter 25, section VI.

Just what the revision in the latter section is, was strictly withheld. The section as it formerly read is as follows: "There is no other head of the church but the Lord Jesus Christ. Nor can the pope of Rome in any sense be head thereof, but is that anti-Christ, that man of sin and son of perdition, that exalteth himself in the church against Christ, and all that is called God."

Will Add Two Chapters.

At the end of this afternoon's session, the Rev. Dr. Henry Roberts, secretary of the committee, announced that an addition of two chapters had also been made to the confession of faith, one on the Holy Spirit, which recognizes the Holy Spirit more fully than has heretofore been done; the other on the gospel which sets forth the love of God for the world and the obligation of the church to conduct the work of missions.

Dr. Roberts reiterated the statement he made several days ago that the American Presbyterian church does not teach that any dying in infancy are lost.

"The church," he said emphatically, "has never preached that doctrine. I cannot understand how a wrong impression regarding the matter could have become circulated."

Another Change Made.

Another impression that was brought up for deliberation today, changed by a unanimous vote after a lengthy discussion, relates to chapter 16, section VII, on the good works of men. The words "are therefore sinful, and" were stricken from the chapter. It now reads:

"Works done by unregenerate men, although for the matter of them, they may be things which God commands and of good use both to themselves and others; yet, because they proceed not from a heart purified by faith, nor are done in the right manner, according to the word, nor to a right end, the glory of God, they cannot please God or make a man meet to receive grace from God, and yet their neglect of them is more sinful, and displeasing unto God."

A sub-committee, consisting of the Rev. Dr. Minton, the Rev. Dr. Herrick Johnson and the Rev. Dr. McKibbin, was appointed to consider the chapter on "good work" at the beginning of yesterday morning's session. At 4 o'clock in the afternoon the sub-committee reported its finding to the general committee, which resulted in the change given above.

Unjust to Condemn Good Men.

Concerning the change made to chapter 16, section III, the Rev. Dr. Roberts said: "It is not just to condemn an unregenerate man who performs good works to men. If a man is not a member of a church and at the same time loves his wife and family he is not to be condemned. Indeed he is to be approved and admired."

The work to be taken up tomorrow is the preparation of a brief statement of the church's doctrine for popular use. Several days may be required to complete this statement, and it is possible that the committee will not adjourn until late in the week.

Only sixteen members of the committee will sit in the remaining sessions, as five of its members are now absent. Those absent today were the Rev. Dr. Henry Van Dyke of Princeton and John E. Parsons of New York. The Rev. Dr. William McKibbin of Cincinnati left Philadelphia tonight for his home. The other absentees are Justice John M. Harlan and the Hon. John W. Foster of Washington.

PREPARATIONS BEGUN FOR SCIENCE MEETING

Carnegie Museum Officials Will Make Special Exhibits for the Coming Convention.

Preparations have already been begun at the Carnegie museum for the session of the American Association for the Advancement of Science, which meets in Pittsburgh the last week in June and first of July. The delegates in attendance at the convention will be entertained at the Hotel Schenley, and although it has not yet been definitely decided where the business sessions of the association will be held it is believed Carnegie music hall will be secured for the purpose.

The meeting will bring to Pittsburgh between 500 and 1,000 of the most scientific men in the United States and during the convention these men will visit the Carnegie museum. For their sole entertainment and study special exhibitions are being gotten ready to be placed in the museum halls.

Director Holland is arranging for a special exhibition of moths and specimens of butterflies which will be shown, and Prof. J. B. Hatcher is completing some new work on the dinosauer family which he will have placed on view.

Among the scientists are many of the most prominent entomologists in the country, and for this reason a special display of the specimens of entomology will be made. The botanical collection of the museum, which is regarded as one of the finest in the country, is also being rounded into shape and will be exhibited. This collection comprises over 100,000 specimens, many of which are very rare and valuable.

The third series of the Carnegie museum annals will make its appearance shortly. In the publication will be scientific articles by Director Holland, Curator Hatcher and Entomologist Smith. The manuscript is now in the hands of the publishers, and is expected to appear by the first of March.

PROF. CHILD'S LECTURE.

Third of a Series on Seventeenth Century Literature Delivered Before University Society.

Prof. Clarence G. Child of the University of Pennsylvania delivered the third lecture in his course of study on seventeenth century literature before the University Extension society in the Carnegie lecture hall last night.

He took up the great increase in the writing of plain prose in England during the seventeenth century, owing to the interest in history and foreign travel, due to England's new colonial ventures as well as to the religious controversy, and the growing appreciation of current comment upon affairs of the day. Prof. Child considered it, in fact, the beginning of journalism.

The invention of the essay by Montaigne and its general adoption in England was then referred to with special references to Burton and his "Anatomy of Melancholy," Sir Thomas Browne as one of the greatest stylists in any age, and Izaak Walton and his "Compleat Angler."

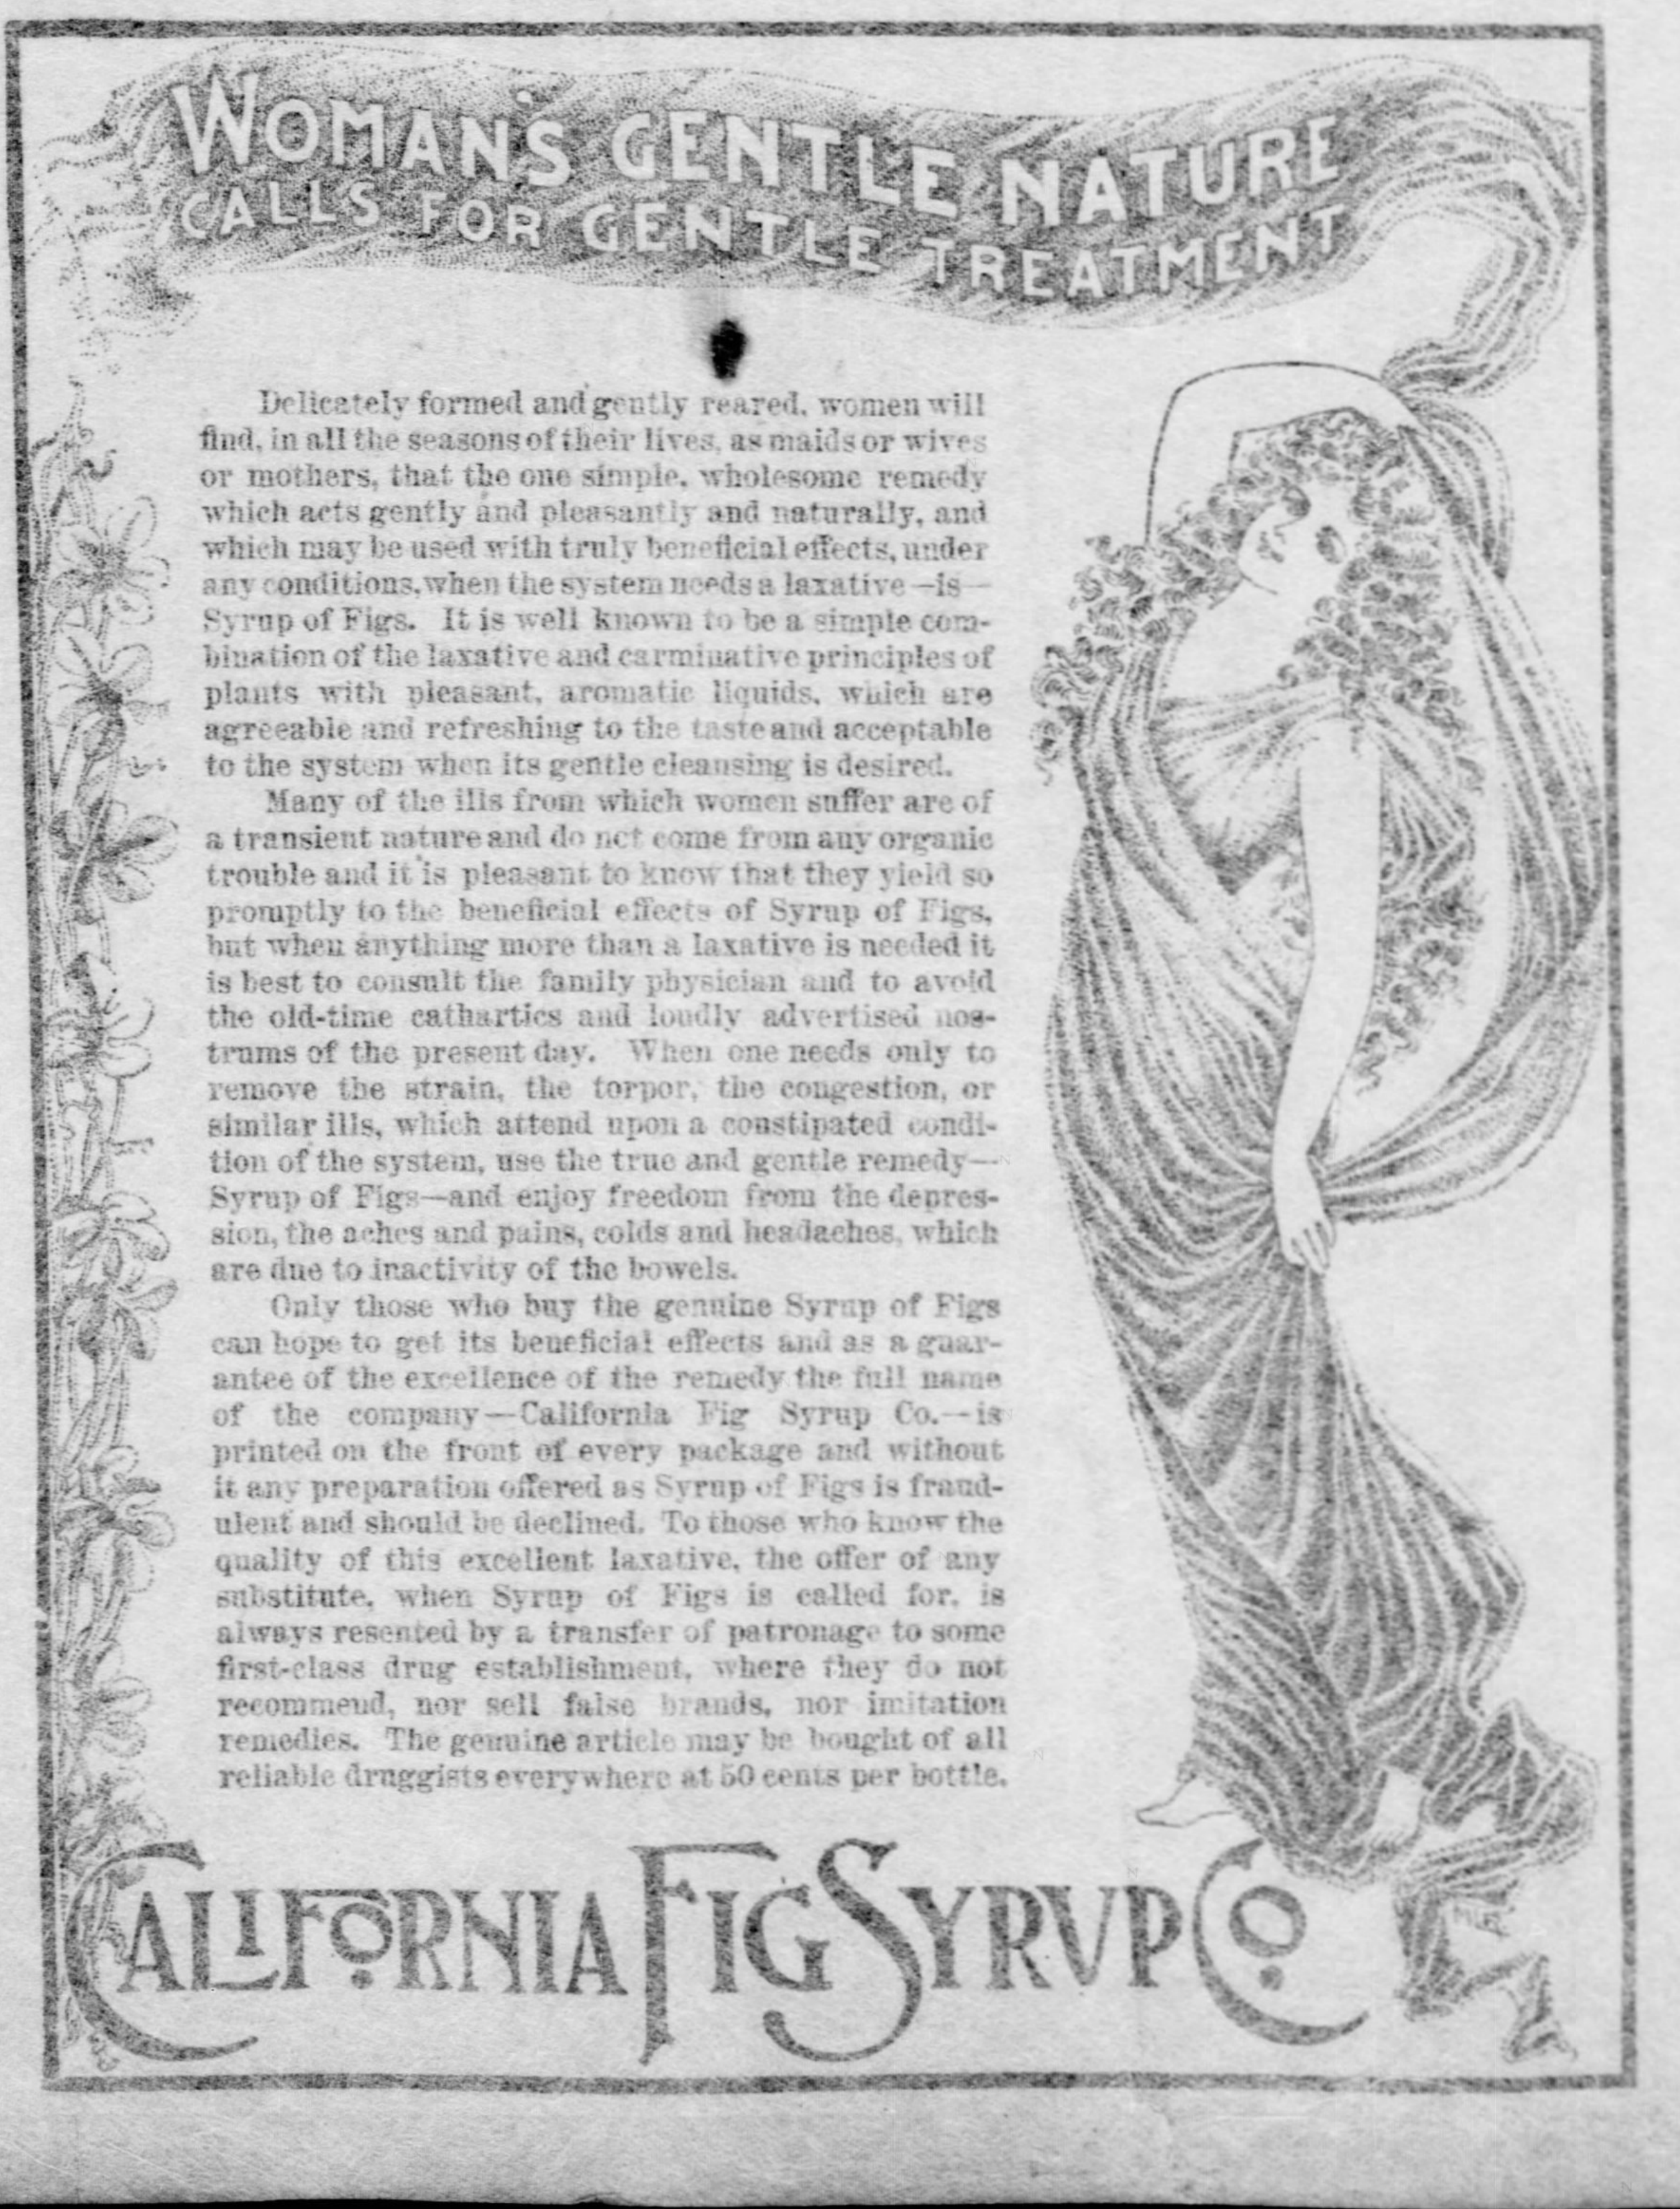
During the lecture Prof. Child showed a stereopticon view of a comical volume, the first English dictionary. He contrasted this with the new English dictionary.

YELLOW OLEO TO BE TAXED.

Important Amendment to Be Added to Bill in the House.

WASHINGTON, D. C., Feb. 10.—Throughout nearly the entire session of the senate today the Philippine tariff bill was under consideration.

General debate on the oleomargarine bill was closed today. The friends of the bill have decided to offer an amendment to make the 10-cent tax apply to oleomargarine in imitation of butter "of any shade of yellow." The amendment is designed to meet the charge of the opponents of the bill that without this amendment the language of the bill might be construed to absolutely prohibit the sale of oleomargarine.



WOMAN'S GENTLE NATURE CALLS FOR GENTLE TREATMENT
CALIFORNIA FIG SYRUP CO.

Delicately formed and gently reared, women will find, in all the seasons of their lives, as maids or wives or mothers, that the one simple, wholesome remedy which acts gently and pleasantly and naturally, and which may be used with truly beneficial effects, under any conditions, when the system needs a laxative—is—Syrup of Figs. It is well known to be a simple combination of the laxative and carminative principles of plants with pleasant, aromatic liquids, which are agreeable and refreshing to the taste and acceptable to the system when its gentle cleansing is desired.

Many of the ills from which women suffer are of a transient nature and do not come from any organic trouble and it is pleasant to know that they yield so promptly to the beneficial effects of Syrup of Figs, but when anything more than a laxative is needed it is best to consult the family physician and to avoid the old-time cathartics and loudly advertised nostrums of the present day. When one needs only to remove the strain, the torpor, the congestion, or similar ills, which attend upon a constipated condition of the system, use the true and gentle remedy—Syrup of Figs—and enjoy freedom from the depression, the aches and pains, colds and headaches, which are due to inactivity of the bowels.

Only those who buy the genuine Syrup of Figs can hope to get its beneficial effects and as a guarantee of the excellence of the remedy the full name of the company—California Fig Syrup Co.—is printed on the front of every package and without it any preparation offered as Syrup of Figs is fraudulent and should be declined. To those who know the quality of this excellent laxative, the offer of any substitute, when Syrup of Figs is called for, is always resented by a transfer of patronage to some first-class drug establishment, where they do not recommend, nor sell false brands, nor imitation remedies. The genuine article may be bought of all reliable druggists everywhere at 50 cents per bottle.

AN ORDINANCE—Regulating street parades, processions and street assemblies.

Section 1. Be it ordained and enacted by the select and common councils of the city of Allegheny, and it is hereby ordained and enacted by the authority of the same, That all street parades, processions and street assemblages, occupying, marching or assembling upon any street, lane, alley, highway, wharf or public square of the city of Allegheny to the exclusion or interruption of other citizens in their individual right of the use thereof, excepting posts of the Grand Army of the Republic, the national guard of the state of Pennsylvania, funeral processions and the fire and police forces of the city of Allegheny, are forbidden, unless permission be granted therefor by the superintendent of the bureau of police, which permission shall only be granted upon written notice of the object, time, route or place of such procession, parade or assemblage and the character and purpose thereof, and the names and places of residence of the officers of the same being given to the said superintendent of the bureau of police by the chief officer thereof, not less than twenty-four hours previous to its forming, marching or assembling; and, to protect the business interests of the citizens, prevent delay in travel and preserve the peace and good order of the city, the said superintendent of the bureau of police shall have the power, and it shall be his duty, subject to the approval of the director of the department of public safety, to designate to such procession or parade, how much of the streets, lanes, alleys, highways, wharves or public squares it can occupy and to assign to such assemblages such place or places as in his judgment will least interfere with the rights of the public, and, if parade or procession, the time of starting, the length of time of such parade or procession, and the route of such parade or procession shall be determined upon by the superintendent of the bureau of police and approved by the director of the department of public safety, and when so designated and approved, the proper officers of said parade, procession or assemblage, shall be responsible that the designation and limitation set out are obeyed and complied with, and it shall be the duty of the said superintendent of the bureau of police to furnish such escort as may be necessary to protect persons and property and maintain the public peace and good order of the city.

Sec. 2. Any person or persons violating any of the provisions of this ordinance shall be punished by a fine of not less than twenty-five dollars nor more than one hundred dollars for each offense, and in default of payment of said fine and costs, shall be committed to the common jail of Allegheny county or the Allegheny county workhouse for a period of not more than thirty days.

Sec. 3. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Baseball Rules Are to Be Made Uniform

JOINT RULES COMMITTES ARE DOWN TO WORK

National, American and Minor League Officials Meet In Buffalo.

FREEDMAN PARTY ABSENT

A. G. Spalding Sent Word and Hopes for Harmony in the Matter of Rules—The Foul Strike Rule Has Been Revised—Other Changes.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

BUFFALO, N. Y., Feb. 10.—Representatives of all the baseball leagues of the country met here today to revise and establish the playing rules on a uniform basis and to have them so worded that they may be easily understood by amateurs and professionals alike.

The meeting was organized by the original committee, which was composed of James A. Hart of the Chicago National league, J. F. Kilfoyle of Cleveland and Connie Mack of Philadelphia of the American league; M. H. Sexton of Rock Island, Ill., president of the Three I league; Tim W. Murnane, president of the Eastern league and also president of the National Association of Baseball leagues; A. J. Reach of Philadelphia; "Father" Chadwick, an honorary member of all baseball leagues; John H. Farrell, president of the New York State league and secretary of the National Association of Baseball Leagues; Frank Dwyer, manager of Detroit; W. H. Watkins of Indianapolis and H. D. Queen of Milwaukee, representing the American association known as the outlaw league, were invited to attend the meeting.

Foul Strike Rule Discussed.

The following message from A. G. Spalding was read:

"In the interest of professional baseball and as an argument in favor of future joint conferences of rival baseball interests, I sincerely hope all participants in this Buffalo meeting will realize their responsibilities and harmonize individual views for the special purpose of forming a uniform code of playing rules that will best serve our national sport."

The rule which caused the most discussion was section 3 of rule 44, defining when the umpire shall declare a foul a strike. At midnight the revision agreed upon provided that when a ball falls or settles on foul grounds inside or on the line of the territory described by a line drawn through first to third bases at right angles with an imaginary line drawn from first to second bases and extending on each side to the limits of the field, it shall be arbitrary with the umpire to call it a strike. It shall remain discretionary with the umpire to call a strike or a foul when the ball goes into foul territory outside the line drawn through first and third bases to the limits of the field.

Pitchers Given Warm-Up Time.

A line was added to section 1 of rule 52, allowing the pitcher not more than one minute to deliver not exceeding five balls to warm up.

Rule 17 was amended so that the catcher must stand within 10 feet of the plate throughout the game, and rule 3 is changed to conform with this amendment.

To make rule 30 more comprehensive the words "in which case the umpire shall call a strike" are added.

In rule 52 the word "after" is substituted for "and," making the rule read: "If the ball is thrown by the pitcher to any player other than the catcher (except to retire a base runner), after the batsman is standing in his proper position ready to strike a pitched ball, each ball so delivered shall be called a balk."

TONIGHT'S BIG GAME.

Keystone and P. A. C. Will Meet in the Cup Deciding Contest of the Season.

More interest is centering in the hockey game tonight between Keystone and P. A. C. than has attached to any Western Pennsylvania league contest of the season. If Keystone wins the Bicycle club will have the championship honors practically cinched for the present season and the red and white of P. A. C., which colors have emblazoned the ice championship ever since hockey was introduced here, will for the present, at least, be in the background.

If Keystone wins tonight the only way the Bankers can even tie the present leaders is by winning every remaining game of the season, while Keystone would have to lose all.

What intensify the importance attaching to the game itself are the strong team work and fast form displayed by P. A. C. on Saturday night when the Quaker City was defeated by the record score of the season.

The Keystone enthusiasts claim not to be in the least worried by the P. A. C. form against the Philadelphians and say it was simply another case of a weak, unresisting team before P. A. C.'s star skaters and that it will be a different thing to carry that fast team play of the forward line through with the Keystone skaters there to break it up.

Where Keystone has the greatest advantage, on which it is relying most of all, is in Horn at goal. Some of the Keystone players are out of shape and it was stated yesterday that it was not yet decided whether Peel would be played for a forward or at point.

HARVARD'S STAR ATHLETES.

Yale Charges Three of Them With Being Professionals and Will Prove It.

NEW HAVEN, CONN., Feb. 10.—(Special.)—Yale has made serious charges against three of Harvard's star athletes, Capt. Campbell, Bob Kernan and A. W. Ristine, that they are professionals. Yale has been collecting evidence relative to the amateur status of these three men, but will not now give an official statement beyond the fact that the athletic authorities are collecting evidence. It is stated, however, that indisputable proof has been found against them.

The Yale football management questioned the status of these three players a week before the Yale-Harvard game, but Harvard assured them there was nothing wrong.

Mike Murphy, however, in charge of the investigation, has found some evidence pointing to Kernan's having received money for pitching baseball in Oneida county, New York. Capt. Campbell is alleged to have taught athletics at a Lake Sunapee, N. H., summer school, giving receipts, as Cutts did. Ristine is charged with having played football at Wabash college, Indiana, for four years, and being therefore ineligible. Evidence against Ristine is regarded convincing.

THE TROTTING CONGRESS.

Will Meet in New York and Discuss the Rules.

NEW YORK, Feb. 10.—The biennial conference of the National Trotting association will be held at the Murray Hill hotel next Wednesday for the purpose of electing officers and amending the rules which will govern harness racing on eastern tracks for two years.

The session bids fair to be one of the most important and interesting in the history of the National Trotting association.

The rules committee will meet today to consider the proposed amendments to the turf code which were agreed upon last month by the joint conference committee of the National and American Trotting associations. It is expected that the rules committee will report favorably to the congress on Wednesday all the recommendations of the conference, with the probable exception of the proposition to move the distance flag ten yards nearer the wire in all races.

BOYS TRIED OUT IN SKATING RACES

QUALIFYING HEATS FOR THOSE UNDER SIXTEEN HELD.

Allen Bright Wins Favor by Lapping the Bunch and an Easy Victory—F. H. Spuhler Won in the Closest Finish of the Night.

The amateur skating races were initiated at Duquesne garden last night before an enthusiastic crowd of friends and relatives of the boys under 16 who were the participants in the opening events. The air of local interest which pervades these races is one of the strongest features of the contests.

Only the qualifying heats were decided last night at half-mile distance, there being four heats with three eligible in each. The semi-final and final heats will be decided on Wednesday evening. In all there were 26 starters in the races last night and the spectators had a chance to yell themselves hoarse over the spirited efforts of the youngsters before the last boy had crossed the tape. The half-mile distance was furnished by four and a half times around the rink.

Bright Showed Fine Speed.

The best skating of the evening and the fastest time were offered by Allen Bright, who not only won the second heat in 1:45, five seconds under the next best time, but accomplished the feat of lapping his opponents on the half-mile amid the cheers of the spectators. He is a very graceful little skater, and is the chief favorite for first honors now, though Frank H. Spuhler, who won the fourth heat in the closest finish of the evening, is picked by many on account of his sprinting abilities.

The first heat of the evening with six starters was won by E. J. Reisfar in time of 1:53. The winner had an easy time of it and showed good headwork by allowing the squad to pace him and then lighting out when home was in sight.

In the third heat Alfred C. Moore, 15 years of age, won with great ease, but in a not overly graceful manner, seeming to find trouble in turning the corners without taking part of the fence with him.

In the fourth and last heat, which was won by Frank H. Spuhler, a 15-year-old High school entry, furnished the only close finish of the evening. The three qualifying were bunched as they turned into the stretch and Spuhler won by a foot or two.

Nilsson Is Very Clever.

Nilsson gave an exhibition of speed skating and trick jumping over chairs and barrels and tables, but tripped on the table and was seemingly rather badly hurt in his fall. He won special applause by jumping from one foot backward over a chair.

Summary of races, three qualifying in each heat:

First heat, won by Reisfar; Henry Miller second, McFarland third; Regan, Davis and Henry also skated. Time, 1:53.

Second, won by Allen Bright; Corbin second, McAlister third; Cunningham, Fulton and Campbell also skated. Time, 1:45.

Third heat, won by A. C. Moore; Russel second, McIlwain third; Haggerty, Wilson, Finnerty and Detchon also skated. Time, 1:52.

Fourth heat, won by F. H. Spuhler; Callahan second, Mueller third; Murray, Dowling, Cook and Curran also skated. Time, 1:50.

DOING LIVELY WORK.

McGovern Gets a New Sparring Partner and Has a Fast Bout.

CINCINNATI, O., Feb. 10.—(Special.)—Terry McGovern today started to do some hard training, which will last up to within two days of his fight with Sullivan. Eugene Bezenah, a local pugilist, has been engaged as his sparring partner, and the two boys put in four exceedingly lively rounds in the gymnasium this afternoon.

Bezenah is about 15 pounds the heavier and is very handy with the mitts, but not a hard hitter. After the bout both boys were pretty well winded and McGovern expressed himself as being very well pleased with his new sparring partner. Bezenah was instructed not to lead for the face, as Terry's nose will not stand punching yet, but he landed several good blows on the back of the head. The boys clinched a great deal and wrestled around the floor in every round. Terry more than held his own, however. Terry said: "There is no reason why I should not be in better condition than ever before. I have never trained half as long for a fight as I have for this one, and, I might say, half as hard. Heretofore I have jumped right off the stage, taken from 10 to 12 days' training and gone into the ring. This time I will have been in actual training for 27 days, and if I lose, it will not be from not being trained. I have not the slightest idea, however, that I will lose."

ITTEL'S STRONG SHOOTING.

The Iroquois Expert Made Four Fine Targets in the Club's Weekly Shoot.

The strong shooting of L. P. Ittel is still the feature of the competition on the range of the Iroquois Rifle club. In medal and record match shoots his lowest has shown the strong score of 246 out of a possible 250, 10 shots at 75 feet. He counted 3 targets of 246 and one of 248. R. F. Phillips also did good shooting with nothing below 240 out of eight targets. His highest score was 246. The scores:

Medal match—A. F. Hofmeister, 231, 235; R. F. Phillips, 246, 243, 245; A. F. Hofmeister, 239, 237; A. Huebner, 237; K. N. Zoeller, 226, 228; L. Kenlinheisen, Jr., 221; R. Rahm, 231, 237, 241; Dr. Jacques, 242, 242; R. T. Phillips, 244, 240, 242; A. F. Hofmeister, 235, 233; A. Huebner, 237, 244, 244; B. Kannard, 231; K. W. Zoeller, 229, 221; R. Rahm, 236, 234, 235; L. Kenlinheisen, Jr., 228, 232; L. P. Ittel, 246, 246, 248.

Record match—R. F. Phillips, 244; A. F. Hofmeister, 231; A. Huebner, 231; Dr. Jacques, 242; R. T. Phillips, 243; A. Huebner, 244; A. F. Hofmeister, 226; B. Kannard, 213; L. P. Ittel, 246.

STILL HARD AT WORK.

The Chess Masters Continue Play—Pillsbury Won Another Game.

MONTE CARLO, Feb. 10.—Four games in the fifth round of the international chess tournament had been completed when the time arrived for the first adjournment today. The winners were: Tarrasch from Mieses, Pillsbury from Schlechter, Napier from Mortimer and Gunsberg from Marco.

When play was given over for the day following additional results had been recorded: Maroczy drew with Mason, Janowski won from Albin and Popiel from Reggio; Eisenberg and Teichmann drew and Scheve won from Tschigorin. The sixth round will be played tomorrow morning.

TALENT GOT AN AWFUL SHOCK AT NEW ORLEANS

Navasota's Tumble at the Start Lost the Knowing Ones a Lot of Money.

LONG SHOT A WINNER

Gold Ornament Had Shown Good Practice Work, but the Wise Boys Would Have None of It, and Dropped Their Cash in Piles.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

NEW ORLEANS, Feb. 10.—Navasota's tumble at the start in the St. Charles hotel stakes today was the hardest blow the talent has yet had. The filly fell to her knees, throwing Jockey Landry over her head. Both the boy and his mount escaped injury.

The stake was worth $1,165 to the winner. Navasota, backed from two to 8 to 5, was at all times choice in the betting, while Gold Ornament, despite reports of good work, was held at the long price of 25 to 1. With much the best of the start, Gold Ornament led all the way and won by two lengths, though Brennan rode her out at the end to beat Merry Sister, who was bearing her down. Musical Slipper and Princess Tulane, the second choices, were never prominent. Grantor and Intrusive were the only winning favorites. The weather was cool and clear; track good. Summary:

Where the Balloon Went Up.

First race, selling, mile—Balloon, 107, Landry, 12 to 1, won; Josie F. 98, Truden, 7 to 1, second; Azua, 106, T. Dean, 25 to 1, third. Time, 1:42½. Masterful, Hayward Hunter, Larry C. Zack Phelps, Rose of May, Frank Jones and Sir Kingdom ran. Frelinghuysen broke down.

Second race, six furlongs, selling—Grantor, 100, T. Dean, 7 to 5, won; Ogle, 99, J. Waldo, 9 to 2, second; Lofter, 96, Helgeson, 18 to 5, third. Time, 1:14½. Pharoah, Emma A. M. and Lingo ran.

Third race, steeple chase, handicap, short course—King Elkwood, 127, C. Johnson, 16 to 1, won; Miss Ransom, 138, Wilson, 4 to 1, second; Bristol, 160, Penn, 9 to 5, third. Time, 3:07. Cantada and Cola ran.

Fourth race, St. Charles hotel stakes, 4 furlongs—Gold Ornament, 103, Brennan, 25 to 1, won; Merry Sister, 110, Lyne, 5 to 1, second; Wilton, 115, Odom, 16 to 1, third. Time, 48½. Imp. Lady Winkle, Musical Slipper, Step Onward, Princess Tulane, Sweet Nell and Flash of Lightning ran. Navasota unseated her rider.

Fifth race, mile and 70 yards, handicap—Intrusive, 119, Odom, even, won; Reseda, 94, G. Thompson, 4 to 1, second; Piederich, 108, Walsh, 4 to 1, third. Time, 1:45. Silver Coin ran.

Sixth race, mile and one-sixteenth, selling—Pirates Queen, 91, Boyd, 4 to 1, won; Little Tommy Tucker, 96, Wallace, 10 to 1, second; Frank McConnell, 103, Brennan, 4 to 1, third. Time, 1:49. Locust Blossom, Grey Morn, Menace, St. David and Clearfield ran.

The Entries for Tuesday:

First race, five furlongs, selling—Chickadee, You You, 97; Herodes, Man, 99; Insolence, Julia Junkin, The Fashion, 102; The Four Hundred, 104; Postillion, Sam Houston, Early Regent, Atonement, 107.

LONG SHOT WINNERS.

There Were Several Bad Upsets at Oakland.

SAN FRANCISCO, Feb. 10.—The track was very bad at Oakland today and there were several upsets. Among the winners were Loyal S and The Gaffir, 12 to 1 chances. In the third event Marcato was an even money favorite, but the heavy going bothered him and he was beaten a nose by Castake, with Willie Knapp in the saddle. In the fifth race, won by Dr. Boyle, there was a strong play on Barnato, who made his first appearance, but he failed to show any speed. Jockey Hoar won two races. Summary:

First race, mile, selling—Loyal S, 111, Conley, 12 to 1, won; Arigato, 87, J. Daly, even, second; Graylette, 111, Waterbury, 100 to 1, third. Time, 1:48¼. Marello, Rinaldo, Koenig, Intrada and Kastaine also ran.

Second race, futurity course, selling—The Weaver, 111, O'Connor, 6 to 5, won; Maraschino, 108, Burns, 2½ to 1, second; Vassalo, 114, Bullman, 7 to 1, third. Time, 1.14¾. Sir Claus, Lento, Tufts, Halmett, Lunga and Baldo also ran.

Third race, seven-eighths mile, selling—Castake, 89, Knapp, 4 to 1, won; Marcato, 117, Bullman, even, second; Flamero, 117, L. Jackson, 3½ to 1, third. Time, 1:31. Monda, Burdock, Rasp and Harry Thatcher also ran.

Fourth race, mile, selling—The Gaffir, Hoar, 12 to 1, won; Decoy, 115, Burns, 4 to 5, second; Chandoo, 96, L. Jackson, 5 to 1, third. Time, 1:47½. El Mido, Casdale and Esternell also ran.

Fifth race, six furlongs, selling—Dr. Boyle, 117, Bullman, 2 to 1, won; Bard Burns, 114, McGinnis, 3 to 1, second; Tiburon, 117, Burns, 6 to 1, third. Time, 1:17. Magazine, Barnato, George Dewey, The Miller and Scalywag also ran.

Sixth race, futurity course, selling—Educate, 102, Hoar, 2 to 1, won; Clarando, 106, L. Jackson, 8 to 1, second; Alzura, 102, Troxler, 6 to 1, third. Time, 1:14. Reina de Cuba, Silver Fizz, Foul Play, Onyx and Mountain Dew also ran.

Entries for Tuesday:

First race, eleven-sixteenths mile, selling—Idalette, February, 106; Hilary, William F, 108; Idaho Chief II, El Karn, Forbes, Graylette, 104; Phil Archibald, 107; Aizora, Screenwell Lake, Katherine Ennis, 102.

Basketball Notes.

The Pittsburgh team will go to Steubenville, O., tonight with the following lineup: Forwards, C. Kramer, Dixon and Weitzel; center, Swiggins; guards, Coffey, Land, M. Roesser and Mucker; referee, Fred Roberts.

The basketball game between Carnegie high school and Homestead high school at Homestead for this evening has been postponed until Thursday evening, when it will be a preliminary to the H. L. A. C.-Steubenville game.

Manager MacFadyean of the D. C. & A. C. basketball team made arrangements yesterday with the Pennsylvania Company for a special train and a special excursion rate from Steubenville for the fans who wish to see the opening game in the series for the championship between D. C. & A. C. and Steubenville at the Homestead Library gymnasium next Saturday evening.

NEW BASKETBALL LEAGUE FORMED

FOUR TEAMS RETAINED AND SEASON WILL BE FINISHED.

Duquesne, Bellefield, Allegheny and Pittsburgh Teams Will Play Their Games at Old City Hall—A Schedule Is Being Arranged.

At a meeting in President Barbour's office yesterday afternoon the Western Pennsylvania Basketball league was reorganized as a four-club affair, which will finish the season with a new schedule of games to be played at Old City hall.

The four clubs included in the new organization are the Duquesne, Bellefield, Allegheny and Pittsburgh teams, the Sharpsburg and Carnegie Steel being dropped. As will be remembered, the six-club league made a rather unfavorable beginning in December at Duquesne garden, and after a month's trial with the worst kind of weather, was prevented from continuing the schedule owing to a rewiring of the hall being necessary. It was from time to time announced that the game would be resumed at Duquesne garden, but for some reason the move was never made, and now the league has made another venture.

Since the game was dropped at Duquesne garden the different teams which have been playing independent exhibition games have found the sport well patronized. A new schedule is being arranged and will be announced before the end of the week.

The Junior league games will be played in conjunction with the major organization and the first bill will be offered next Tuesday night, with Pittsburgh and Allegheny or Pittsburgh and Bellefield as chief attraction. The schedule will extend into April.

The tip has leaked out from the inside camp of the wily Steubenville basketball players, who are straining every nerve to retrieve the defeat of Saturday night by Allegheny, that a march has been stolen on the champion Duquesne five, which is to be met in the first game of a series on Saturday night. According to the statement the Ohio players have closed for a game with Homestead for Thursday night, and then instead of returning to their native town will remain over and will practice on Friday and Saturday in the Homestead gymnasium, getting ready for the Duquesnes on Saturday night.

FOUGHT ON THE TRACK.

Finnerty and Guerrero Had a Fist Fight in Garden—Police Had to Be Called.

NEW YORK, Feb. 10.—Tom Finnerty of the Williamsburg team in the six-day walking match at Madison Square garden and Gus Guerrero, the Cuban, had a fist fight on the track early this evening. Finnerty claims Guerrero tried to shove him from a position near the rail; at any rate, Finnerty turned suddenly on the Cuban and knocked him down. Then the two went at each other. The garden was in an uproar and all the racers stopped. The police interfered and the walkers got down to walking again, but as Guerrero passed Finerty on a spurt the Cuban struck him in the face. This started another fight but the police again interfered and then the match was resumed.

August T. Horst, the Australian, after putting up a good fight to remain in the race with a bad ankle and a badly blistered foot, fainted on the track late this afternoon owing to the pain, and had to be carried to his dressing room. Diehl, his partner, relieved him at once.

The score of the first ten teams at 9 o'clock tonight follows:

	Miles.	Laps.
Hegleman-Cavanaugh	148	7
Davis-Carroll	144	7
Shelton-Guerrero	141	0
Fahey-Metkus	131	9
Golden-Tracey	131	7
Hurst-Horst	129	1
Glick-Howarth	128	1
Normac-Cartwright	126	9
Dean-Campbell	126	1
Abbott-McTague	122	9

MUST KEEP ON WALKING.

One Pittsburgher Among the List of Stranded Pedestrians at Rochester—Race a Failure.

ROCHESTER, N. Y., Feb. 10.—(Special.)—George Barclay of Pittsburgh, Pa., is one of the 11 winners of the six-day heel and toe match who gets nothing for his efforts. All the men are stranded here and unless the various hotel proprietors are willing to accommodate them gratis they will probably have a longer walk ahead than was thought for at the commencement of the race.

The contest, which started last Monday at Fitzhugh hall, was a failure financially. The total amount of money taken in at the door was just $293.25, while the bills ran up to $302. It would seem that William A. Hoagland, champion heel and toe pedestrian of the world and promoter of the affair, had counted too much on the love for sport of Rochesterians. Hoagland, who finished first place, mourns the loss of $60 of his own money, besides his per cent of the winnings. He declared it was the last race of its kind he would ever be in.

Although the state of affairs was known to the men early in the week, they had not a doubt but that there would be money enough left to carry them home. Now they are kickers degenerated from walkers.

ERNE'S QUEER ACTION.

Departed From Philadelphia and Did Not Meet Gans—Trouble Over Money.

PHILADELPHIA, PA., Feb. 10.—Frank Erne of Buffalo failed to put in an appearance at the Penn Athletic club tonight, where he was to have met Joe Gans of Baltimore in a six-round boxing bout. Erne arrived here in the afternoon accompanied by his backers and trainers, and at 6 o'clock the entire party left for New York without notifying the club management or explaining their action to any one. There was a fair house at the club tonight, but when it was learned that Erne had left town the management returned the admission money to its patrons. It is said that Erne was not satisfied with the prospect of obtaining the money that had been promised him for the bout.

THIRD TEAM ALL RIGHT.

Manchester Seems to Be a Winning Name.

The Manchester III. team didn't do a thing but wallop the Riverview basketball team at Manchester last night. It was Manchester III.'s first game under that name, and they certainly did make it look like a Manchester Jr. score. Their team work was invincible and their shooting for baskets superb. Six hundred madly enthusiastic rooters howled their appreciation for the new team and voted it a corker. Referee Little introduced each member.

The big game was forfeited to Manchester upon the non-appearance of Carnegie, by the score of 2 to 0. Score and line-up of first game:

Manchester III.—53.		Riverview.—5.
Tannehill	Forward	Robin
O'Neil	Forward	Caplan
Thompson	Center	Crawford
King	Guard	McKown
Hassler	Guard	Hunter

Goals—Tannehill 7, O'Neil 5, Thompson 8, King 8, Hassler 2, Crawford 1. Goals from foul—Tannehill 3, McKown 3. Referee—Little. Scorer—H. Roth. Timer—J. Gray.

High School Team Outclassed.

INDIANA, PA., Feb. 10.—(Special.)—Pittsburgh High school met defeat at the hands of the Indiana Athletic association tonight on the latter's floor. Indiana completely outclassed their opponents and had no trouble in running up the large score of 37 to 10. Line-up:

P. H. S.—10.		I. A. A.—37.
Orr	Left forward	G. McCreight
M. G. Crory	Right forward	Edmundson
Nickel	Center	St. Clair
Morgan	Left guard	C. McCreight

RIVER INTERESTS

[SPECIAL TELEGRAM TO THE GAZETTE.]

CINCINNATI, O., Feb. 10.—The river at 6 p. m. marks 16.8 feet, falling slowly, and is bank full of ice, which is pretty well broken up by coming in contact with the piers of the bridges. Weather clear, cold, but moderating. The following boats are laid up here for the ice to run out: Sunshine, Bonanza, Virginia, Queen City, Keystone State, Tacoma, Lizzie Bay, H. M. Stanley, Indiana, City of Louisville, Courier, Jack Frost and Douglas Hall. The J. B. Lewis is at Coal Harbor, where she will lay until the ice gets lighter. The Hercules Carroll towed the Greener up to Coal Harbor today from below. The Sam Clark and Tom Dodsworth are laid up in the Kentucky river with tows of empties, intended for Pittsburgh. Capt. Newton Cooper, aged 84, a veteran river man, died at the hospital here last night. For several years he has suffered from a cancerous growth which finally caused his death. He was a resident of Maysville, Ky. The Relief continued to do harbor work today despite the ice. The Henry Debus assisted the J. B. Lewis in distributing her tow today.

EVANSVILLE—The river is falling slowly and stands 25.4 feet. Weather cloudy, colder, snow flurries. Navigation completely suspended. Jewel, Hopkins and several towboats went into winter quarters in Green river. J. B. Finley, down with tow, helped through the Henderson bridge by Cruiser and Frisbie. Morning Star for Louisville. Transfer boat DeKoven towed the Henderson, a wharfboat, into Green river. Speed due down during the night. Wabash river still frozen over. Heavy ice passing.

LOUISVILLE—River business is entirely suspended here on account of the heavy flow of ice and no craft is moving except the ferryboats. It is expected they will be compelled to discontinue tomorrow. The City of Cincinnati has gone into the canal for safety. It is said by experienced river men that these conditions will prevail for several days. River falling slowly, with 8 feet 8 inches in canal, and 6 feet 6 inches on the falls.

PADUCAH—River 32.8 feet and falling. Weather clear and cold. The Dick Fowler left at 8:30 for Cairo. The Joe Fowler and John S. Hopkins, Evansville packets, have been laid up by ice. The W. H. Buttorff left at noon for Clarksville. Editor William Arste of the Waterways Journal, St. Louis, is here on business. The City of Clifton returns to Tennessee river tomorrow. Capt. Sam Schroder's recovery seems assured and today his youngest son left for home. The J. M. Bowells left for the Tennessee river today. The Wilford brought a trip of ties out of the Cumberland river. The Oakland passed down today with a tow of coal. The Mary Stuart arrived from Elizabethtown, Ill.

MEMPHIS—The river stands 25.4 feet on the gauge, a rise of .3 in 24 hours. The Kate Adams departed at 5 p. m. for Arkansas City with a good trip. The James Lee departed at 5 p. m. for Friars Point. The Sadie Lee left for Ashport; the Fred Herold arrived this evening from Cairo and returns tomorrow, the Lucille Nowland arrived this evening from Arkansas river and returns tomorrow.

CAIRO—The gauge reads 33.8 feet, a fall of 1 foot. Weather clear and cold. The Jacob Heatherington and tow of logs arrived from the lower river last night. The T. H. Burham and empties passed down the Mississippi out of the Ohio. The Oakland and tow passed out of the Ohio to New Orleans at 4 o'clock this evening. The Georgia Lee is due from Memphis. The Fritz arrived from below last evening. The Herman Paepcke arrived from below last evening with three barges of logs. The Charlotte Boeckler arrived yesterday with a barge of wood for Cincinnati.

WHEELING—River 5 feet 9 inches and stationary. Still full of heavy ice. Clear and cold.

MARIETTA—River 5.4 feet and falling. Cloudy and warmer.

BROWNSVILLE—River 5 feet 9 inches and stationary and closed. Weather cloudy.

GALLIPOLIS—River 9 feet and falling. Weather cloudy and cold.

PARKERSBURG—River 8 feet and falling. Weather cloudy and warmer. No boats. The Oneida, which was sunk at Creston recently, was raised today and almost immediately sunk again. The cargo was also carried down again. A second attempt is being made to raise her.

STEUBENVILLE—River 4 feet 10 inches and falling. Weather clear and cold.

GREENSBORO—River 7 feet 6 inches and falling and closed. Weather cloudy and cold.

MORGANTOWN—River 9 feet and closed. Weather cloudy and cold.

OIL CITY—River 3 feet 2 inches and rising. Weather cloudy and cold.

POINT PLEASANT—River 7 feet 8 inches and falling. Full of heavy ice. Weather cold and snowing. No boats.

WARREN—River one foot. Weather fair and cold.

COAL FAMINE THREATENED.

The Stock on Hand at New Orleans Said to Be Limited.

If the weather does not soon moderate there may be a coal famine at New Orleans, at least that is the way a local operator expressed it yesterday. The shipments to New Orleans are far behind the average run and the demand for fuel is great. Only three towboats are now on their way south with fuel and one of these is owned by the Peoples Coal Company.

The strike of the towboat pilots, it is said, cut down the shipments to a considerable extent and this fact coupled with the cold weather conditions has retarded shipments. The Ohio river is now full of ice and the stream is falling, so that unless there is a sudden change in the weather no coal can be moved for the far south. Towboats arriving at Louisville have been forced to the bank and steamers en route to Pittsburgh have been compelled to quit.

Not much relief is offered by the weather man, but if a warm spell should come there is enough snow on the ground to cause a very substantial rise. The last coalboat stage of water in the Ohio river was caused chiefly from melted snow and the height of the water attained was a surprise to the rivermen.

News of the Rivers.

The towboat Kuttawa which sank several days ago at Paducah, Ky., has been raised.

The City of Pittsburgh will arrive at Cincinnati today and will leave for Memphis tomorrow, her regular day.

Capt. James A. Henderson and wife, who have been in New York for several days, are expected home from there this morning.

The Pittsburgh towboat Iron Age did harbor work at Louisville while the towboat Fulton was laid up, making repairs to her wheel.

Capt. W. L. Sibert, the local government engineer who has been in Washington several days, will be found at his office in the Federal building this morning.

Over 2,000,000 bushels of coal was shipped out of Kanawha river during January and business was the liveliest ever known on that river for the month of January.

The towboats Fred Wilson, John Moren, Iron Age, Cruiser, W. W. O'Neil and John A. Wood are laid up at Louisville on account of the ice and other conditions.

Capt. Holmes Harger, Jr., will pilot for Flint & Co. the remainder of the season. Capt. Leslie Jones was yesterday assigned to command the towboat Dave Wood and has taken charge.

The towboat J. B. Finley on her way to New Orleans with a coal tow has 27 coalboats and six barges. Henry Nye and John Pearce are her pilots. The Oakland is due at Cairo on her way south.

It is reported that just before the Oakland pulled away from the foot of Sand Island a demand was made for $50 lineage by the lessee of the island, and that upon Capt. Blasier's declining to pay the amount the boat's lines were cut.

Capt. John F. Dravo, who has returned from Washington, where he had been in the interest of Monongahela river improvements, said that if congress did not appropriate a liberal sum for that river it would not be for want of information.

Capt. Peter Sprague, who is superintending the construction of the big towboat at Dubuque, named after himself, was a pallbearer at the funeral of William S. Hopkins, buried at that place. Mr. Hopkins designed the government boats Ericsson and William Windom.

President Roosevelt recently issued an order forbidding federal officials taking active part in political organizations. Capt. E. L. Dorsey is steamboat inspector for Louisville district and will have to give up the chairmanship of the Clark county, Ind., Republican committee.

The steamer Falls City backed down into the canal funnel at Louisville to lay up at the foot of Seventh street. The officials of the coal combine at once notified Wharfmaster Dyler that if any damage befell their property because of her being in the way the city would be held responsible, so she was moved back to the foot of Fourth street.

The Rose Hite yesterday left for Monongahela river points, but on account of the ice the crew did not know how far they would get. The river is frozen over and the pool boats with tows of coal are compelled to back down the river with their tows. The steamers are veritable iceboats. The wheels of the boats are being reduced to kindling wood, the result of pounding the ice.

Capt. William L. Shaw yesterday made an official report to the local steamboat inspectors, giving an account of the blowing up of the boilers on the towboat John W. Alles. He recited the story, which has been published. The bodies of the missing have not been recovered. Those in the hospital are improving. The local inspectors expect to be able to start an investigation, leading to the cause of the explosion, within a few days.

GEN. FUNSTON BETTER.

Backs Application for Leave With Doctor's Certificate.

KANSAS CITY, Feb. 10.—Dr. E. F. Robinson, Gen. Frederick Funston's physician, forwarded to the war department today a certificate in support of an application for a three-months extension of leave of absence for Gen. Funston.

The general's leave will expire March 10 under the present order. Gen. Funston is recovering rapidly.

PERSONAL—
HEART TO HEART TALKS.
My Dear Father Pitt:
There has been too much saving at the spigot and wasting at the bung hole; too much littleness and not enough public spirit shown; can you think of any better way of helping the city than by keeping up a good appearance, making our city attractive to strangers and satisfying to ourselves? No man should have a dingy looking house when painting is done so reasonable as here.

STEEL STOCKS RANK FIRST AS AN INVESTMENT

Corporation's Conservative Policy on Prices Makes it Lead Industrials.

CAR FAMINE ONCE AGAIN

No Indication That the Boom Will End for a Year at Least—Race of Rival Tobacco Trusts to Absorb Independent Factories.

[BY PRIVATE WIRE TO THE GAZETTE.]

NEW YORK, Feb. 10.—If the testimony of banking authorities and others having direct relations with the public is to be believed, United States Steel preferred now ranks the list of industrial stocks in investment favor.

As showing how rapidly this security has advanced in general appreciation as an investment it is interesting to learn that when the combine paid its second dividend on the preferred stock there were 24,000 individual holders of record, whereas the third dividend was paid to 20,000 individual holders. Thus the number of stockholders decreased 4,000 within three months. These figures, of course, are given roundly. Since the appearance of the combine's preliminary annual report large banking and other financial institutions seem to have conceived a greater liking for the preferred stock as a safe investment.

Result of Conservative Policy.

The thing that most strongly appealed to these authorities, of course, was the combine's avowal of conservative policy in regard to prices. This reduces the danger of violent ups and downs in the street trade to the lowest possible minimum, and so enhances the market prestige of United States Steel preferred. A gentleman well informed on the affairs of the United States Steel Corporation, and who really may be said to be in a position to speak for the combine, reviews the present situation in the following words:

There is no sign of slackening in demand, nor any indication that the boom in iron and steel will end, for a year at the earliest. Most of the mills are already assured of sufficient business to keep them in operation until the fourth quarter of this year, and I confess I cannot see why demand should not continue as at present for two years, at least. Prices are purposely kept down in order to discourage the building of new plants and to keep the market stable, so that new business will come in a steady volume.

The car shortage is likely again to prove a serious detriment to the trade. This is especially true in Pittsburgh. The furnaces are running up to their full capacity, while the supplies of raw material are in many cases getting very low. About 2,800,000 tons of steel rails, deliverable in 1902, have been contracted for, and many of the orders now placed are going to foreign producers. A Mexican order for 50,000 tons went to England last week because no guarantee could be given by us regarding delivery.

In spite of this enormous demand, and the impending danger of a famine in iron and steel products, I do not think that prices of finished products will be advanced. There would be little gained, and if we discourage consumption, irreparable harm might be done. The country is enjoying unprecedented prosperity, and the United States Steel Corporation intends to take no step which will tend to bring this prosperity to an end.

Race of Rival Trusts.

Officials of the Continental Tobacco Company, which is a constituent concern of the Consolidated Tobacco Company, confirmed today the report that the Continental had acquired the Spalding & Merrimac Company of Chicago. This property is said to be of considerable importance. It was further learned today that Consolidated interests are negotiating for the purchase of other independent plants throughout the country.

The Universal Tobacco Company is similarly engaged, with the result that the two largest tobacco organizations in the country are competitors in the open market for independent properties. As long as it lasts this state of things may go to make up to the independents what hitherto they have lost in consequence of trade hostilities in which they were not resourceful enough to engage themselves, and could only remain idle spectators.

The rivalry between the Consolidated and Universal interests reduced the profit in certain lines of tobacco to a point at which the independents frequently have been unable to do business, and, indeed, sometimes profit has been eliminated altogether. It is estimated that within the past two or three months more than half a dozen independent tobacco concerns have passed to the control of either the Consolidated of Universal companies.

Consolidated interests evidently desire to head off the Universal people by buying up the most desirable properties. Thus far, however, it has been pretty evenly give and take, with no apparent advantage to either side.

Railway Spring Company.

It was authoritatively announced today that the entire $20,000,000 capital stock of the new Railway Spring Company had been apportioned and that the new corporation would take over the constituent properties during the last week of the current month. The company has not yet been organized, but it is promised that the directors and executive officers shall be thoroughly represented of the various interests involved. Every important concern manufacturing steel springs for railroad companies is included in this corporation. Headquarters will be established here and these will be opened for business on March 1.

S. R. Callaway, president of the American Locomotive Company, has a considerable interest in the Railway Spring Company, and probably will be one of its directors.

New Hardware Combination.

It is understood that considerable progress has been made in the way of bringing together the hardware manufacturing interests of the country, and that some definite announcement may soon be made. The legal phases of the matter are in the hands of Reed, Simpson, Thatcher & Barnum, and it is expected that the consolidation, if effected, will be capitalized at about $100,000,000.

Hardware dealers anticipate a general advance in prices on account of the higher level of iron and steel. The action of the nut and bolt manufacturers in making an advance of 10 per cent in their schedule is believed to foreshadow more general advances.

News From the Mines

[BY PRIVATE WIRE TO THE GAZETTE.]

NEW YORK, Feb. 10.—Several fine strikes are reported at Cripple creek. A new chute has been opened on the first level of the Anchoria-Leland, which assays as high as $920 to the ton.

In an upraise from the 300-foot level of the Rualer on Beacon hill, a four-inch streak of sylvanite ore has been encountered that runs $2,500. Three feet of ore at a depth of 300 feet in the Home Claim gives values of $75 gold. At the north end of the Burns of the Acacia Company 3½ feet of ore has been opened that ranges from $74 to $150 a ton.

Leasers on the Wirth, near Ward, Col., have opened a two-foot vein, of which two inches returned $110 to the ton.

Advices from Butte, Mont., say the Anaconda mines are now shipping to the new Washoe smelter. Work will be resumed this week on the Never Sweat and St. Lawrence, which have been closed for some time.

A five-foot vein of high-grade ore has been opened in the Baltimore in Boomerang gulch, near Basin.

The White Knob Company, in which John W. Mackay and eastern capitalists are largely interested, is pushing to completion its large smelting plant and electric plant at Mackey, Ida.

The Carisa gold property at South Pass, Wyo., which has been operated for 35 years and is credited with an output of over $4,000,000, has been sold to a Chicago syndicate headed by Henry M. Ryan.

Fifty individual claims have been opened in the Searchlight district, Col., which has now a population of 500. The greatest expenditure in the camp has been made by the Quartette Company, which, besides establishing a big plant on the Colorado river, is building a railroad to Ibex to connect with the Santa Fe.

In the Sunlight, near Shasta, Cal., a three-foot pay chute has been developed that averages from $200 to $300 gold.

The Morning, one of the best-known mines in the Coeur d'Alenes, Ida., has been closed down and 115 hands are thrown out of work. The cold weather, which caused the bursting of pipes leading to the works, is said to be the reason for the suspension.

Late reports from Dawson note that more rich dirt has been found in the Glen gulch district, near Rampart. Pans are said to range from $5 to $40. On one claim a $6 nugget was picked up.

The Metal Market.

The week opened with a decline of about one quarter of a cent in prices for copper, with a very slow demand at that. The current prices here are 12⅝c to 12⅞c for lake, 12¼c to 12⅜c for electrolytic and 12¼c to 12⅜c for casting copper. The London market was 2s 6d lower; spot closing at £54 17s 6d and futures at £54 5s. Tin here was a shade firmer, closing with spot at $24 40@24 60. London closed 2s 6d higher at £112 15s for spot and £108 5s for futures. Lead was quiet and about unchanged here at $4 12½ and London was 1s 3d higher at £11 10s. Spelter was unchanged at New York at $4 10 and London closed unchanged at £17 12s 6d. Iron ruled steady to firm here and unchanged. Glasgow was about two shillings higher at 5s 5d, and Middlesboro closed at 45s 10½d. Market Continues to Find Good Support

APPREHENSION WAS PROVED TO BE UNFOUNDED

Abundant Buying of Stocks in Wall Street and Little Liquidation.

SOME STRIKING ADVANCES

Bulk of Busines Still Congested in a Few Stocks, Notably Southern Pacific and the Readings—Industrials Inclined to Be Heavy.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

NEW YORK, Feb. 10.—There was some apprehension in speculative circles that the support accorded the market on Saturday after the appearance of the bank statement would prove but temporary, and that a setback was imminent in the prices of stocks. The heavy fire losses reported over Sunday, especially that at Paterson, caused additional apprehension before the opening. The uneasiness, however, proved to be unfounded. There was abundant buying of stocks from the opening and but little liquidation was encountered. There was indeed profit-taking in many of the stocks which have had striking advances recently, but the strength was diverted to new points. Today's market, although disclosing some striking features of strength, by no means took on the full proportions of a bull market in either the volume of dealings, the extent of the advances or the breadth of the distribution.

The bulk of the business was still congested in comparatively few stocks, notably Southern Pacific and the Readings and stocks most nearly allied to them. There were some indications of a common origin for the active dealings in both these leaders. The buying of Southern Pacific is avowedly based on the rate of earnings reported for the company and the possibilities of reduced operating expenses and refunding of high interest mortgages. The gain in the price of the stock extended to 2½. The strength of the coalers was due to the belief that an adjustment of labor disputes was assured. The soft coal carriers shared in the movement. Many of the less prominent stocks were features of the trading, notably the St. Joseph and Grand Island stocks, the Kansas City Southern stocks and the Toledo, St. Louis & Western stocks.

Advance in Express Stocks.

Some of this class of stocks which rose last week suffered sharp reactions. American Express rose 11 and Wells Fargo 5½ on the conviction that developments are pending in the express business. The industrials generally were inclined to be heavy, except those having to do with iron and steel. Detailed analysis of Saturday's bank statement shows that a few large banks are responsible for the large changes in Saturday's statement. Of the total loan increase of nearly $29,000,000 four banks are seen to be responsible for over $20,000,000, namely, the National City, the First National, the Hanover National and the National Bank of Commerce. Of these it is also notable that the decrease in reserves for three of them amounts to considerably more than the total decrease for all the banks, while the First National bank alone of the four shows an increase in reserves of nearly $6,000,000.

Large Projects Are Pending.

The large changes thus shown confirm the conviction prevalent that some large financial projects are pending. As bearing on the condition of the banks compared with last year, it is worthy of notice that, notwithstanding the two weeks' increase of about $50,000,000 in loans, the net increase since the first of the year is only $60,545,800, while the accession to reserves has been $32,457,000. Last year up to February 16 there had been an increase in loans of $118,165,800, while the reserves had grown but $40,611,200. The period last year covered the preparations for the New Jersey Central purchase, the Southern Pacific purchase and the formation of the United States Steel Corporation.

The bond market was active and broad but somewhat irregular. Total sales, par value, $4,425,000. United States bonds were all unchanged on the last call.

WALL STREET FEATURES.

Total sales 732,900 shares.

Market was well supported and liquidation not heavy.

Readings and Southern Pacific were strong points.

American Express rose 11 and Wells Fargo 5½ on expectation of developments in the express business.

Industrials inclined to heaviness.

Chicago Stocks.

CHICAGO, Feb. 10.—Speculation on the local stock exchange today was more active and of greater proportion than it has been for some time past. Interest centered in surface traction stocks, but spread to a small extent to other securities. Speculators bid up well for anything in traction, spurred on by recent rumors of a gigantic consolidation of all surface lines in the city and of a possible settlement of the franchise question in favor of the companies. Chicago City Railway made the best gain—15 points—though the spurt in this stock did not create excitement as the stock is all very closely held. North Chicago gained 7 points, West Chicago 3 points, Union Traction 2 points, and Union Traction preferred 2½ points. Settlement prices were:

Uneventful Day in Grain Markets

SHORT-LIVED ATTEMPT MADE TO RAID OATS

Grain Markets Otherwise Were Commonplace, With Narrow Fluctuations.

NARROW RANGE IN WHEAT

Cables Did Not Reflect Any of Our Strength, While Favorable Weather Proved a Strong Bearish Factor in Wheat.

[ASSOCIATED PRESS TELEGRAM TO THE GAZETTE.]

CHICAGO, Feb. 10.—There was a short-lived attempt to raid the oats pit today, and, with little support at hand, prices suffered in consequence. Otherwise the grain markets were of the commonplace type, with very narrow fluctuations and slightly bearish tendencies. May wheat closed ¼c lower. May corn ⅛@¼c down and May oats ⅝@¾c depressed. Provisions, after some activity, closed 5@7½c higher.

Ordinary influences appeared to have little effect on wheat. Up to midday the range was over only ⅜c, and the whole session showed only a shade more. The slightly bullish feeling with which the market closed Saturday was lost at the outset today on minor bits of bearish news.

Market a Scalping Affair.

The cables did not reflect any of our strength, the amount of passage had increased 1,824,000 bushels and the world's shipments were liberal. The mild weather with additional snows over the west was favorable for the growing crops. All told, the market was dull and largely a scalping affair, traders selling on all the bulges and buying on the dips. The most important item of news of the day was the decrease of 1,[illegible] bushels, almost double the decrease expected, yet it was no effect on the pit. May opened ⅛@¼c to a shade lower at 77⅝@77¾c, and on early corn strength sold to 78c. Commission houses later turned sellers, the outbreak had a depressing effect and May reacted to 77⅝@77¾c.

Receipts and Clearances.

The close was easy, May ¼c down and 77⅝@77¾c. Local receipts were 17 cars; Minneapolis and Duluth reported 365 cars, making a total for the three points of 382 cars, against 380 last week and 467 a year ago. Primary receipts were 562,000 bushels, compared to 727,000 bushels a year ago. Seaboard clearances in wheat and flour equaled 237,000 bushels. The world's shipments were 8,500,000 bushels, compared to 8,280,000 bushels last week and 8,830,000 bushels last year.

Corn at times had fair support and some activity, but in the long run the bearish tendency won out. The early cables were indifferent, based on an improvement in Argentine crops. There was a feeling that the market had been oversold on Saturday, and shorts covered freely at the opening, but this did not last long.

Oats Had a Bad Time.

May opened ⅛@¼c lower, recovered and sold at 42⅝c shortly after the opening. Then commission house selling and the depression brought a sag, and in the absence of buying orders the gain was lost. Kansas City again reports a bearish market. May closed easy, ⅝@¾c lower at 41⅝@41¾c. Receipts were 53 cars.

Oats had a bad time of it from the opening. The start was fairly steady with corn, and soon after the opening May options were selling at 42⅝c, Saturday's closing figure. Then there set in a deliberate raid such as was witnessed two weeks ago, and May was pressed down quickly to 42c. There was a poor demand and there was almost no early support.

Estimated receipts for tomorrow: Wheat, 90 cars; corn, 110 cars; oats, 154 cars; hogs, 41,000 head.

The leading futures, corrected by John D. Armstrong & Co., members of the Chicago board of trade, 209 Sixth street, are as follows:

J. M. Connors Acquitted of a Charge of Stealing Gold Leaf Scraps—F. D. Morris Pleaded Guilty of Embezzlement.

Philip H. Rohe was found guilty of bigamy in criminal court and was sentenced to jail for eight months. The charges of bigamy and infidelity were made against him by Mrs. Amelia Schnupp of No. 40 South Twentieth street, his first wife's mother. He was married on November 11 last to Josephine P. Brawdy of Youngstown, O.

William Kiefer of Tarentum was convicted of aggravated assault and battery, preferred by his wife, Annie Kiefer, and sentenced to pay $25 and costs and one day in jail. He was acquitted of a charge of assault and battery brought by his son, Walter Kiefer.

The trouble grew out of difference of opinion with regard to religion. For the past month the Free Methodists, better known as "Holy Rollers," have been holding revival and street meetings in Tarentum. At first Mrs. Kiefer attended these meetings, which was objected to by her husband, and she promised never to go again. She soon broke her promise to her husband, and they had another conversation about the matter, during which Mrs. Kiefer remarked that it was none of her husband's business whether she attended these meetings or not. He replied he would make it his business and struck her on the head with a piece of iron. The son interfered and was knocked down.

The couple have lived together for 29 years and raised a family of five children. It was testified that this is the first trouble of any kind that ever occurred between them.

Thomas A. Coleman, a contractor of Wilkinsburg, was acquitted of stealing 1,600 feet of lumber from Edward R. Wallace, also a contractor of Wilkinsburg. The prosecutor had received permission to store some lumber at the corner of Trenton and South avenues. Later the defendant bought the lot and removed the lumber from it. The prosecutor alleged that the defendant took it, knowing that it did not belong to the owner of the lot. Judge Collier, in charging the jury, stated that it was a case that should have been tried in a civil court instead of criminal court.

Frank D. Morris pleaded guilty to the embezzlement of $3,391 preferred by H. C. Zimmerly and was sent to the workhouse for 15 months. Thomas was given $1,500 with which to purchase stocks. Zimmerly claims the stocks were sold for $3,391 and that Morris appropriated the money to his own use. While Morris pleaded guilty, he claimed the amount embezzled was but $600.

Charles Bergstresser was sentenced to serve 60 days in the workhouse for interfering with Officer O. R. Thompson while making an arrest. He was indicted for assault and battery.

Eugene Larimer was acquitted of stealing a fox hound from Eliza Yates. Edward Fallenstein pleaded guilty of misdemeanor and was sentenced to pay Maggie Menighan $250.

J. W. Connors, a painter employed at the Ft. Wayne car shops by the Pennsylvania Railroad Company, was acquitted of stealing gold leaf scraps from the letter designing room.

MORTGAGE IS VALID.

Committee of a Lunatic Must Comply With the Terms of an Instrument.

An opinion was handed down yesterday by Judge R. S. Frazer in the equity suit of W. M. Gill against R. V. Pitcairn, committee of Albert Pitcairn, a lunatic. The action was to compel the defendant to comply with the terms of a mortgage for $11,000, and the defense was the mortgage was invalid, as when the transaction was made with Albert Pitcairn he was insane.

Judge Frazer finds the instrument is valid upon the ground that although the report of the commission on lunacy found Pitcairn was insane at the time he accepted the mortgage, the testimony in the equity case showed that he was conducting a tailoring establishment and was able to carry on business legitimately.

LEGAL BRIEFS.

Justus Mulert was appointed receiver in the case of John Poeppert, bankrupt.

F. G. Kelly and Benjamin Miller were appointed receivers of the estate of Annie Cohen of Scottdale.

The sale of the property of Oliver J. Gilbert of Canonsburg, bankrupt, for $3,650, was confirmed by the court.

The will of Andrew Young, late of Pittsburgh, was filed for probate. An estate worth $3,500 is left to his wife.

A decree in divorce was granted in the case of Jennie Vosburg against Charles Vosburg, on the grounds of desertion.

Fred B. Patrick, a merchant of Kittanning, filed a petition in bankruptcy, giving his liabilities as $5,717 and assets $822.

In the case of Adolph Herold against the city of Pittsburgh, for damages to property, the plaintiff was awarded $1,250.

In the case of R. B. Pagan against the Ft. Pitt Gas Company to recover for drilling a well, the plaintiff was awarded $1,033 43.

The case of Winslow Bros. against Herbert Du Puy, an action on a contract for work done on the Empire building, is on trial.

The case of Bridget McCann against William Nielander is on trial. The plaintiff wants damages for having been bitten by the defendant's horse.

Habeas corpus proceedings were begun to get Louis Mohr from the workhouse that he may appear in a damage suit filed against him by S. A. Dickson.

Letters of administration were issued to William E. Allen on the estate of Kate C. Allen, worth $8,400. Attorney William M. Benham represented the estate.

The administrators of the estate of H. U. Goldthrop sued the Alexander Black Coal Company for $2,560 damages to property in Scott township by undermining it.

Executions were issued as follows: Pennsylvania Savings Fund and Loan association against Obediah Hodder, $945; D. G. Stewart against William H. White, $1,454 42.

John M. Mackintosh took out letters of administration on the estate of Rolfe M. Ellis. The estate is worth $2,500. Ellis was drowned recently while skating on the river at McKeesport.

In the case of Henry Butterfield, a mandate was received from the United States circuit court of appeals reversing the district court in allowing Samuel W. McElroy, trustee of the Citizens National bank, to prove a claim of $76,000.

Judge J. A. Evans refused to take off a non-suit in the case of Joseph Kolinka against the Pittsburgh & Birmingham Traction Company. The court says there was no evidence to show that the motorman was negligent, or that he could have stopped the car in time to avoid a collision.

The damage suit of Mrs. Rosa Dell against Dominick Cinguegrano is on trial. The plaintiff said she took a trip to Italy and left her grocery store in charge of the defendant, who was to turn the business over to her upon her return in the shape it was when she left. The plaintiff says the defendant did not do this.

Edward Murphy of Crawford county sued Kingsbacher Bros. yesterday for $299 damages. The plaintiff alleges he purchased a ring from the defendant and that the stone was warranted to be a perfect diamond. He says that he later discovered it contained a flaw, and that when requested, the firm refused to refund the money.

A petition was presented in the United States district court by John Schultz, a saloonkeeper of East street, Allegheny, setting forth that he had previously filed a petition in bankruptcy, that he had turned his property over to the receiver and that his place of business had been closed. He asked that his liquor license for the balance of the term, amounting to $250, be set apart for him as his claim for exemption.

Earnings and Reports.

The earnings of Big Four for January increased $78,990.

Pittsburgh & Western earned $104,781, an increase of $10,476, for the fourth week in January.

Earnings Wisconsin Central the first week of February increased $4,529; from July 1 increased $328,689.

Seaboard Air Line earnings for the fourth week of January increased $23,286. For the month they decreased $29,579, and from July 1 they increased $387,049.

The total gross earnings of the Chicago & Northwestern for the year ended December 31 were $45,916,620, an increase of $2,864,932. Net earnings increased $1,645,293. Dividends amounting to $3,314,394 were paid. Out of a surplus of $6,533,165, new equipment was bought and improvements made which cost $4,169,526. The balance is, therefore, $2,003,639.

Indications Are Discouraging

The indications for extending the producing territory to the east on Fish creek, Marshall county, W. Va., are not encouraging. The recently completed producers in that part of the Gordon sand territory gave some hope for a widening of the producing streak. To the east and in advance of developments, the South Penn Oil Company has drilled its test wells on the Jacob Neely and Reason Yeater farms through the Gordon sand and failed to develop oil or gas in either of the wells in this development and in that part in which the South Penn has been getting some good producers, it has shot its No. 1 on the Andrew Corbley farm and the well produced 240 barrels the ensuing 24 hours.

The Big Injun sand development on the South Fork of Hughes river, Union district, Ritchie county, is not making a creditable record if one is to judge from the late wells. The Carter Oil Company has completed Nos. 7, 8 and 9 on the Zimri Flannaghan farm. The first two are just outside of the duster list and the last is a small producer. The same company has completed No. 6 on the John Debaular farm and has no better than a five-barrel pumper. For a development that looked promising two months ago this is very discouraging.

South of the Salem district, in Harrison county, the South Penn Oil Company has drilled its test well on the M. Thompson farm through the stray and is now drilling to the Gordon. On the west side of the same development the South Penn has completed its No. 1 on the Smith Varner farm and has a 10-barrel pumper in the Gordon sand.

West of the Wallace district the same company has drilled its test well on the J. N. Coffman farm into the sand and has developed some oil, but lost a bit in the hole and is now fishing. North of Salem, No. 2 on the L. T. Randolph farm is drilling in the stray and has a show of oil.

Southwest of Wolf summit, Harrison county, No. 4 on the A. Coffindaffer farm is drilling in the fifth sand and showing for a small producer.

In Troy district, Gilmer county, the South Penn has drilled its wildcat on the J. C. Bush farm into the Gantz sand and has a show for a small pumper.

Southeastern Ohio.

On the Ohio side, in the Big Lime district, near Lewisville, Munroe county, Treat & Crawford have drilled in their No. 3 on the Henry Young farm and have a show for a 15-barrel pumper.

In the Germantown district, Washington county, C. G. Dutton & Co. have drilled their test well on the William Cline lot through the first and second Cow Run sands and found nothing in either of these formations. They are now drilling to the Keener.

South of Steubenville, Jefferson county, W. McKee has drilled his test well on the M. Nicholson farm through the sand and has a duster.

Butler County.

In the Speechley sand district, in Butler county, the South Penn Oil Company has drilled in its No. 5 on the W. W. Jackson farm and has a show for a 10-barrel pumper.

In the Harmony district, Youngblood & Co. have drilled their No. 3 on the Rodolph Burnhart farm through the sand and have a paying producer. On a part of the same farm Gallagher, Stauffer & Co. have completed their No. 2 and have a small pumper.

STEEL SHARES WERE FIRM

Fire Proofing Common Declined. Coalers Active and Firmer—Philadelphia Issues Rallied — Continuous Sessions Inaugurated.

PITTSBURGH FEATURES.

Bank exchanges gained $150,-734 02.

Total sales Pittsburgh stock exchange 9,640 shares, $35,000 bonds and $5.90 script.

Allegheny Trust jumped $10 to 150.

Allegheny Valley railroad preferred sold 790 shares. Closed 28⅛.

Crucible Steel closed at 23⅛ and the preferred 86¼.

United States Steel closed at 43⅞ and the preferred at 94.

Fire Proofing declined ¾ to 39 and the preferred gained ⅛ at 47⅞.

River Coal common sold 1,265 shares. Closed ⅛ up at 14.

Pittsburgh Coal issues were firmer and higher.

1,400 Philadelphia Company common sold. Closed 46⅞. The preferred sold at 45@45¼.

Bonds were firm and fairly active.

The market on the Pittsburgh stock exchange yesterday was fairly active, the tone generally steady to firm and in some cases decidedly strong. Continuous sessions were inaugurated on the exchange without confusion or trouble, and the new system worked very smoothly considering it was the first day. The majority of the brokers were either in attendance in person all the time or else had representatives on the floor. This caused the sales to show an increase over recent days of between 3,000 and 4,000 shares. Should the market get very active the benefit to be derived from the new system will be at once more apparent. The features of the trading yesterday were in the banking, coal and miscellaneous groups. In the first named there was pronounced strength, Third National bank of Allegheny advancing $15 to $220, a new high record, and Allegheny Trust Company $10 to $150. The sales of the latter were quite large, being over 100 shares. Near the close Real Estate Trust started upon an upward movement and closed strong and $9 higher for the day at $260 a share. There was no explanation for any of the advances, the general opinion being that all classes of good banking shares are destined to see much higher prices. The steel shares were fairly active and quite steady to firm. Over 1,100 Crucible preferred sold and the stock finished with a gain of ⅛ at 86¼, and that price was bid for more. United States Steel common sold over 700 shares, but closed ⅛ off at 43⅞. The preferred advanced ¼ to 94 for 100 shares and more was wanted. Fire Proofing common declined ¾ to 39 and the preferred closed ⅛ higher at 47⅞. Next Monday the annual meeting will be held and immediately after it the special meeting called to vote for or against a proposition to increase the capital stock will take place. No definite details have as yet been given out, but new rumors are constantly being circulated. The latest one is said to be practically authoritative. It is that the capital will be increased to $10,000,000, or just doubled. The present capital consists of $3,000,000 preferred and $2,000,000 common, and it is said that the increase will consist of $2,000,000 common and the same amount of preferred, making the new capital stand $5,000,000 preferred and $4,500,000 common. Holders of preferred stock will have the privilege of subscribing for 50 per cent of the new preferred stock at par, $50 a share, and will receive a bonus of 25 per cent in common stock. If the deal is carried out on this basis, there would remain $1,250,000 preferred and $1,250,000 common, a total of $2,500,000, one-fourth of the $10,000,000 capital. It is said that this quarter interest in Fire Proofing will go to the George A. Fuller Company, and that cash realized from the sale of new preferred stock will be utilized in acquiring interests in other than the Fuller company. This does not look very favorable to the common stockholders, but as a balm to their feelings the gossips say that after the deal is consummated they are to be given a nice extra cash dividend.

The coal stocks were quite active and firm, River common advancing ⅛ to 14 on sales of 1,200 shares. The preferred also gained ⅛ at 43⅝. Pittsburgh common sold only 90 shares, but closed $1 higher at 26. The preferred sold over 500 and closed ⅛ higher at 90⅜, though at one time during the day it reached 90½. There was no news from the annual meeting, which was held in New Jersey, in time to affect the market. The annual report, however, is considered a very good one. It shows surplus earnings applicable to dividends for the year ended December 31, 1901, of $3,099,538 06. This is equal to 7 per cent on the preferred and about 2.7 per cent on the common. The report certainly looks as if the policy of the company has placed it in an impregnable condition, and its prospects look exceedingly bright. During the year 1901, $2,701,942 was applied to the purchase of new coal lands, making the total sum expended since the company's organization for that purpose $6,192,395 59. The company now owns 150,000 acres of coal, and the report says that it has doubled in price since its purchase. Many valuable improvements have been made, and with a decrease in the cost of production and a steady decline in the fixed charges, it would appear that the outlook for both the preferred and common stockholders is exceptional. There was some trading in Philadelphia common, one house selling 1,400 shares, the stock closing steady and ⅝ higher at 46⅞. Switch and Signal common was quiet but firm at 80. The closing bid, however, was 80¼, a new high record. The preferred did not sell, but advanced 1½ to 98 bid, also a new high record. Electrics were dull, but firm and higher. Airbrake was very dull and practically unchanged at 180 bid, 182 asked. Monongahela National bank was bid up $5 to $265, a new high record. Bonds were fairly active and firm.

The following is a complete summary of yesterday's official transactions on the Pittsburgh stock exchange. It shows the change in the closing selling prices, compared with the last preceding sales, the total sales of each security, the opening, high, low and closing prices and final bids and offers:

Financial Drift.

Continuous sessions started.

At noon 13⅞ was bid for 500 River Coal common.

Pittsburgh Plate Glass warrants were quoted at 48@50.

123 was bid for 5 Ohio Valley Bank near the opening.

Just before the close Colonial Trust was quoted at 231 bid.

Sproul & Co. bid 4⅜ for 500 Marsden common at 10:25 a. m.

At noon Hill & Co. offered 1,000 Trade Dollar Mining at $2 a share.

About 12:40 Sproul & Co. offered 100 Pleasant Valley Traction at 27½.

At 12:35 o'clock 75 was bid for 10 shares of the J. M. Guffey Oil Company.

There are rumors of an early stock dividend by the General Electric Company.

A block of $19,000 United States Steel 5s, series C, offered at noon at 115 and interest.

Hill offered 500 River Coal common at 2 o'clock at 14. Hall bid 13⅞ for the block.

In the morning 103½ was bid for Beaver Coal 5s and 54½ for Manufacturers Light and Heat stock.

Hill & Co. bid 86¼ for any part of 500 Crucible Steel preferred about 15 minutes after the opening.

Pittsburgh, Virginia & Charleston Railroad advanced $1 to 150 bid, a new high record and three times its par value.

Near the close Hall bid $1 50 for 1,000 Trade Dollar Mining and Hill offered them at $2. Hall then offered them at $1 90.

For the First National bank of Wilkinsburg $420 was bid during the first half hour. This is an advance of $5 and a new high record.

The Pittsburgh, New York, Boston, Philadelphia, Baltimore and Chicago stock exchanges will be closed tomorrow, Lincoln's birthday.

Nearing the opening Southern Traction 5s offered at 108¾ and 98¼ was bid for Pittsburgh, McKeesport & Connellsville Street Railway 5s.

At the opening H. M. Long offered a block of 50 Farmers Deposit National bank at $1,0[illegible] a share. This is the largest single block of the stock that has been offered in a long time.

In the last half hour 28 was bid by Robinson Bros. for 500 Allegheny Valley Railroad preferred. This firm has been a large buyer lately, presumably for Philadelphia account.

Andrew Casier who has been for many years a member of the Pittsburgh stock exchange, has transferred his seat, contingent upon the application of George A. Wilson for membership.

Suits aggregating $3,500,000 have been brought against the Brooklyn Union Elevated and the Brooklyn Heights railroad for damages caused by the erection of the "L" structure in front of the property of the complainants.

There is much current talk of a consolidation of the important can manufacturers by promoters allied with the United States Steel Corporation. Such a consolidation has been planned several times, but heretofore has come to nothing.

Invitations have been received by Pittsburgh brokers to attend the first annual banquet of the active members of the Detroit stock exchange to the inactive members of that institution. The banquet will be held tonight at 9 o'clock.

About the noon hour an unusual sale was made, N. W. Stevenson buying 1,000 shares of the Consolidated Bonanza Mining Company at $2 60 a share from Miller. This is the first sale ever made of the stock on the local exchange. The mine is a new Arizona concern. Just before the close Stevenson bid $2 65 for 1,000 more.

It is reported that the people who have been back of the Standard National bank, which has been in the course of organization for some months, are said to have given up the project and taken interest in the Federal National bank. It is said that these interests were given stock in the latter institution at $120, the subscription price.

A year ago yesterday was the wildest and most exciting day ever witnessed on the Pittsburgh stock exchange. In the first 15 minutes of the opening call over 11,000 shares changed hands and in the first 30 minutes over 24,562 shares. The total for the day was 44,108 shares, sold in 324 individual trades. Yesterday the sales were only 9,640 shares and $35,000 bonds.

At a special meeting of the directors of the United Gas Improvement Company it was recommended that the capital of the company be increased by 115,000 shares, which is equivalent to an increase of more than $5,500,000. The increase will be submitted to a meeting of the stockholders to be held in May. The company is capitalized at $22,461,000, the par value being $50.

The organizing committee of the Union Realty Company has issued a call for 20 per cent of the subscribed stock, payable before March 1. The capital is $1,000,000. The committee consisted of Reed B. Coyle, R. A. Orr, Wilson A. Shaw, John W. Lloyd, C. N. Hamm, Robert J. Coyle, Jr., J. C. Ewing, A. M. Neeper and Homer J. Lindsay. A temporary organization was effected and R. A. Orr was elected chairman, Robert J. Coyle treasurer and J. C. Ewing secretary. The company will be ready for business by April 1.

In the Financier's Roll of Honor of State banks for 1901, the Freehold bank of Pittsburgh stands seventh in the United States, and first in the city of Pittsburgh and the state of Pennsylvania in the percentage of surplus and profits to capital. The German Savings and Deposit bank stands 15th in the country and second in the city and state. The Iron and Glass Dollar Savings bank stands 33d in the United States, third in the city and 12th in the state. At the head of the entire list stands the Wells, Fargo & Co. bank of San Francisco, the proportion of surplus and profits to capital being 1,812.26. The Farmers bank of Nansemond, Suffolk, Va., is second, its percentage being 1,568.15.

Butter Scores Another Advance

PITTSBURGH PRICES FOR FARM PRODUCTS

Butter Board at Elgin Forces Butter Up One and a Half Points.

Hay, Grain and Feed.

Grain receipts yesterday were exceedingly light, considering that it was Monday. The only change in quotations was in yellow shelled corn mixed. Prices have held very steady during the past few days and on account of the light receipts the market is holding steady.

Receipts [illegible]: Manchester yards, hay, 20 cars; straw, 1 car; oats, 3 cars; feed, 6 cars; shell corn, 1 car; ear corn, 2 cars; rye, 1 car; middlings, 1 car.

Following are the official quotations for hay, millfeed, corn, oats and straw, corrected by the superintendent of the Pittsburgh grain exchange:

Straw—Oat, $7 50@8 00; wheat, $7 50@8 00; rye, $8 25@8 75.

Hay—Choice timothy, $15 25@15 50; No. 1 do, $14 50@14 75; No. 2 do, $12 00@13 00; No. 1 mixed, $11 00@11 50; No. 1 clover, $11 00@11 50; prairie, $10 50@11 00; packing, $9 00@10 00; loose from wagons, $16 00@17 00.

Rye—Milling price, delivered, No. 2 Michigan, 69@70c.

Wheat—No. 2 red, winter, [illegible] f. o. b. cars within radius of 30 miles of Pittsburgh.

Groceries.

The wholesale grocers do not take much stock in the New York story regarding firm coffee. There has been no material change in the prices at Pittsburgh, notwithstanding the report from the east that there has been a decline in the market. Navy beans are a shade lower than they have been for several days and business generally in the grocery line is active. Prices are very firm, practically no change having taken place in the general list for several days.

Flour—Jobbers' prices: Fancy spring patents, $4 [illegible]; fancy winter patents, $4 [illegible]; straight winter, $3 [illegible]; bakers' spring, $3 [illegible]; rye, $3 [illegible]; graham, $4 [illegible]; cornmeal, bbl, $3 75; 10-lb cotton bags, 20c.

Canned Goods.

Canned goods are moving freely and for the next three months business in this line is expected to be brisk. Prices remain very firm, no changes yesterday being noted.

Standard pie peaches, [illegible]; gallon pie peaches, [illegible]; California L. C. peaches, [illegible]; Maryland peaches, [illegible]; California Y. F. [illegible]; corn, fancy brands, [illegible]; corn, [illegible]; California cherries, white, [illegible]; lima beans, [illegible]; soaked lima beans, [illegible]; string do, [illegible]; marrowfat peas, [illegible]; early June peas, [illegible]; soaked peas, [illegible]; New York apples, gal. cans, [illegible]; pineapples, [illegible]; damson plums, [illegible]; California plums, [illegible]; raspberries, [illegible]; gooseberries, [illegible]; standard tomatoes, [illegible]; fancy do, [illegible]; salmon, 1-lb cans, [illegible]; [illegible]

Dried Fruits.

Evaporated apricots, in bags, [illegible]; 25-lb boxes, [illegible]; apples, in bulk, [illegible]; [illegible] California prunes, [illegible]

Fruits and Produce.

"Business is dead," is the way a commission merchant expressed it yesterday, "and there will be no change in the conditions until the weather moderates so that country shipments can be resumed." Prices are very firm, cauliflower, watercress, beets and parsley scoring advances yesterday. There is a marked absence of business in the commission house quarters and the army of employes find plenty of time keeping themselves warm around hot stoves. Fires are kept going to keep vegetables in stock from being frozen.

Poultry.

There is a market for poultry, but no business is being done for the reason that the cold weather has scared farmers and hucksters from making shipments. The receipts yesterday amounted to 150 coops, when under ordinary circumstances from 300 to 500 coops should have been received. This is what keeps prices up.

Chickens—[illegible]

Butter, Eggs and Cheese.

Butter made a sharp advance yesterday of 1½ cents a pound and the entire list was marked up accordingly. The cold weather is attributed to the further advance in the market. When the weather gets warmer the price is expected to go back.

Two Large Realty Deals to Start the Week

PENN BUILDING CHANGES HANDS FOR $200,000

J. Alex Hardy, the Jeweler, Buys the Property for an Investment.

RAILROAD INVESTS $80,000

January Building Report Shows Good Increase Over December — Ward Property in Sixth Avenue Sold. Good Residences Sales.

The Penn building at Nos. 706, 708 and 720 Penn avenue has been sold through the agency of the Real Estate Trust Company for $200,000 cash. The purchaser is J. Alexander Hardy, of Hardy & Hayes, Fifth avenue jewelers, who secures title to the property from the estate of D. C. Irish. The lot has a frontage of 60 feet on the south side of Penn avenue near Seventh street and a depth of 120 feet. The building is an eight-story brick structure containing 105 offices besides the two large store rooms on the first floor. One of these is occupied by the Presbyterian book store and the other by J. F. Haney & Co., dealers in wall paper. The Penn building is one of the oldest of the high office buildings in the city and was the first to adopt the modern high-speed elevator. It is considered an excellent renter and pays a handsome revenue on the present value.

Good Bargain.

The price at which Mr. Hardy secured the property was only $3,333 a foot for the Penn avenue frontage, which is considered very reasonable in view of its location and earning ability. The purchase was made by Mr. Hardy simply for an investment and no important changes in the building are contemplated at present.

The West Side Belt Railroad Company has purchased the Friend property at Saw Mill Run for $80,000. The sale was made by Charles Crosby, who has negotiated several other deals for the same railroad in connection with the terminals it has established on the Ohio river. The property bought lies between the Pittsburgh & Lake Erie railroad tracks and the Ohio river. It has been occupied for years by small mills and manufactories. The West Side Belt company proposes to tear down all the buildings on the site and extend its tracks and switches over the entire property, giving storing room for 400 cars.

January Buildings.

Capt. J. A. A. Brown, superintendent of building inspection, has completed his report of building operations for January, the last month of the fiscal building year. The total number of permits issued was 217, representing a value of $769,-620. Of the permits granted 135, or considerably over one-half, were for new buildings the value of which was $679,080. Thirty-seven permits were issued for additions costing $55,[illegible] and 47 were issued for additions to cost $34,[illegible]. Of the new buildings 78 will be brick, 71 frame and 89 brick-veneered structures. Compared with January, 1901, the report shows a decrease of 119 permits valued at $306,-321. No special reason is assigned for this falling off except that the weather was unusually severe a large part of last month and kept back building projects.

Increase Over December.

The month showed an increase of 42 permits granted over December, 1901, which represent an outlay of $128,106. The report for the year ending February 1 will be out in a few days and will have a special interest from Capt. Brown's prediction that the buildings announced in the year would aggregate $20,000,000.

Through W. J. White another parcel of the Capt. Ward estate has been sold by Frederick J. Ward to Friedman & Rosenfield, leather dealers. The property is located at No. 545 Sixth avenue and was sold for $12,000, or $500 a front foot. The lot measures 24x145 feet and has erected in front the one-story brick building now occupied by James Powers' wholesale liquor store and in the rear two 2-story brick dwelling houses. The new owners take the property as an investment.

Two Sales in Allegheny.

W. L. Scott & Co., Allegheny, sold for Samuel C. Grier the property at No. 123 Irwin avenue, Allegheny, to A. A. Spivey for $8,500. The lot measures 22x130 feet and the residence, one of the best in that locality, is a three-story stone house containing 12 rooms which is at present occupied by Prof. James Morrow. The same brokers sold lots Nos. 321, 322 and 323 in S. W. Black's West End plan, for $1,500. The lots are 25x100 feet each and face in Savannah avenue. The purchaser is Henry Neuner who will improve the property at once by building three eight-room houses.

East End Frontage Sold.

J. M. Shields has sold to Amanda P. and Anna Z. Brown a plot of vacant frontage in the Twenty-second ward for $20,500. The plot has a frontage of 100 feet in the south side of Irwin avenue, about 400 feet west of Shady avenue, and extends back a distance of 200 feet to Brown Place, a street not yet opened. It adjoins the George W. Reed and the N. P. Reed properties.

J. H. Gillen, Homestead, yesterday closed a deal with Michael Wall for an improved property in Eighth avenue, Homestead, for $10,300. The lot is 25x100 feet and is occupied by a two-story frame structure. The purchaser will occupy the building with his undertaking establishment.

Homeville Real Estate Moving.

Property in the vicinity of Homeville, a suburb of Homestead, was never more in demand than at present and a large number of sales have recently been made there and contracts are let for nearly 100 hundred houses, which will be built by employes of the Carnegie mills. A branch of the Pittsburgh Railways Company's lines passes through the district and as a special fare is allowed for workmen, the inducement to purchase property in the vicinity has been tempting and good prices have been obtained. Offers of $300 a foot front have been refused in a number of cases and better prices are reported on several deals. Contractors Strang & Orris are erecting 12 five-room houses in Homeville for Martin Muser and the same firm have contracts for many other buildings in Hays Park and other adjacent districts.

A Big Project.

Bids are now being received at the office of Samuel Discher & Sons for the buildings of the McKeesport Manufacturing Company to be erected at Port Vue. The estimated cost is $500,000. The buildings contemplated include a mill, 250x300 feet; an assortment house, 50x300 feet; a stock house, 40x130 feet. All the buildings will be constructed of brick and stone with corrugated iron roofing.

Architect W. A. Thomas has plans for two brick and stone houses for Mrs. Henrietta Evans. They will be built in Negley avenue at a cost of $24,000. The same architect is taking bids on three brick houses in Aspinwall to be erected for Mrs. M. A. Patterson at a cost of $15,000. He has also let the contract to William G. Wright for A. G. Fenis' brick residence in Fairmount avenue. The cost will be $10,000.

Ice Company Plant.

Architect F. J. Osterling closed bids yesterday on the new plant of the Consolidated Ice Company on the South Side. The cost will be about $150,000.

Architect V. Wyss Thalman has plans prepared for a new stock house, four stories high, to be erected for the Crystal Spring Company at Wampum, Pa. The building will be of brick and iron construction and fire proof. The dimensions are 34x41 feet and the estimated cost is $32,000.

Architect William Young Brady is preparing plans for nine seven-room brick houses to be erected in Brownsville avenue at a cost of $14,000.

A Franklin Residence.

The same architect has plans prepared for a $9,000 brick residence for Thomas Alexander, at Franklin, Pa. Also for the remodeling of the five-story brick building at No. 303 Smithfield street, to cost $3,000. The entire building, part of which is now used for offices, will be refitted for the use of Hugo Llewyn, who will occupy it with his dry goods business.

Architects Rutan & Russell have awarded the contract to Albert Moore of Sewickley for the Beaver Valley Trust Company's building. It will cost $30,000.

Architects Mueller & East have plans prepared for a four-story flat building in Kendall place, Bellevue, for Ralph Mamert. The building will be 48x60 feet with walls of gray brick and Cleveland stone.

Bids Closed.

Architect F. C. Sauer has closed bids on a brick veneered flat building to be built for Conrad Paul at the corner of Evaline and Dauphin streets, at a cost of $6,000.

George B. McKee is preparing to build six houses for John Clark in Richmond and Tioga streets, at a cost of $12,000.

F. S. Flynn and Peter Nolan will each build a frame house in Stanton avenue. The cost will be about $6,000.

Architects A. Dudgeon & Son, Wilkinsburg, will take bids this week on a business block to be erected at the corner of Swissvale avenue and Glenn street. The owners are Turpit & Freeman and the estimated cost is $15,000.

Lots to Be Improved.

W. A. Herron & Sons sold for Joseph Howe to Otis A. Hollis ten lots, 25x160 feet each, in Salisbury street, Twenty-seventh ward, for $4,500. The purchaser will improve at once by building.

M. J. Ehrenfeld sold for John F. O'Neill to Eliza Johansen a brick house of six rooms with a lot, 16x100 feet to an alley, in the south side of Fifth avenue, near Short street, Fourteenth ward, for $2,400 cash.

Mary Murphy sold to Daniel W. Wylie an improved lot, 28x110 feet, in the east side of Bates street, near Ward street, Fourteenth ward, for $10,000.

R. J. Fricker sold for the Pittsburgh Bank for Savings to R. R. Yeshke an improved lot at No. 246 Meadow street, Twenty-first ward, for $[illegible].

Sale in Kelly Street.

Mary Sheeran sold to Adolph E. Siedle an improved lot, 20x173 feet, in the north side of Kelly street, near Hale street, Thirty-seventh ward, for $4,500.

John Ritchie sold to Margaret Mackenson a lot, 20x100 feet, in the north side of Dearborn street, Nineteenth ward, for $2,125.

August Smolinski sold to Jacob Lubinski an improved lot, 20x110 feet, in the northeast side of Ridge street, near Mingo street, Thirteenth ward, for $2,000.

John Grove sold to Mary L. Grove an improved lot, 24x129 feet, in the northeast side of Aurelia street, near Finley street, Twentieth ward, for $2,600.

Eighteenth Ward Transfer.

Johanna Hobbins sold to Eliza McConway an improved lot, 21x70 feet, in the north side of Stanton avenue, Eighteenth ward, for $2,300.

D. R. Jones sold to Charles B. Payne an improved lot, 22x85 feet, in the south side of Fourth avenue, adjoining the property of B. Vogel, Second ward, for $2,500.

Adolph E. Siedle sold to Mary Sheeran an improved lot, 40x160 feet, in the west side of Jancy street, Eighteenth ward, for $1,800.

Small House Sales.

Albert H. Oyer sold to Catherine Strealey an improved lot, 24x134 feet, in the east side of Chess street, near Simms street, Thirty-second ward, for $400.

Annie M. Kelly sold to Patrick J. Byrne an improved lot, 37x100 feet, in the east side of Elysian avenue, Twenty-second ward, for $4,400.

Harry Lichtenstein sold to Joseph Harris an improved lot, 20x48 feet, in the north side of Clark street, near Townsend street, Eighth ward, for $2,100.

Peter G. Grocor sold to City Sadovik an improved lot, 23x90 feet, in Vickroy street, near Stevenson street, Sixth ward, for $2,300.

The Woods-Lloyd Company sold to the Pittsburgh, Virginia & Charleston Railroad Company an improved lot, 20x100 feet, in the southwest side of Jane street, near South Twenty-ninth street, Twenty-fourth ward, for $3,000.

Permits were issued yesterday to T. S. Flynn and Peter Nolan for a two-story frame dwelling on Brereton avenue, Thirteenth ward, to cost $3,000, a two-story frame dwelling on Millwood avenue, Thirteenth ward, to cost $2,000, and to James Ritchie, for a one-story frame office on Virginia avenue, Thirty-second ward, to cost $250.

REPORT ASSERTS THE INJUNCTION LAW IS ABUSED

In Labor Cases Chancery and Common Law Jurisdictions Are Confused.

STATE LABOR LAW ASKED

Industrial Commission Squarely Opposed to the Country and Favors Chinese Exclusion—Disagreements on Some Features.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

WASHINGTON, D. C., Feb. 10.—Labor was the subject of the latest installment of the industrial commission's final report, made public today. Regarding injunctions the commission says:

The recommendations of the commission on the subject of immigration are:

The question of the enforcement of the labor contract by injunction or contempt in equity process is a very difficult one, mainly so made by the abuses which have arisen from injunctions carelessly issued by learned judges, or by the unlearned judges of inferior courts in states, which confuse chancery and common law jurisdiction. The injunction is a high prerogative writ and should be awarded only after the most careful examination by a tribunal thoroughly competent.

What the States Should Do.

Congress having no power to legislate directly upon the subject, it is recommended that the several states establish uniform hours of labor, and also specially regulate the hours of employment of persons between the ages of 14 and 21. The working day of all public employment, the report says, should be eight hours, in the hope that it would bring private employment to the same standard. The period of work in underground mines should be eight hours a day.

It is recommended that congress, under its powers as to interstate commerce, prevent any person under 18 years being employed as a telegraph operator on railroads; that all engineers and switchmen should submit to an examination for color blindness; that it should be a misdemeanor for an engineer or switchman to be intoxicated while on duty.

Against Company Stores.

The report says the states should adopt a law providing that labor should be paid in cash or cash orders without discount, and not in goods or due bills, and that company stores should not be allowed. Provisions should be made for fair weighing at mines.

A statute to prevent intimidation at federal elections is recommended.

Congress should legislate to prevent the importation and sale of convict-made goods from one state into another without the consent of the state into which the goods are imported, or where they are sold.

On the subject of railway labor, which, the report says, is undoubtedly covered by the interstate powers of congress, the commission is of opinion that congress should adopt a consistent code of law regulating all matters concerning employment in that industry.

Commissioners Smyth and Harris do not concur in the recommendations of the majority.

The recommendations of the commission on the subject of immigration are:

Restriction of Immigration.

General revision and codification of the immigration laws, including such verbal changes as are necessary to make the existing principles of legislation effective.

Increasing the head tax from $1 to $3.

Effective inspection along the Canadian and Mexican borders.

Exclusion and deportation of anarchists.

Renewal and continuance of the Chinese exclusion laws and the introduction of administrative amendments in order to render these laws less liable to evasion.

The period of deportation, it is recommended, should be extended to five years, the expenses during the first year to be paid by the steamship company for all aliens unlawfully landed.

Penalties upon steamship companies for aliens affected with loathsome or contagious diseases to American ports.

Minority for More Drastic Action.

Commissioners Penrose, Bard, Gardner, Bell, Otjen, Lorimer, Farquhar, Kennedy and Litchman dissent from the qualification on the restriction of Chinese immigration and deprecate legislation which would make easier Chinese immigration under the guise of encouraging commerce.

As to taxation, the commission recommends "that the states abandon the general property tax and raise their revenues by taxes upon corporations, inheritances and incomes, supplemented when necessary by indirect taxation."

MEXICO WANTS OIL WELLS.

First Man Who Finds a Gusher Can Have a Big Concession.

WASHINGTON, D. C., Feb. 10.—(Special.)—Consul General Barlow of Mexico advises the state department that the government of Mexico has issued a law to encourage the prospecting for oil and gas in that country. Ten-year concessions will be granted and the prospectors will be encouraged in other channels.

The first person in any state or territory who discovers a well that will yield 2,900 litres (528 gallons) every 24 hours, will have the right to extend his concession so as to include a diameter of 1.8 miles from the well, inside of which no other prospector may intrude.

POSTAL MATTERS.

More Free Rural Mail Delivery Routes Have Been Scheduled.

WASHINGTON, D. C., Feb. 10.—(Special.)—Representative Jack has secured the extension of the rural delivery of mail route out of West Newton, to go into effect March 1, with one additional carrier.

Mr. Jack has recommended the appointment of Clement C. Dandell as postmaster at Rexis, Indiana county, vice C. W. Campbell, resigned.

On March 1 an additional rural free delivery route will be established at Towanda, Bradford county, Pa., with Benjamin F. Goodenough carrier. On April 1 two routes will be established at Calla, Mahoning county, O., with I. R. Calvin and B. D. Fox carriers.

I. J. Morris has been appointed postmaster at Jack, Webster county, W. Va., vice W. R. Morris, dead.

The senate today confirmed the nominations of these West Virginia postmasters: H. C. Showalter, Harrisville; H. E. Munday, Shepherdstown; J. F. Harrison, Piedmont, and J. O. Huey, Mannington.

Representative Sibley has recommended the reappointment of Charles Segur as postmaster at Emporium, Cameron county, Pa.

The senate this afternoon agreed to the house amendment to the urgency deficiency appropriation bill increasing the salaries of rural delivery of mail carriers to $600 a year, to take effect on or after March 1. This is an increase of $100 a year for these carriers.

PRESIDENT'S BODYGUARD.

Anti-Anarchy Bill as Reported by Hoar Provides for One.

WASHINGTON, D. C., Feb. 10.—Senator Hoar, from the committee on judiciary, today favorably reported a bill for the protection of the president of the United States, the vice president and others. It provides that any person who shall within the limits of the United States or any place subject to its jurisdiction, wilfully kill or cause the death of the president or the vice president, or who shall wilfully cause the death of the sovereign or chief magistrate of any foreign country, shall be punished with death. An attempt to commit either of the offenses mentioned is also punishable by death.

A new feature in connection with the proposed law is that the secretary of war is authorized and directed to select a detail from the regular army to guard and protect the person of the president, "without unnecessary display," and the secretary of war is also authorized and directed to make special rules and regulations as to dress, arms and equipment of such guard, and to publish only such of the rules and regulations as he may deem proper.

J. S. YOUNG CONFIRMED AS DISTRICT ATTORNEY

WASHINGTON, D. C., Feb. 10—(Special.)—The senate today confirmed the nomination of James S. Young of Pittsburgh to be United States attorney for the western district of Pennsylvania. He succeeds Daniel B. Heiner, who has been nominated to be collector of internal revenue, in place of James S. Fruit, deceased.

GOV. TAFT MAY UNDERGO ONE MORE OPERATION.

Going to New York for Treatment of Old Malady—Filipinos Hear What Is Said of Them.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

WASHINGTON, D. C., Feb. 10.—Gov. Taft left this afternoon for New York to consult specialists with regard to the treatment of the malady from which he is suffering. This is one of the main reasons for his trip home from the Philippines. His condition while there required two operations, and it is now feared he may be required to undergo another one, the others having not effected the desired result. It is the present purpose of Judge Taft to return to this city Wednesday in order to continue his testimony before the senate committee on the Philippines.

In the committee hearing today Gov. Taft said the cost of living in Manila is very high; that as governor he had to keep up an old Spanish palace, and that out of his salary of $17,500, he had only $1,500 left at the end of the year.

Gov. Taft also said the members of the commission and their families had been transported free to the islands, and that it had been President McKinley's especial wish that the families should be taken because of the effect on the Filipinos themselves.

"We want," he said, "especially to demonstrate to the Filipinos the possibility of an honest administration of justice, which is something they have never experienced under Spanish rule or under the rule of Aguinaldo. They have no conception of a man's holding an office except for the purpose of his own emolument."

"Has the commission ever recommended the admission of the Chinese?" asked Senator Lodge.

The reply was an emphatic negative.

Senator Carmack asked what would be the effect of expressions of utter contempt for the Filipinos by Republican orators, and referred to a speech which he said had been made by a United States senator, placing the native Filipinos on a level intellectualy with Caribou bulls.

Gov. Taft said any article which would have the effect of arousing the Filipinos usually finds its way to the Philippine islands, and he illustrated this remark by saying that the recent utterances of a member of congress derogatory to the character of the Philippine people already had found their way to the archipelago and had aroused considerable discussion in the native press.

"The Filipinos are a sensitive people," he said, "and resent any impeachment of their intelligence. They do not like to be characterized as savages."

"Or bulls," interjected Mr. Carmack.

"Nor as bulls," assented Gov. Taft.

THE PENSION ROLL.

Additions Proposed by Legislation and Granted by Bureau.

WASHINGTON, D. C., Feb. 10.—(Special.)—Representative Grosvenor introduced in the house today a bill granting a pension of $30 a month to J. M. Parker.

Representative Dovener introduced bills granting pensions to citizens of Wheeling as follows: $40 a month to William T. Hamilton and $25 a month to R. J. Myers.

Representative Hughes introduced the following pension bills: $30 a month to J. W. Copley and $12 a month to William Hutchinson.

Mr. Dalzell introduced in the house today a bill granting a pension of $30 a month to George Knorr of Pittsburgh.

Representative Acheson introduced bills in the house today to pension at $30 a month each Samuel H. Barnett, Benjamin F. Hawthorne, George W. Lloyd, Milton S. Collins, James Morrison, Enoch Calvert and Basil Lemley.

Pensions were granted today as follows:

Pennsylvania—William F. Witham, West Alexander, $12; Charles E. Hancock, Bradford, $6; William S. Reese, Natrona, $6; Samuel Faloon, Armagh, $12; Jacob Hougsy, New Kensington, $10; Mahershal A. Kelly, Oak Ridge, $30; Hugh Campbell, Hickman, $12; William Trotter, Altoona, $10; Thomas Evans, Warren Center, $14; Lewis C. Tissue, Chalk Hill, $8; Harvey T. Russell, Russell, $8; Albertus K. Hammill, Greencastle, $10; William Riley, Pittsburgh, $10; James Campbell, Coalmont, $14; John Entsey, Freed, $12; Gottlieb Hildwine, Soldiers' Home, Erie, $10; William Davis, Altoona, $12; Henry Schreffler, Newville, $10; minor of David Proctor, Purchase Line, $10; Anna M. Benner, Pittsburgh, $10; Susan Kimiller, Rockwood, $8; Elizabeth J. Stevenson, Leechs Corners, $8; Jane R. Jarvis, Ebensburg, $8; Amanda Romig, Wagner, $12; Ellen M. Comstock, Nauvoo, $12; Mary A. Slocum, Athens, $12.

Ohio—Thomas C. Marshall, Youngstown, $8; John W. Hall, Akron, $17; Robert H. Eddy, Wooster, $20; John Jeffrey, East Palestine, $17; John Camp, Zanesville, $8; George C. Allen, Kenilworth, $17; Mary S. Taplin, Akron, $8; minor of James Rollins, Steubenville, $10; Margaret A. Dennis, Saltsville, $8.

West Virginia—John Q. Raymond, Falls Mills, $12; Philip C. Marks, Arnoldsburg, $12.

NATIONAL CAPITAL NOTES.

The house agreed to the senate amendment to the urgency deficiency appropriation bill appropriating $636,000 to reimburse the state of Pennsylvania for expenses incurred during the civil war.

Representative Dalzell will explain the Lake Erie and Ohio river ship canal project before the house committee on railroads and canals today. The temper of the committee is favorable to the bill.

The committee on privileges and elections favorably reported to the senate an amendment to the constitution providing that the inauguration of president and vice presidents be held the last Thursday in April.

The new navy has cost the United States $99,803,928 for construction and $9,843,235 for repairs on completed vessels. These figures were supplied in a statement forwarded to the senate by the secretary of the navy.

A favorable report has been made by the house committee on interstate commerce on the bill authorizing the Central Railway of West Virginia to construct a bridge over the Monongahela river, near Morgantown.

The comptroller of the currency has authorized A. J. Solomon of Columbus, O.; H. A. Taylor, A. L. Byrnes, Robert Mann and Fred C. Rector, to organize the First National Bank of Elmwood Place, O., on $25,000 capital.

The house committee on labor has reported favorably the bill of Representative Barthodt of Missouri to prevent the United States marine band and other army and navy bands from competing with civilian bands or individuals.

Senator Foraker has offered an amendment to the Philippine tariff bill, providing that the rate of duty on Philippine products coming into the United States shall be 25 per cent of the Dingley rates. The committee bill provides for a 75 per cent rate.

The New Orleans Mardi Gras officials conferred upon Representative Burton of Ohio, chairman of the house committee on rivers and harbors, the title of "Duke of Rivers and Harbors," and presented to him the diamond and emerald-studded insignia of his august office.

Reports received by the marine hospital service for the past week show that there are now 12,122 cases of smallpox in the United States, as compared with 4,351 at the same period in 1901. The number of deaths from smallpox for the week was 290, as compared with 55 for the same week of last year.

HARFINA SOAP is made from pure vegetable oils and being medicated, destroys all disease germs, keeps the pores open and makes the skin soft and velvety. Cures pimples, blotches, etc. Unexcelled for the bath, nursery, hair and complexion. 25c. cakes at drug stores.

WATRES STILL CANDIDATE FOR GOVERNORSHIP

Lieutenant Governor Denies Flatly That He Has Withdrawn from the Race.

ASSURED OF SUPPORT

Gratified by the Many Promises of Aid Received by Him—Letters Received by The Pittsburgh Gazette and Hon. S. B. Dick of Meadville.

A story has been circulated through the state and has been published that former Lieut. Gov. Watres had withdrawn from the race for governor. The story originated in Washington and was telegraphed from there to a number of Pennsylvania papers. The Gazette yesterday sent a telegram to Gov. Watres inquiring as to the truth of the report. The following reply was received:

Scranton, Pa., February 10, 1902.

To the Editor of The Gazette:

There is no truth in the report that I have withdrawn from the field as a candidate for the Republican nomination for governor of Pennsylvania. I am a candidate and will remain one until the Republican state convention makes its choice. Nothing has occurred to discourage me. On the contrary, I have received assurances of support that are gratifying.

LOUIS A. WATRES.

Campaign Story Exploded.

WASHINGTON, D. C., Feb. 10.—(Special.)—Another campaign story was exploded here tonight. For several days the friends of Attorney General Elkin have been jubilant over the claim that there was no candidate in the race against him. They pointed to the letter of Representative Sibley declining to make a canvass for the nomination and then asserted that ex-Lieut. Gov. Watres had withdrawn from the contest. But I ascertained tonight that only on Saturday last a distinguished Republican of Western Pennsylvania had received a letter from Mr. Watres asking for the support of all those who believed that the nomination of Elkin would not be wise. The recipient of the letter was ex-Representative S. B. Dick of Meadville. Mr. Dick arrived here tonight. In speaking about the letter he said.

Watres Is in Earnest.

"Mr. Watres is a candidate in earnest. I received a letter from him on Saturday asking for the support of myself and all of my friends. Mr. Watres called attention to the fact that he was the only announced candidate in the contest against Elkin and he desired the support of all Republicans who were opposed to the nomination of the attorney general of the state."

In discussing the situation Col. Dick said: "I have nothing against Mr. Elkin, but I believe his nomination this year would be very unwise. We ought to select a strong man for the head of the ticket and I believe that Representative Sibley would be the strongest candidate. If he will make the race Dr. Flood of Meadville will withdraw from the contest for lieutenant governor.

Strongly Favors Sibley.

"Mr. Sibley would sweep the entire northwestern section and would secure the votes of counties all around Pittsburgh. The sentiment of our people is for Sibley's nomination, but ex-Senator Cameron also has a strong following. We want a popular candidate and one who can bring votes to the ticket."

Collector B. B. Brown and A. E. Sisson of Erie also arrived here tonight. They confirmed what Col. Dick had to say about the sentiment in that section of the state.

Wesley R. Andrews of Meadville, secretary of the Republican state committee, has received a number of letters urging him to enter the race for governor. The writers dwell on the mistake it would be to nominate Elkin.

Cattle Die of Starvation.

DENVER, COL., Feb. 10.—In Baca county thousands of cattle on the ranges are said to be dying from starvation and exposure to the weather. The cause of the mortality is due to a scarcity of grass and the freezing of the water holes.

KAUFMANN'S
"THE BIG STORE"

Some manufacturers, mistaking enthusiasm for enterprise, produce more goods than they can sell at regular prices. Importers, too, carried away by good prospects, buy more extensively abroad than their subsequent trade justifies. Thus come overproductions and surplus stocks, and sacrifices, concessions and losses. And thus comes this Mill and Factory Sale of about $300,000 worth of goods, all purchased and now offered by us at one-third and one-half less than the usual prices.

4 Paterson Ribbon Mills

And several New York Ribbon Importers, knowing our willingness to absorb any stock, no matter how large, providing their goods were right and the price low enough, have lately surrendered that overproduction and season-remainders to us

At 1/3, 1/2 and 1/4 Their Actual Value.

We've assorted the goods in the following four lots:

(No. 279.)

AN ORDINANCE—To suppress, restrain and regulate pool and billiard rooms in the city of Allegheny.

Section 1. Be it ordained and enacted by the select and common councils of the city of Allegheny and it is hereby ordained and enacted by the authority of the same, That the department of public safety of the city of Allegheny shall have and is hereby given the power and authority to license, upon the payment of five ($5.00) dollars annually, public pool rooms and billiard rooms within said city, and that each and every person, firm or corporation owning and operating, or operating a public pool or billiard room shall apply in writing to the superintendent of the bureau of police for a license therefor, setting forth in his, her or their application fully and specifically his, her or their nationality, previous occupation, place of location of pool or billiard room proposed to be licensed, the number of tables to be used, the number of rooms, and whether the whole or part of such house is to be used for such purpose, and such license when granted shall be approved by the director of the department of public safety and posted in a conspicuous and public place in the premises so licensed.

Sec. 2. No person under 18 years of age shall be permitted to participate in or play pool or billiards in any house or portion thereof, so licensed, nor shall billiards or pool be played in any house so licensed between the hours of 12 o'clock, midnight, and 6 o'clock a. m., nor shall any license permit drunken or disorderly persons to frequent or congregate on the premises for which such public license shall have been granted.

Sec. 3. The department of public safety shall have and is hereby given power and authority in case of any disorder, drunkenness, disturbance or annoyance of any kind in any such room or rooms or house so licensed to enter upon and into such place or places where pool or billiards are played and to arrest on view all persons acting in a disorderly manner or in such a way as to disturb the public peace; and the department of public safety shall have and is hereby given the right, power and authority to close any such licensed place violating the provisions of this ordinance, and shall also have the right and power to revoke and annul such license.

Sec. 4. Every person engaged in keeping an unlicensed public pool or billiard room shall be subject to a fine of not less than twenty-five nor more than one hundred dollars for each and every day such room or rooms that shall be kept open and in operation, which fine or fines shall be recovered summarily before any alderman or police magistrate of said city, all fines so recovered shall be paid into the treasury of the city of Allegheny for the use of said city.

Sec. 5. Every person violating any of the provisions of this ordinance and regulations thereof or shall fail to comply with its terms and conditions shall be subject to a fine of not less than five dollars nor more than twenty-five dollars for each and every offense, and in default of payment of said fine and costs, shall be committed to the common jail of Allegheny county or to the Allegheny county workhouse, for a period of not more than thirty days.

Sec. 6. That so much of any ordinance as may conflict with or be supplied by the foregoing be and the same is hereby repealed.
